JAP SEAPLANE TENDER SUNK BY ALLIED RAIDERS

Keep Supplies from Solomons Base.

(Maps on page 5.)

ALLIED HDQ. IN SOUTHWEST PACIFIC, July 24 [Saturday]—(AP).—Allied bombers smashed a Japanese attempt to run supplies to their strong base at Buin on Bougainville Island in the Solomons Thursday night, sinking a 9,000 ton seaplane tender and damaging one of four escorting destroyers.

The seaplane tender, of the "Nisshin" class, was sighted off Bougainville just at dusk. Heavy torpedo and dive bombers, protected by fighters, sped to the attack and sank the tender.

Japanese Zeros, in force, attempted to ward off the attack but were driven away. Five of the enemy planes were shot down. Three American planes are missing.

Sink 12 Enemy Barges.

Bombers and fighters also found good hunting in sweeps along New Guinea and New Britain Islands, destroying 12 enemy barges between Hanisch harbor, just east of Lae, and Cape Bushing, near the western tip of New Britain. At least 13 other barges were destroyed or seriously damaged.

Today's official announcement from Gen. MacArthur's headquarters contained no information on the progress of American troops closing in on the Japanese air base at Munda, New Georgia. It said merely that "dive bombers attacked enemy gun positions in support of ground troops" in that area.

A surprise attack on enemy installations at Rekata Bay on Santa Isabel Island, northeast of New Georgia, was carried out by United States fighters and bombers.

Down 13 Jap Planes.

In Vella gulf, between Kolombangara and Vella Lavella Islands allied light surface units intercepted four Japanese barges attempting to run supplies to Kolombangara. Two barges were set afire.

A strong force of four-engined bombers, escorted by fighters, dropped 61 tons of bombs on Bogadjim, 20 miles south of the big Jap base at Madang, New Guinea. Large fires resulted. Approximately 60 Jap fighters rose to battle the raiders, and at least 13 and probably 18 were destroyed. Two American fighters were lost.

In other New Guinea sorties, allied warplanes attacked Finschhafen, Voco point near Lae, Salamaua, and Malolo village. Small formations of enemy fighters were dispersed but one American plane failed to return.

Heavy Warships Blast Kiska.

Washington, D. C., July 23 (AP).—A Pacific fleet task force which possibly included battleships heavily bombarded Japanese positions on Kiska Island yesterday, the navy announced today. Enemy coast defense guns returned the fire but failed to damage any ships.

The shelling, seventh of a series probably designed to soften up enemy defenses, followed by 24 hours an American bomber raid aimed at knocking out the new air strip on the island. Numerous hits were scored on the runway and camp area and several fires were started, an official report said.

Meanwhile, in the South Pacific, the Japanese for the second time in two days bombed the American base on Funafuti Island in the Ellice group on Thursday. This raid apparently was heavier than the first, in which only three bombers caused no damage or injuries.

Down Two Jap Raiders.

In Thursday's attack two Jap bombers were shot down and the navy official report said there were some personnel casualties. No damage to installations was reported.

The strategy behind the Jap air attack on Funafuti caused much speculation. Some regarded it as the beginning of a counter-thrust at the center of the supply route between Hawaii and the Solomons.

Both the air and naval actions off Kiska occurred in the afternoon. On Wednesday army Liberator bombers had blasted the 3,700 foot Jap runway and main camp. On Thursday, the navy said, American "heavy and light surface units" shelled enemy positions on Kiska. This indicated either battleships or heavy cruisers, or both, were among the attacking vessels.

GOWRAN TELLS OF VICTORY IN JUNGLE CLASH

Sees Box Barrage Defeat Japs.

The second part of the dramatic eyewitness description of a surprise Japanese attack on an American army headquarters in the jungles of New Georgia Island in the Solomons—a desperate struggle in which generals and colonels fought in foxholes beside doughboys to help repulse an almost successful enemy—was received last night from Tribune Correspondent Clay Gowran and is printed herewith.

The thrilling account was begun in yesterday's Tribune but the dispatch was interrupted by a transmission break. Details of the Japs' night-long assault were carried by Gowran from New Georgia to Rendova Island and there written and sent to The Tribune.

Gowran, who saw the entire action from a shell-raked foxhole in the midst of the melee, told in his first dispatch how a strong Jap guerrilla unit attacked the tiny American encampment. With waves of enemy soldiers plunging to the very mouths of American guns before being mowed down, the besieged men feared for a time that they could not win.

So grim was the outlook at the height of the battle that all maps, records, and Gowran's notes and dispatches were placed in a pile ready for the torch should the Japs break thru. But the day was saved by a box barrage, ordered by an American general from his foxhole in the besieged American headquarters, which was laid around the camp and which drove off the enemy.

BY CLAY GOWRAN.
[Chicago Tribune Press Service.]

WITH U. S. ARMY ON NEW GEORGIA, July 18 [Delayed].—Half an hour before dusk we were as ready as possible. We lay in cots near our foxholes to try to snatch some rest before the attack. Dim forms stole past us thru the greenish jungle twilight—soldiers carrying extra cases of ammunition to the machine guns.

Complete blackness had just settled when the machine gun in front of my foxhole opened fire. Two more took up the staccato chatter to the left and right. We jumped into our foxholes, where we were to stay 12 hours.

After 20 seconds the heavy fire of the guns stopped and silence blanketed the jungle. Then we heard the Japs. They seemed to make no attempt to conceal their movements. Screaming and howling, they came crashing thru the underbrush. In English they shouted: "Hey, Mac, here come the Japs," or "It's all over for you now, Americans," or "God help you, Joe."

Guns, and Then Grenades.

Their cries were high pitched whines. Between the shouts in English, they called to each other in Japanese. They were like a troop of apes, chattering as they crashed thru the jungle toward us.

Our guns opened up with a long burst, but this time there was the higher rattle of the Japs' light machine guns and the bursts of grenades they hurled toward us. In the first minutes a colonel somewhere behind me was hit in both legs as he leaped toward his foxhole.

Our orders were to stay in the foxholes, no matter what happened, to avoid being hit by our own fire. Unluckily I was all alone. The psychological effect of lying there alone and unarmed thruout the night added to the real danger.

By now the great tropical moon had risen, highlighting the jungle foliage with a pale ghostly glow. The Japs took advantage of this to

OWI Showers F.D.R. Buttons Over Europe

[Chicago Tribune Press Service.]

Washington, D. C., July 23.—The office of war information is purchasing and arranging for the distribution of thousands of small gifts to residents of enemy occupied countries in a move to "boost their morale," OWI officials said today.

The gifts range from seeds for European war gardens to small printing presses to be used by the underground in axis occupied nations.

The OWI did not disclose the method of distribution used, except to say that in most cases the gifts are turned over to governments in exile which carry on from there. Some of the goods are dropped from airplanes, it was said.

Message in Each Package.

The list of items being sent includes bars of soap, mirrors, chocolate bars, pencils, sewing kits, tea bags, powdered bouillon, mimeograph machines, and phonograph records. A propaganda leaflet or message of encouragement is included with each package.

The printing presses are small enough to be enclosed in a suit case. They are made of aluminum and weigh about 23½ pounds. The mimeograph machines weigh only 12½ ounces each and are accompanied by ink, stencils, and other equipment.

The bars of soap are about hotel size and carry pictures of M-4 tanks and B-17 bombers, described as "weapons of victory."

Roosevelt's Picture Included.

The phonograph records carry a picture of President Roosevelt, and are musical numbers. Another novelty is a lapel clip with a picture of the President on it.

Rubber stamps with messages such as "Heil Hitler—Heil Hunger" are also being sent, along with ink pads, and a message urging residents to use the stamp on paper currency, window panes, restaurant menus, and similar places.

The gift program is directed by OWI's overseas branch, headed by Robert Sherwood, author and ghost writer for the President.

Mrs. Caroll K. Parron, who has direct charge of the undertaking, said it is confined for the present to the European area, but that occupied territories in the Pacific would be included if a request is made by exiled governments or United States military authorities. The cost, Mrs. Parron said, is nominal because the items are inexpensive. She could not supply an exact figure, but said it would be less than $100,000 for a year.

Invasion Picture

Turn to page 6 for a large aerial picture of the invasion of the southeast coast of Sicily. The picture was made by United States army flyers.

BUGS WITH FACES LIKE HIROHITO'S RAID THE BRONX

New York, July 23 (AP). — The Bronx, northernmost province of New York City and home town of a famous American cheer, is in an awful fix—a nightly aerial invasion by an odd species of cockroach.

The critters are about two inches long, with fuzzy legs, and have, Borough President James T. Lyons said, "too strong a facial resemblance to Hirohito."

They frighten housewives, upset children, and saloonkeepers report they have a horrible effect on the late bar trade.

Today the Rev. Joseph Assmuth, professor of zoölogy and entomology at Fordham university, examined a specimen and exclaimed:

"Boy, they're good!"

He said they were cockroaches of the species blatta which would eat anything. He said they flew only at night, and probably originated in the sewers. Lyons and Borough Chemist Walter G. Doherty spent the rest of the afternoon in reconnaissance at various sewer openings.

CENSORS CLAIM CURE FOR YANKS' CODE IN THE HEAD

ALLIED HDQ., NORTH AFRICA, July 23 (AP).—Army physicians may have a different idea, but army censors say the most common ailment among American troops overseas is "code in the head."

When he gets abroad the average doughboy is beset with an overwhelming desire to tell the folks back home exactly where he is stationed, which is strictly against army regulations. So he sets about to outfigure the censors with homemade codes.

There have been some fairly ingenious ones discovered by the men who scan the letters. One lad tried to spell out "Tunis" by writing five consecutive letters to his mother and giving her five different middle initials.

The trouble was the letters arrived out of sequence. Together, the initials spelled "nuts" and somewhat bewildered parents wrote back, "We cannot find that place anywhere in North Africa."

Another soldier openly notified his parents that the first letter of the first word of each subsequent letter would spell the name and place where he was. The censors eliminated the opening sentence of every letter, then told him not to do it any more.

Sicily Hungry, but Children Cry 'Cigarets!'

BY NED RUSSELL.
[Representing the Combined U. S. Press.]
[Distributed by the Associated Press.]

SYRACUSE, Sicily, July 21 [Delayed].—The people of this island for the most part are hungry, many because of the disruption of island communications under the impact of war.

In my daily drives around the front thru squalid villages, I am constantly begged for biscuits and cigarets. The people, especially children, want cigarets in preference to food. The country as a whole is heavily diseased which also accounts for the languid behavior.

Food Is Plentiful.

The Sicilians normally live on pasta—a sort of spaghetti-macaroni—with tomato sauce and a little meat, sardines, tuna fish, cheese, and olive oil. All these are plentiful but the Italians bungled distribution. There also are thousands of lemons and oranges from the vineyards.

Allied soldiers have been ordered not to buy local food, altho natives often stand on the roadside in villages offering tomatoes and lemons for cigarets. These villages are full of women, many of them carrying emaciated, disease marked babies.

Water Bought and Sold.

There is a severe shortage of water and about two-fifths of the island has little for drinking. Consequently water is still bought and sold and sometimes carried for miles.

The principal diseases are malaria, sandfly fever, dysentery, typhoid, malta fever, venereal diseases, and typhus.

LANZA EXPLAINS AXIS' DILEMMA ON ITS LONG LINE

BY COL. CONRAD H. LANZA.
[Regular contributor to the Field Artillery Journal and recognized as an authority on military matters.]

It now seems clear that accounts of the defenses of Sicily were exaggerated, and were partly bluff. There were some good defenses, but none that could withstand the fire of our naval ships. They were manned by three Italian coast divisions, commanded by generals who, prisoners said, were second rate ones who had failed in other fields.

The main axis defense has been made by only two regular Italian divisions and two German armored divisions. The latter appear to be reconstituted divisions, made up of Germans and German tanks, which happened to be in Sicily destined for Tunisia at the time Tunisia fell. There has been no rush of either German or Italian troops to Sicily. The sea and air power of the allies prevented this, and the axis has not attempted it.

Second Raters Sent.

It seems probable that the axis realized the futility of defending Sicily, and sent its second rate troops, and not many of them, to delay the allies as long as possible. The role of Sicily and other Mediterranean islands is to force the allies to prepare complicated expeditionary forces and to cause a lot of delay and some losses, before another operation can be undertaken.

What kind of defense will the axis offer, when the European mainland is invaded? This will depend upon its location. A successful invasion of France or the Low Countries would be fatal to Germany, and it can be expected that in this area it would present a formidable defense. It might not do so elsewhere.

West Coast on List.

After the allies have taken Sicily, and probably Sardinia and Corsica, an invasion of the west coast of Italy appears in order. The most favorable location for it would be between the Arno river on the north and Naples on the south. There are good beaches and ports in this stretch of coast, the country is suitable for an advance on Rome, and south Italy would be nearly cut off. With the existing railroad and road net, it would be difficult for the axis to supply large armies in this area.

The axis is a continental power. It has no chance on the seas, or on islands, and knows it. But it has large armies, and a very respectable air force which may increase in strength. It can oppose invasions with chances of success only where it can bring its huge armies into action. It cannot do this on islands, nor safely in central or south Italy, where its forces might be cut off by an allied landing in their rear, as in Tuscany, for example.

Spezia-Rimini Line Possible.

The Verona conference, which Mussolini and Hitler attended last Monday, must have discussed the advisability of abandoning central and south Italy with the least loss to the axis and the greatest expense, particularly in time, to the allies.

There is of course no information as to what the line selected for a stand may be. It is improbable that it would be the Brenner Pass. North Italy is an asset and is highly suited for a defensive war. A more appropriate line of resistance would be across Italy from near Spezia to Rimini.

Similar reasoning would lead to the belief that the axis may ultimately withdraw from Greece, as too exposed to the allied fleets, and establish its defense about on an east and west line thru Salonika. This, too, may have been decided at Verona.

Allies Can Pick Place.

There are only a certain number of allied divisions. As long as they remain in Africa or in Great Britain the axis doesn't know where they will strike. It now guards a very long line. When the main allied force has landed in Europe, the allies will have shot their bolt. The axis no longer will need to retain strong forces in numerous places.

The chance of the axis is that the allies will invade Europe somewhere where its great armies can get at them. South Italy, Greece, the Mediterranean islands, and Norway are suitable for delaying actions only, and not for the final battle. The axis might prefer to have a showdown in north France, but it must accept whatever theater of operations the allies select.

FAN OUT FROM SEIZED CAPITAL TO MOP UP FOE

Four-Fifths of Isle Won by Allies.

Report Crete Bombed

New York, July 23 (AP).—The Berlin radio said tonight that "strong forces of allied bombers have attacked German air fields in Crete," the large Greek island south of the Balkans. The broadcast was recorded by NBC.

The Germans said 10 allied planes were brought down by anti-aircraft guns alone.

The attack was reported directed against air bases and the three largest towns in Crete. Damage was called "insignificant."

The Germans said this was the first enemy action against Crete since the beginning of the invasion of Sicily and said "it obviously was made for the main purpose of probing axis defenses in Crete."

(Maps on page 2.)

ALLIED HDQ. IN NORTH AFRICA, July 23 (AP).—An American armored column striking with deadly speed to the north coast has captured Palermo, capital of Sicily, to trap 45,000 or more axis troops and apparently end axis resistance in four-fifths of the island.

The United States 7th army tanks and cars which thundered into the sixth largest Italian city from three sides already had begun fanning out to mop up thousands of axis troops.

Reuters [British] news agency quoted a Stockholm dispatch saying axis forces had begun evacuating Sicily. The source of the report was a dispatch to the Svenska Dagbladet from Berne, Switzerland.

Cut Off Three Divisions.

An official announcement said that one armored column hooked into the Sicilian capital from the southwest, another hit it from the south and southeast, and a third cut northward to intercept enemy forces withdrawing from Palermo toward the east. It was estimated that approximately three divisions, 45,000 men, now are cut off in western Sicily.

Up to last midnight the American 7th army had captured 27,000 prisoners, 250 guns, 500 vehicles, and 10,000,000 rounds of ammunition, and had destroyed 84 tanks of which 14 were 60 ton Mark VI. Tigers. This was a conservative count.

Capture of Palermo, largest city in Sicily, with a population of 300,000, exceeded even the expectations of the American commander, the speed specialist, Lt. Gen. George S. Patton Jr. The Americans drove a distance of more than 60 miles in 58 hours from Enna in central Sicily.

Complete Capture by Evening.

Advance elements penetrated the city at 10 a. m. yesterday, so paralyzing the large defense forces who had believed the Americans to be at least 15 miles away that there was virtually no resistance when the main body of the invaders arrived. Gen. Eisenhower's official report said the capture was completed by evening.

The Italians were so surprised that they had no time to carry out elaborate preparations to blow up docks and other military installations and these fell into allied hands without damage except for that done by their own bombs.

This can be quickly repaired, it was said, and the allies will then have a most advantageous springboard for naval and air action over Sardinia and Italy and their sea approaches.

Capture Italian Admiral.

Italian defenders complained that they had received no assistance from their navy except for the sending of a fast speedboat to remove a number of high naval officers at the last moment. However, allied headquarters announced the capture of Adm. Priato Leonardi, former commandant of Augusta, Sicily, naval base.

There was no word of the progress of the American columns thrusting along Sicily's southwestern coast and last reported at Castelvetrano. They were believed far beyond that point, however.

[*The German radio said axis forces had been withdrawn from Marsala and Trapani on the west coast. Capture of these cities would leave 80 per cent of the island undefended.*]

Spread over Wide Area.

Spreading over a huge area of the island American forces had now established an "L" shaped line running from Palermo to Mezzoiuso, 15 miles to the south, then west and south thru Corleone, Campofiorito, Contessa Entellina, Santa Margherita di Belice, Montevago, Castelvetrano and beyond.

[*This line leaves an area of only about 1,250 square miles in western Sicily outside the zone of allied occupation.*]

Axis resistance was now compressed in the northeastern tip, in an area only a little larger than Cape Bon where Col. Gen. Jurgen von Arnim's army met catastrophe in Tunisia.

Defending Catania, the southern gateway to the escape port of Messina on this tip, the Nazi Hermann Goering division fought with unabated tenacity in a battle which had held Gen. Bernard L. Montgomery's British 8th army veterans to a yard-by-yard progress for eight days.

But the Canadians, on Montgomery's west wing, were reported swinging around the German flank, meeting fierce resistance but driving the 15th German armored division before them.

[*The Rome radio implied an axis retreat near Catania, saying "our forces have readjusted their positions to the rear." Earlier, the Berline radio said the British had pierced the main axis line.*]

Yanks in Area, Too.

The main American force, despite the sweep of its units over most of western Sicily, was reported to be in the area northeast of Enna where it could bear directly upon the Nazi western flank.

Allied air forces maintained their rounds of devastating attacks, aiming particularly at the Italian mainland's battered and vulnerable rail network for the fifth time in six days and nights.

Flying Fortresses laid explosive strings across the tracks at Foggia in southwestern Italy. Medium bombers scored many direct hits on similar targets at Salerno and Battapaglia south of Naples, light bombers raided the air fields at Salerno and Capodichino near Naples, and Canadian Wellingtons also struck at Capodichino and other targets near Naples.

[*The Italian official report said allied raiders caused considerable damage at Foggia and Salerno, and some damage at small centers in Lazio and Campagna Romana, near Rome.*]

R. A. F. Bostons and Baltimores, turning upon the twisting roads near Mount Etna, reported the destruction of 65 trucks at one point and damage to 300 more in the Troina, Aderno, Paterno, and Misterbianco areas.

3 HORSES, A DOG AND DORIS DUKE BOUND FOR RENO

New York, July 23 [Special].—Three horses, a shepherd dog and an automobile—all belonging to wealthy Mrs. Doris Duke Cromwell—are in a railroad car headed for Reno, Nev. tonight.

Doris, herself, is on a train, too. It is reliably reported she is Reno-bound to seek a divorce from Jimmy Cromwell, her book-writing, office-seeking husband.

George Lefevre, who runs Mrs. Cromwell's estate at Somerville, N. J., insists that Mrs. Cromwell, prior to her departure for the west on Wednesday, told him she was heading for California as were the horses and the dog. Way-bills for the animals, however, were checked for Reno from Somerville on Tuesday.

In Washington tonight, Cromwell said he didn't know anything about his wife's plans. He said he guessed people only went to Reno for a definite purpose, but that he had received no word that his wife was decree-shopping.

In 1928, Delphine Dodge, daughter of the Detroit automobile millionaire, divorced Cromwell. Cromwell and the Duke tobacco heiress, sometimes called the "world's richest girl," were married in 1935.

BRITISH PLANTS WIN PRIORITY ON GIRL DRAFTEES

[Chicago Tribune Press Service.]

LONDON, July 23.—The conscription of British girls for the auxiliary territorial service—the women's section of the British army—has been temporarily suspended by Minister of Labor Ernest Bevin, it was reported tonight.

Bevin is diverting the woman power still available into the factories instead, it was said. Even the women's auxiliary of the air force, which is still clamoring for recruits, will have to face intensive competition from the factories.

Girls are being informed at labor bureaus that they may choose service in factories, in the land army, or in nursing, if they are suitable. The halt in ATS recruiting is said to have caused bitter disappointment among many girls who, on registering, expressed a preference for the army.

Spanish General with Axis Put Under Spain's Orders

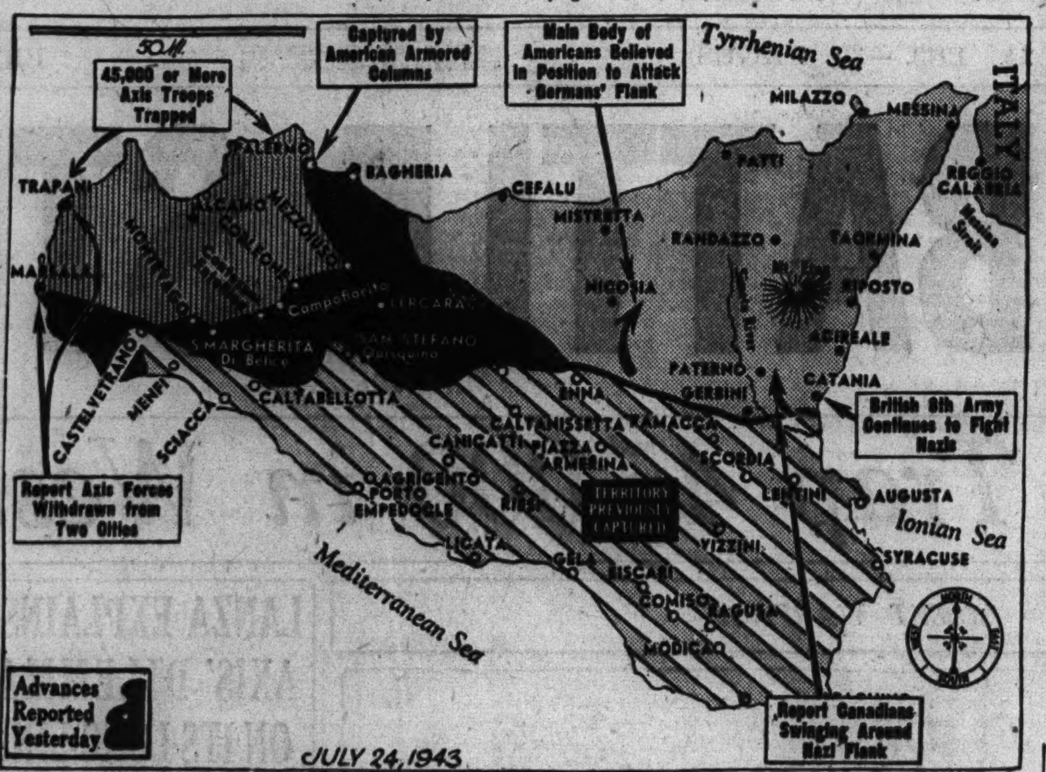
MADRID, July 23 (AP).—Gen. Esteban Infantes, commander of the Spanish Blue Legion fighting with the axis on the Russian front, has been placed under direct orders of the Spanish ministry of war, a ministry bulletin announced today. The order did not say whether the move concerned a transfer or not.

Aqueducts Bombed; Parts of Rome Without Water

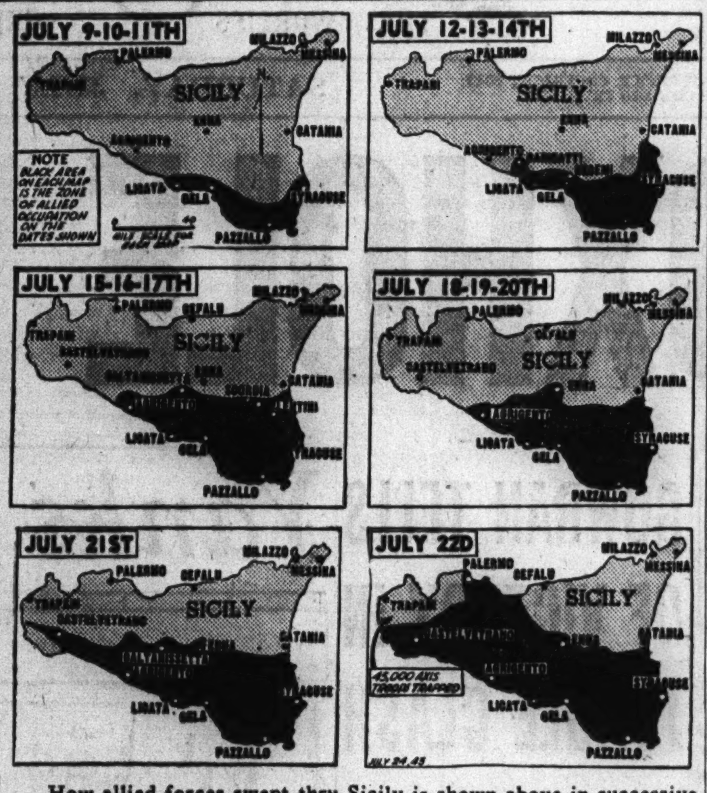
BERNE, Switzerland, July 23.—It was officially announced today that owing to the destruction of several important aqueducts during Monday's raid on Rome many quarters of the city now have no water.

Developments in Sicilian Invasion and Day-to-Day Record of Allied Conquest of Italian Island

(Story starts on page 1.)



Yesterday's developments in Sicilian invasion and lineup of forces after American seizure of capital city of Palermo, which cut island in half.



How allied forces swept thru Sicily is shown above in successive stages, beginning with July 9 invasion and continuing thru July 22.

OFFICIAL REPORTS ON BATTLE IN SICILY FROM BOTH SIDES

ALLIED.

ALLIED HDQ. IN NORTH AFRICA, July 23 (AP).—An allied headquarters official report said today:

Fierce fighting continues south of Catania. Canadian troops continue to make steady progress against fierce resistance.

To the west, American troops have continued their successful advance, the high light of which was the capture of Palermo on the evening of July 22.

Bombers of the northwest African air force yesterday carried out important attacks on the Italian railroad system.

Heavy bombers attacked railway communications at Foggia while medium bombers attacked similar targets at Battapaglia and Salerno. Many bombs fell on the railway tracks and on adjacent industrial buildings.

Bomb Enemy Transport.

Our light bombers attacked Salerno and the air field at Capodichino on the previous night.

Enemy transport and road communications in Sicily were bombed during the day and a large number of vehicles were destroyed or damaged.

Intruder aircraft operated over the island during the night and our fighters maintained their sweeps and patrols.

During the course of these operations seven enemy aircraft were destroyed.

P-40 Warhawks carried out a sweep over Sardinia, attacking enemy communications. A number of enemy aircraft were encountered and 17 of them were shot down.

From all these operations six of our aircraft are missing.

ITALIAN.

Following is the Friday war report of the Italian high command as broadcast from Rome and recorded by the Associated Press:

Attacks of powerful enemy forces against the central sector of the front and in the Catania plain were repulsed by Italian and German troops.

In the western sector, after fierce fighting against powerful armor formations, the defense was compelled to move to positions in the rear.

Axis air formation acted against enemy shipping in Sicilian waters. One merchantman of large tonnage was hit and set on fire by our torpedo carrying planes east of Cape Passero.

Claim 10 Planes Downed.

Over Sardinia Anglo-American air forces lost 10 multi-engined planes in the course of raids mentioned in yesterday's official report. Antiaircraft defenses, besides the two already reported, shot down a third plane.

Enemy raids over Foggia, Salerno, and small centers of Lazio caused considerable damage in the first two towns. Slight damage was caused in Campagna Romana.

One enemy plane was destroyed in an aerial engagement over Foggia and one more over Montefalcione [Avellino]. The crew of the latter was captured.

Eight Italian planes are missing from operations of the last two days.

GERMAN.

The German official report as recorded by the Associated Press, reported the following on the war in Sicily:

In Sicily there was heavy fighting only in the central sector. Enemy attacks were repulsed with heavy losses to the attackers. In the western part of Sicily, axis troops have withdrawn to defense positions in the rear. The enemy is following up only hesitatingly. Artillery dueling continues at Catania.

The German air force in night attacks against enemy supply shipping between Malta and Sicily hit four freighters of medium size with heavy bombs.

Gen. Allen and Teddy Jr. Receive Croix de Guerre

ALLIED HDQ. IN NORTH AFRICA, July 23 (AP).—Maj. Gen. Terry Allen, commander of the "fighting first" division of United States infantry, his deputy commander, Brig. Gen. Theodore Roosevelt, and his aide, Maj. Kenneth Downs, former war correspondent, have received the French croix de guerre from Gen. Louis Koeltz of the French 19th corps, it was announced today. The 1st division, now fighting in Sicily, participated in numerous engagements at the side of Koeltz's French troops in Tunisia.

THE NAVY ROUTS A CONFUSED FOE BY SCORE OF 29-9!

Up to last night the softball team of the navy bureau of yards and docks had lost six consecutive games in the Furniture Mart Inter-Office league. After surveying this record, Lt. Comdr. Russell Liberty suggested playing a newly organized team of girl employes.

The girls, refusing to be insulted, challenged the naval engineers to a game. It was played last night in Lake Shore park, and the score was 29 to 9.

This would be a more remarkable story if the girls had won, but the fact is that the naval engineers won. The girls had a good excuse. They explained they became flustered when a newspaper photographer appeared. They challenged the enginners to a new game, with no photographers around.

REPORT VATICAN IGNORES ITALY'S MOVE FOR PEACE

New York, July 23 (AP).—A British broadcast, quoting the Swedish newspaper Nya Dagligt Allehanda, said tonight that Italy, Hungary, and Rumania recently asked the Vatican to mediate for a separate peace, but the Vatican refused to negotiate.

The broadcast, recorded by CBS, said "This report has not yet been confirmed in London."

The newspaper said that the peace feelers were made by Count Galeazzo Ciano, Italian ambassador to the Holy See, Nicolas Kallay, Hungarian prime minister who visited the Vatican in April and Mihail Antonescu, Rumanian foreign minister, who was in Rome recently.

SELIGMAN, HERO OF LEXINGTON, TO GET NEW JOB

Bunker Hill, Ind., July 23 [Special].—Comdr. Morton T. Seligman, hero of the battle of the Coral sea, will be detached Tuesday as commandant of the Bunker Hill primary naval air training station here and assigned to a new post on the west coast, it was reported today. He will be succeeded by Capt. D. D. Gurley, executive officer of a similar station at Ottumwa, Ia. Seligman was executive officer of the aircraft carrier Lexington when it was sunk in the Coral sea battle. He has been decorated with the navy cross three times.

DUBBED 'FORT' BALONEY; ADMITS THAT'S BALONEY

[By Wireless to the New York Times and The Chicago Tribune.]

LONDON, July 23.—The British aeronautical magazine, "Aeroplane," whose co-founder and former editor, C. C. Grey, had dubbed the Boeing Flying Fortress the "Flying Baloney," paid high tribute to the big four engine bomber in its issue published today.

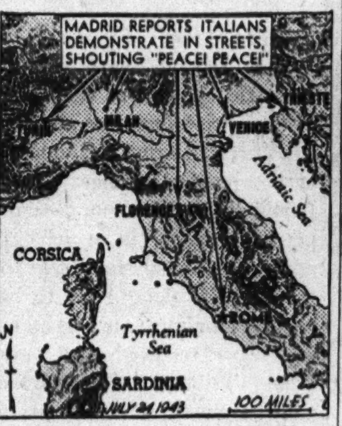
In an article titled "Bomber Self-Defense," the magazine says "Flying Fortresses have reduced the enemy's fighter attacks to snap shooting," adding, "No bomber could be treated with greater respect by German fighters now."

Praising the heavy fire power of the Fort and its gun turrets, the article concludes, "We will gladly offer our thanks to those Fortress crews who showed us what a little more weight and little more range in turret armament might mean."

Chicago Soldier Killed in Army Camp Accident

Pvt. Michael Basile, 29 years old, one of the five sons of Mr. and Mrs. Frank Basile, 6035 Laflin street, who are serving with the army and navy, was killed accidentally at Camp Tyson, Tenn., Thursday, his parents were informed yesterday. Pvt. Basile entered the army July 4, 1942. He had been employed several years by a wholesale drug firm. His brothers in service are Tech. Sgt. Frank J., Sgt. August, Vincent, a second class seaman, and Pvt. John, who is in North Africa.

'Peace! Peace!'



Reported reaction of the Italian mainland to developments in Sicily.

ALLIED HDQ. IN NORTH AFRICA, July 23 (AP).—Repercussions of the lightning seizures of Palermo by United States forces were reported today from all over Italy. Madrid dispatches said Italians demonstrated in the streets of Rome, Venice, Milan, Turin, Florence, and Trieste, shouting "Peace!" These reports also said that a wave of strikes and sabotage swept the country.

GIRL DRIVES HOLDUP CAR.

A girl wearing green slacks accompanied two youthful robbers who invaded a tavern and liquor store at 1814 Addison street yesterday. They forced Gerado Giannini, owner of the place, to give up $250, then fled in an automobile which the girl drove.

FAULTY LANDING GEAR KEEPS SHIP CIRCLING 2 HOURS

For two hours yesterday a faulty retractable landing gear prevented Vance La Bolle, 1563 Lexington avenue, Harvey, a civilian test pilot, from landing an airplane in which he was flying with Anthony Samola, an airplane test engineer employed by the navy in Philadelphia, Pa.

W. R. Jacobs, manager of the Rubinkam airport at 167th street and California avenue, Harvey, said the plane was about to approach the field for a landing when employes noticed that only one wheel had partly lowered. They grabbed an airplane wheel and signaled the pilot that his landing gear was not in position.

La Bolle circled the field for nearly two hours attempting to lower the gear and finally radioed Chicago airport to send an ambulance and fire equipment in anticipation of a crash landing. The gear suddenly lowered, however, and La Bolle flew to the Chicago airport, where he landed safely.

BRITISH RAIDERS ATTACK BELGIAN POWER STATIONS

LONDON, July 23 (AP). — Two power stations in Belgium were attacked today by R. A. F. Bostons which dropped delayed action bombs from a height of only 50 feet.

R. A. F. Fighters made sweeps over occupied Europe today, attacking enemy transport.

Enemy planes were reported over southwest England and Wales last night, marking their first appearance over Britain in a week.

50 Executed for Helping Commando Raid on Crete

CAIRO, July 23 (AP).—For aiding in the July 4 British Commando landing and raid on the Heraklion airdrome, 50 Cretans have been executed by the Nazis on orders of Military Gov. Brauer who warned "severer measures" would follow, the Hellenic news service reported tonight. The Nazi military governor ordered a curfew, closed cinemas to civilians, and forbade laborers threshing their own corn.

TELLS OF FORT'S RETURN FLIGHT FROM THE GRAVE

Chicagoan Says It Shot Down 6 Axis Planes.

Tech. Sgt. Carl Olson, 23 years old, the only Chicago man aboard the Flying Fortress Thunderbird on its famed "back from the grave" flight in North Africa last Jan. 12, said yesterday that the bomber "was just beginning to fight at the moment the rest of the formation thought we had been knocked out by a swarm of fighters."

The Thunderbird kept up the fight, took an amazing beating, surmounted almost every conceivable obstacle and returned safely to its base at a desert airdrome two hours after it had been chalked off as lost, Sgt. Olson related. He was back home to visit his father, Carl O., and his sister, Mrs. Lorraine Grindy, a WAC, who lives at 9047 Escanaba avenue. Sgt. Olson has been on 49 bombing raids over Europe and Africa.

Sent to Smash Airdrome.

The Thunderbird, piloted by Capt. John L. Cronkhite of St. Petersburg, Fla., was on a mission to knock out an axis airdrome near the coast of Tripoli. To make sure the target was hit effectively, the bombers approached it at an altitude of 10,000 feet.

"A German Junkers on reconnaissance tipped our altitude to the ground batteries and they opened up on us," Olson related. "Just before we dropped our bomb load No. 3 engine on the starboard side was knocked out by flak. Then as we turned for home we were jumped by about 30 enemy fighters and one of them shot out our No. 4 engine."

The Thunderbird fell to an altitude of 900 feet before Capt. Cronkhite was able to stop its descent. Ten of the fighters swooped down to finish the disabled plane, but the Thunderbird's crew shot down six and drove off the rest, Olson's guns in the top turret accounting for one of the enemy planes before the turret was shot out of commission. He was slightly wounded by shrapnel.

Mountains Worse than Foe.

After the battle was over, however, the Thunderbird faced something more formidable than the foe—a range of mountains too steep for the crippled fort to climb. Eventually Cronkhite "wormed his way" thru the hills to the desert.

"Then we hedge-hopped the rest of the way in," Olson said. "The skipper made a swell landing without brakes, by ground-looping the ship after we were down."

Sgt. Olson was awarded the distinguished flying cross for his "courage and devotion to duty." He said he has applied for cadet training so he may become "a pilot like Capt. Cronkhite."

THIS LIGHTNING VICTIM HAS TWO STRIKES ON HIM!

Medford, Ore., July 23 (AP).—Forest Service Lookout Man Francis Bush didn't wait for the third strike.

Lightning struck his lookout post, knocking a spoonful of apricots from his hand and starting a fire in nearby timber. Unhurt, he lifted the telephone to report the blaze.

A second bolt hit the telephone. Again Bush escaped injury.

This time he dashed out and got help to extinguish the fire.

Bear Blitz at Cabin.

Blue Mountain, N. Y., July 23 (AP).—A "one bear blitz" all but wrecked a forest fire observer's cabin atop Blue mountain in the central Adirondacks, the conservation department reported today.

While Observer Gordon Gauvin was away from the cabin a black bear forced open the door, entered the kitchen and was trapped when the door blew shut.

The bear battered down the partition and poked out nine window panes. He left without molesting the food.

PATROL PILOTS TO GIVE RIDES TO FUTURE FLYERS

Civil air patrol officers of squadron 613-3 will provide free airplane rides tomorrow in ships of the squadron at Rubinkam airport to men between 17 and 26 years old, who are interested in becoming army air forces aviation cadets.

Squadron Comdr. Dr. N. A. Kingston of Harvey said members of the patrol will start flying at 9 a. m. and continue as long as there are applicants. The airport is at 87th street and Harlem avenue. Enough airplanes to accommodate considerable numbers, between 20 and 25, will be on the field.

Thousands of young men are eligible for training as combat pilots, bombardiers, or navigators. Army regulations prevent civilians from flying in army ships, so the civil air patrol, which is under command of the war department and engages in many war flying missions, was enlisted by the army aviation cadet examining board to give these men their first flight experience.

Pacific Flights Win Medals for 3 Midwestern Airmen

ALLIED HDQ. IN SOUTHWEST PACIFIC, July 19 [Delayed].—Three midwest airmen have been awarded decorations for flying operations in the southwest Pacific area. Staff Sgt. Kenneth O. Engle of Ottawa, Ill., and Tech. Sgt. Wilbert C. Norman of Benson, Ill., received the distinguished flying cross. Lt. Joseph C. Poire of Dubuque, Ia., was awarded the air medal.

CAR HITS BRIDGE; TWO HURT.

HIT SICILY WITH 3,400 TONS OF BOMBS IN WEEK

Allied Power Shown in First Stages.

BY SEYMOUR KORMAN.

[Chicago Tribune Press Service.]

ALLIED HDQ. IN NORTH AFRICA, July 23.—The power and superiority of the American and British air forces even in the earliest stages of the Sicily campaign were evident today in a recapitulation which told of more than 3,400 tons of bombs being unloaded on the island during the first week of the invasion. In the same period allied bombers dropped another 600 tons on Italian mainland targets including Naples, San Giovanni, and two air fields in the south.

The raiding of San Giovanni was synchronized with the pounding of Messina in Sicily. These cities are the terminals of the militarily vital train ferry service across the narrow Strait of Messina.

Bomb Rail Line.

One of the biggest raids of that week was made by Flying Fortresses which plowed two huge craters in the main railway line south of Catania, on Sicily's east coast, and attacked the junction of the Palermo-Catania line.

The Messina freight yards were badly damaged and some large vessels at the docks were reported sunk after an explosion. Oil storage tanks near the railway yards also were hit and in a follow-up raid on July 14 by Fortresses and American medium bombers another oil tank went up in flames.

Down 175 Planes.

Another favorite objective of our bombers was Gerbini air field and its numerous satellite landing strips in the Catania plain.

Naples suffered heavily on July 15. Our bombers recorded strikes on at least 16 trains in the freight yards there and nearly all tracks in the center of the yards were blocked.

Our planes operated from Malta, Pantelleria and North Africa. In addition to the havoc created on the ground they destroyed 175 axis planes in dog fights that week.

CAMERAMAN LISTED LOST AFTER BOMBER CRASHES IN PACIFIC

SOMEWHERE IN NEW GUINEA, July 20 [Delayed].—(AP).—Carl Thusgaard, Danish born war photographer for Acme photos, officially was posted missing today after the Consolidated Liberator in which he was was making his first bombing flight was seen to crash in flames near Madang on the northeastern coast of New Guinea early this morning.

Carl Thusgaard.

Australian ground watchers said the Liberator went down after destroying two or possibly three of the nine Zeros which attacked the lone bomber. The Australian post Benabena, 70 miles inland from Madang, reported a patrol was sent into the remote area where the Liberator crashed but that no parachutes were seen to leave the stricken plane.

Thusgaard, whose wife lives in Jamaica, N. Y., was graduated from the University of Copenhagen and completed two months of compulsory military service with the Danish field artillery before going to the United States in the late '20s. Joining the Acme staff, Thusgaard specialized in sports photography, winning a number of prizes for action and night pictures.

WRISTWATCH IS STOLEN.

Beatrice Baer, 17 years old, 6633 Woodlawn avenue, reported to Hyde Park police yesterday that her wristwatch, value at $25, was taken from her purse on the 53d street beach while she was swimming.

HIS TINY PLANE SIGHTS TARGETS, DUCKS OWN GUNS

Wisconsin Pilot Scorns Life of a Bomber.

WITH U. S. 7th ARMY in SICILY, July 23 (AP).—Staff Sgt. Albert R. Obligato of 1135 Vernon avenue, Beloit, Wis., is fighting this war in a tiny "flying jeep."

He bounces around above no man's land in a low horse power plane, serving as the eyes of an artillery battery. When he goes up, he's in constant communication with his command post. He adjusts its fire until shells are pasting the targets, searches out enemy gun positions—sometimes by their flashes—and flies around occasionally as a courier.

Silences Enemy's Guns.

He and a fellow observer were sent up the other day when the enemy began shelling a central Sicilian road over which an American artillery outfit was moving. Some of the column had been permitted to roll up to a destroyed bridge, and then was cut off from the remainder of the outfit by heavy fire.

The minute Obligato's plane got over the area the enemy batteries stopped firing so that their positions would not be disclosed. Then American infantrymen quickly took over the job, threw out patrols and knocked out the enemy guns.

Quite often, however, the sergeant goes on a cruising mission and can't tell whether he's over his own lines or enemy territory. This is particularly true when a strong wind pushes his fragile plane around. Then he tries to navigate home with what he calls his "happy-go-lucky technique."

Fired on by Own Men.

Sometimes Obligato can tell where he is by whether the soldiers on the ground shoot at him. But even allied troops have been known to let a few bullets go in his direction, and he believes he knows why.

"They just can't believe they see an American plane up there," he said. "They think I'm a new German secret weapon or something."

Another problem is finding a place to land.

"A nice beach or level highways are best," he explained, "but they've been pretty crowded lately. Wheat fields are okay. If they are not level I take off downhill and land uphill. Once in a while I get near a regular air field. That's just like eating chocolate cake."

Plane Uses Truck Gas.

When he does sit down at a full-fledged airport, the ground crews always start bringing out gas. They get under the sergeant's skin.

"I have an awful time with those fellows because they always insist on giving me 100-octane gas. Every time I have to tell them, 'I burn truck gas.' Then they look at me as if I was nuts."

Before 1940 Obligato sold beer and insurance in Beloit, and flew around a bit in various light type planes. He tried to join the air forces, but they turned him down because he was 28—too old. Then he tried the ground forces and heard he was just the man they had been looking for. He and a group of others flew "flying jeeps" in the Tunisian campaign, brushed up on their technique and came on to Sicily. Now they wouldn't have either a fighter or a bomber.

NO BOMBS, SO FLYERS SPILL GAS ON JAPS' SHIP TO SET IT AFIRE

Los Angeles, Cal., July 23 (AP).—Resourceful American Lockheed Lightning pilots, lacking bombs, destroyed a Japanese freighter by drenching the vessel's decks with high-test gasoline and then igniting it with shells and bullets from their nose guns.

The story was told today by Maj. John W. Mitchell, Enid, Miss., and Capt. Thomas G. Lanphier Jr., born in Panama, C. Z. Both are home from the South Pacific for a tour of training bases as instructors.

The P-38 flyers found the Nipponese freighter lying under a camouflage net, Capt. Lanphier related.

"We raked the decks with our guns but nothing much happened," he recalled. "So we dive-bombed the freighter, letting go our auxiliary gasoline tanks and spilling gasoline all over her.

"Then we made another pass and let loose with incendiary bullets. The gas caught fire and the last we saw of the ship it was burning from stem to stern."

CONFESSES SLAYING.

Capt. Daniel Gilbert of the state's attorney's office said yesterday that Otis Dillard, Negro, 20 years old, had confessed the fatal slugging July 4 of Louis Kekos in the robbery of Kekos' shoe shining parlor in Minneapolis, Minn. Dillard was arrested here by police. Gilbert said the Negro had agreed to extradition to Minneapolis.

CHICAGO ARMY DESERTER DROPS DILLINGER POSE

Carl Carlson, an 18 year old army deserter who posed as John Dillinger Jr., illegitimate son of the late desperado, was held by Summerdale police yesterday for passing $150 worth of bogus checks. At the time of his arrest police said he was carrying a small caliber revolver.

Carl Carlson.

When the story of his paternity was doubted, Carlson admitted his real identity and said his home is at 2026 Foster avenue, less than a block from the police station. After leaving the army without permission last June 3, he said he came home and told his parents, Mr. and Mrs. Gustav Carlson, he was on furlough.

Because all his friends told him he looked exactly like Dillinger he said he then went to Anderson, Ind., and obtained a draft card under that name. Afterward he started passing bogus checks.

STEALS TRAVELERS CHECKS.

John McLellan, 31 years old, 2258 North Clark street, was sentenced to six months in the Bridewell yesterday for stealing $180 worth of travelers checks from Edgar J. McCormick, a New York high school teacher on vacation in Chicago.

1,200 TECHNICAL EXPERTS STUDY ARMS DISPLAY

Visit Show at Tribune After Symposium.

Army weapons exhibited in Tribune Square were studied last night by 1,200 engineers and technical scholars of mechanics who visited the ordnance display of the army service command after listening to a symposium of ordnance officers in a W-G-N studio. The officers, speaking on "Evolution of Design of Army Ordnance," told of advances in army equipment.

Robert C. Brown Jr., chairman of the Associated Defense Committees of Chicago Technical Societies, 205 West Wacker drive, presided at two sessions of the symposium. So great was the response of engineers to the invitation of the ordnance department and THE TRIBUNE to attend the lectures that four sessions were arranged. Two were held yesterday at 7:30 and 9 p. m. and two more are scheduled at 7:30 and 9 p. m. Monday.

Members of 15 Societies.

Members of 15 engineering societies in Chicagoland are guests at the lectures, which are under supervision of Col. John Slezak, deputy district chief of the Chicago ordnance district. Brig. Gen. Thomas S. Hammond issued the invitations.

At the symposium sessions preceding tours of the war equipment display last night, the engineers listened to four lectures on various phases of ordnance. Maj. H. E. Steir outlined progress in small arms, and Maj. H. T. Prebensen spoke on tank design and progress. Artillery was the topic detailed by Capt. D. S. Barnard and Capt. W. J. Swartchild told about ammunition.

Calls for New Ideas.

In opening the lectures, Brown invited the engineers to volunteer ideas for advances in the weapons at the ordnance display, presenting their ideas to the Associated Defense committees which meet each month.

Many of the engineers viewing the display work in war plants of the Chicago area.

The tour by the engineers did not interrupt the regular arms show in Tribune Square, which is free and open to the public daily from 10 a. m. to 10:30 p. m.

CATHOLIC PAPER LIKENS ROME TO GERMANY'S RUHR

New York, July 23 (AP).—The Commonweal, a Catholic lay publication, will say editorially in next week's issue that no distinction should be drawn between the bombing of Rome and that of "the industrial city in the Ruhr or that of the English town."

America, a Catholic weekly edited by priests of the Society of Jesus, will express the hope in its next issue that the United States will pledge itself to rebuild the basilica of San Lorenzo, reported damaged in the Rome raid.

Blames Mussolini.

Baltimore, Md., July 23 (AP).—The Catholic Review, official organ of the archdiocese of Baltimore and Washington, today placed upon Mussolini entire responsibility for the bombing of Rome.

"Mussolini did contrive cunningly to place arsenals of destruction near the churches that we love, in the city which is home to all of us as Catholics," it stated. "There has been some hypocrisy in some circles in the protests against the bombing of Rome."

Protests from Mexico.

MEXICO CITY, Mexico, July 23.—Archbishop Luis Maria Martinez, primate of Mexico and charge d'affaires for the Vatican here, and Msgr. Joseph Garibi Rivera, archbishop of Guadalajara, today telegraphed protests to President Roosevelt against the bombing of Rome and begging that no further raids be carried out.

ALLIES BREWING A 3D WORLD WAR, THOMAS WARNS

Washington, D. C., July 23 (AP).—Norman Thomas, Socialist party leader, said tonight that the allied nations are "laying the foundations for a new war by their obvious intention to perpetuate their own imperialism."

In an address before a mass meeting in connection with a rally of the party's executive committee, Thomas said:

"Great Britain has not promised to restore Hongkong to China. We have not repealed unilateral Chinese exclusion, and we have intensified our own racial tension. Churchill has announced bluntly 'we mean to hold our own. I have not become the king's first minister to preside over the dissolution of the British empire.' This statement has not been changed or modified in any way by Mr. Churchill or protested by our gvernment.

"As it stands, it means that American boys are fighting to restore Burma and Malaya to British rule and to keep India under British rule. This is to make a third World war virtually inevitable."

Roosevelt Defends Rome Raid; Asserts It Saved Yanks' Lives

BY WALTER TROHAN.

[Chicago Tribune Press Service.]

Washington, D. C., July 23.—In defending the bombing of Rome, President Roosevelt today delivered an implied warning that the Eternal City will be bombed again unless it is declared an open city.

Cardinal Francesco Marchetti-Selvaggiani.

He explained Rome is an important railroad and supply center, which had to be bombed to save the lives of American and allied fighting men.

During his defense of the American raid, Mr. Roosevelt refused to comment on the letter of Pope Pius XII. to Cardinal Francesco Marchetti-Selvaggiani, vicar general of the diocese of Rome, deploring the bombing. Mr. Roosevelt said that he had received no communication from the pope.

Open City Pleas Continue.

Pleas and arguments to have Rome declared an open city were made for more than a year, but these were rejected by the Nazis and Fascists, the President said. He added that the efforts are being continued and the allies still are hopeful that they will succeed.

When arguments were exhausted, he said, matters reached the point where thought had to be given to American lives. The British and American forces in Sicily were being endangered by troops and supplies moving from the industrial area in northern Italy.

Rome is an important military center, the President said, because it has a network of railroads, air fields, munitions factories and other strategic industrial activities.

Raid Aided Sicily Drive.

The more the allies could keep the traffic of men and supplies from moving thru Rome without interruption, the better it would be for American troops, so it was decided to raid Rome, he said.

Sometimes destruction becomes necessary to save lives, he continued. The raid was highly successful and constituted an important contribution to the allied efforts in Sicily.

Mr. Roosevelt recalled that German airmen with the aid of the Italians had destroyed some 4,000 churches, hospitals, and libraries in England without compunction.

However, this toll did not influence the American bombing of Rome, the President insisted, because he does not believe in destruction merely for retaliation, but that destruction for saving lives of our men in war sometimes is a necessity.

Not Linked to Warning.

The President was asked if the Rome bombing was the fulfillment of the warning in which he and Prime Minister Churchill called on Italians to surrender or die. He replied that the two things should not be confused.

The warning was concerned with the problem of the entire Italian nation, he said, while the bombing was the problem of attacking a venerated city because it was being used for military purposes.

On the day following the invasion of Sicily the President sent a message to the pope assuring him churches and religious institutions would be spared the devastation of war as far as was humanly possible.

In the bombing of Rome, instructions were given to spare all but military objectives. However, the basilica of San Lorenzo, which is outside the walls of Rome, was hit.

Open City Declaration Seen.

LONDON, July 23 (AP).—The Daily Mail said in a dispatch from Madrid today that belief was growing in the Spanish capital that Rome may be declared an open city.

The Daily Mail correspondent wrote that Adolf Hitler was reported to be urging the Italian government to move and that Rome might transfer the government and military staffs to Verona, 250 miles to the north.

REDS HIT 3 MORE FRONTS AS OREL DRIVE SURGES ON

Attack in Caucasus, Near Belgorod, on Donetz.

LONDON, July 24 [Saturday]—(AP).—Russian forces crashed across a river directly east of Orel, killing 2,000 Germans, and scored gains of two to four miles on the north and south sides of the beleaguered German central front pivot, Moscow announced early today.

German broadcasts said 18 soviet divisions had begun an offensive south of Leningrad, but official Russian dispatches were silent on developments there, altho they did tell of new Russian attacks on three other fronts.

The river crossing at Orel appeared to have put the Red army within eight miles of the city. Another Russian column was less than nine miles northeast of Orel.

Seize More Villages.

Several villages were captured as the advancing Russians knocked out scores of German tanks and killed thousands of troops yesterday in fighting raging clear down to the Sea of Azov, said the midnight official bulletin recorded by the soviet monitor.

North of Orel the Russians beat down several German counter-attacks near Bolkhov, wiping out a Nazi regiment. The soviet drive on the north also was wheeling behind Orel, endangering the railway running 75 miles northwest of Bryansk. One dispatch said Karachev, midway between the two cities on the railway, already was threatened.

A special Moscow announcement said 92 German tanks were knocked out and 112 planes shot down Thursday and the midnight bulletin added that 5,400 enemy troops were killed and 85 tanks destroyed yesterday on three sides of Orel.

Action on Other Fronts.

The Germans also lost heavily in the Belgorod sector and the Donetz basin to the south.

After standing firm against German attacks in the Belgorod area, the Russians resumed their offensive and captured several populated places, killing about 1,000 Germans.

South of Izyum, in the Donetz basin, advancing soviet forces repulsed several German counter-attacks.

Berlin said violent new Russian attacks in the Donetz basin had pierced their lines near Kuibishevo.

Attacking the German bridgehead along the Black sea littoral around Novorossisk, the Russians said they improved their positions southwest of Krasnodar.

IDENTIFY 3 MEN LOST IN CRASH WITH PADDOCK

Washington, D. C., July 23 (AP).—The navy today reported one naval officer and two enlisted men and an army sergeant were killed Wednesday in the plane crash near Sitka, Alaska, in which Maj. Gen. William P. Upshur and Capt. Charles Paddock of the marine corps lost their lives.

The naval officer, a member of the reserve, was Lt. Comdr. Joe de Ganahl, 40 years old, the pilot, whose home was in McLean, Va.

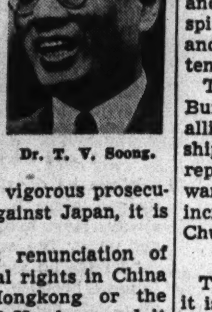
The navy enlisted men were: Harold J. Morris, aviation chief radioman, 23, of Cedar Rapids, Ia., and Donald G. Whetstone, aviation machinist's mate third class, 21, of Minerva, O. The name of the army sergeant was withheld pending notification of his next of kin.

Expect Chinese Foreign Chief to Bid for More British Help

BY E. R. NODERER.

[Chicago Tribune Press Service.]

LONDON, July 23.—The Chinese foreign minister, Dr. T. V. Soong, who arrived in London from the United States today, will discuss with the British government the future disposition of Hongkong, it has been revealed. He also will urge an increase in the quantity of war material being shipped to China and a more vigorous prosecution of the war against Japan, it is reported.



Dr. T. V. Soong.

Britain's recent renunciation of her extra-territorial rights in China did not affect Hongkong or the leased territory of Kowloon and it is known that China would welcome British action to clarify the position. At the same time, it is stated here, the British government will be reluctant to take any immediate action which might prejudice the future of a naval base destined to play an important part in post-war international policing arrangements in the Pacific.

Aid Disappoints China.

Soong's visit is regarded as particularly important since it is obvious the American and British concentration on the European theater of war has aroused disappointment and misunderstanding in China, despite threats by President Roosevelt and Prime Minister Churchill to intensify the war against Japan.

The fact that since Japan cut the Burma road China's two powerful allies have been forced to curtail shipments of war materials to her is reported to have accentuated the war weariness of the Chinese and increased the difficulties of the Chungking government.

Satisfaction Expected.

The British government, however, it is stressed here, is not ignoring the vitally strategic position of the Chinese mainland as a base for operations against Japan and confidence is expressed that the forthcoming discussions will satisfy both sides.

Last week I served 18 gallons of my wonderful invention, the *Maharajah's Chutney*, that delicious appetizer composed of 9 fruits, 3 wines and 22 special spices. . . . Every week we spend about $35 for fresh cut flowers in our dining room. . . . Many Chicagoans are amazed at my attitude toward my competitors. Sometimes when we are filled to capacity, and many people are waiting, I will say to late-comers: "Monsieur, I do not think I will be able to serve you tonight. But may I recommend a very fashionable dining room just around the corner from us, on State Parkway (and down this side street) where lots of society people dine? I am sure they would be delighted to serve you, so why don't you go there tonight?" . . . But they cannot understand me. They say, "Mon Dieu, *Henri* recommends another restaurant for his overflow crowd." . . . And why not? I cannot serve all the people in this world.

PLANE SHOT UP, CHICAGO FLYER ELUDES 3 JAPS

Reaches Safety Despite Long Chase by Foe.

SOMEWHERE IN NEW GUINEA, July 23 (AP).—Members of a P-38 squadron with 102 enemy planes to its credit hailed the return today of Lt. Paul Larson of 7740 Marquette avenue, Chicago, who was almost given up for lost in Wednesday's dramatic battle with Japanese fighters.

That Larson managed to limp back put an extra touch to the encounter in which American pilots destroyed 19 enemy planes and probably finished off 11 others, for the loss of two P-38s.

The American flyers saw the Japanese planes strafe one pilot as he parachuted down. The other pilot, who was Larson, simply disappeared, but not for long.

Limps Away from Foe.

Larson halted his volley ball match this afternoon to relate calmly how three Japanese planes pursued him almost an hour and how he eluded them, altho one engine faltered.

He finally crash landed without injury in the water—an operation that brought words of admiration from fellow flyers. Keeping a Lightning in the air with one engine was a great feat in itself, they said; putting it down in the water without injury was an even greater one.

The tall Chicagoan told how it happened:

"As I made a pass at one Jap Zero, my left engine started backfiring. I shot up another Zero—saw pieces of his plane fly out.

Skips Thru Clouds.

"My cockpit was filling with smoke, so to prevent fire, I feathered one engine and because I didn't want to bail out over enemy territory, I quit the fight and started home with at least 30 fighters still tangling there.

"As I feared, three planes came down on me. With only one engine, I had to used cloud-skipping tactics and dodge around a great deal.

"Two Zeros and one Messerschmitt type made three passes each before I found the first cloud. When I came out they made eight more passes before two Zeros gave up.

Lands on Beach.

"The remaining plane made about 18 passes at me over a half hour stretch. I dived every time he came at me, it seemed like. Toward the last, he tried new stunts of climbing above me, rolling over me and diving. Finally, I found a cloud big enough to escape him, and reached the coastline.

"With my right propellor shot and electrical system out, I put her down on the beach in three feet of water because the jungle is too thick for landing."

Natives carried Larson by canoe to an allied outpost where he was picked up today.

Incidentally, the P-38 unit's bag of 102 planes is believed to be the record for a fighter unit in any theater.

NAME 8 CHICAGOLAND MEN AS CASUALTIES IN NEWEST NAVY LIST

Washington, D. C., July 23 (AP).—The navy today announced 33 casualties, including 16 dead, 5 wounded, and 12 missing. In addition, the navy announced that the classification of four additional names has been changed from missing to dead and 26 additional names from prisoner of war to dead.

This brings to 27,317 the total of navy, marine corps, and coast guard casualties reported to next of kin since Dec. 7, 1941. The grand total includes 8,458 dead, 4,768 wounded, 10,275 missing and 3,816 prisoners.

CHICAGO PILOT ADDS DFC TO HIS AFRICA LAURELS

Cited for Driving Off Enemy Planes.

Lt. Robert Chaddock.

Lt. Robert Chaddock, an army fighter plane pilot from Chicago, formerly employed in the advertising department of THE TRIBUNE, has been awarded the distinguished flying cross for dispersing an attacking enemy formation in North Africa on March 30, it was announced yesterday. Chaddock is the son of Mrs. Emma Chaddock, 3150 Lake Shore drive, and is 25 years old. He entered the air forces in June, 1941, and went overseas last November. His decorations include five oak leaf clusters and stars for seven major victories.

Pvt. Henry Gallagher.

Mrs. Ervin Etcheson of 902 Leland avenue has received word of the death in a Japanese prison camp of her brother, Pvt. Henry Clay Gallagher, 30 years old, a former Lane Technical High school student. No details of Pvt. Gallagher's death were told in the war department telegram to his mother, Mrs. Marie Gallagher, of Miami, Fla., formerly of 4901 Broadway. An artillery man in the Philippines before the attack on Pearl Harbor, Pvt. Gallagher is reported to have been captured at the fall of Manila.

Lt. Kamminga.

The death of Lt. Richard Kamminga, 22 years old, former Highland Park High school track athlete, of injuries suffered in an airplane accident in North Africa was announced by the war department yesterday in a telegram to his wife, the former Florence Russell, 19, of 1013 Rosemary terrace, Deerfield. Lt. Kamminga's parents are Mr. and Mrs. Peter Kamminga, 2209 North Rockwell street. Lt. Kamminga was called to active service in the army air forces May 10, 1942.

Announcement of awards to four patients in the hospital at the Great Lakes Naval Training station was made yesterday by Lt. Col. A. C. Larsen, marine corps district provost marshal.

The air medal was conferred on Delmar Dean Wiley, 21 years old, of Glenwood, Ia., navy aviation radioman 2d class, who was listed as missing for 218 days after his torpedo bomber was shot down last Aug. 24. Before being rescued he passed 15 days in a rubber raft and seven and a half months on a lonely island.

The silver star was given to Marine Corp. Edward F. Long, 21, of 3347 North Tripp avenue, for heroism under fire at "bloody gulch" on Guadalcanal Oct. 14; and the Purple Heart was awarded to Lynn C. Bloodworth, 27, of Granite City, Ill., a navy gunner's mate 1st class who survived the sinking of a destroyer; and Hubert C. Pitzer, 21, seaman 2d class, of Mandan, N. D., who was injured in the Oct. 11-12 battle off Guadalcanal.

Mr. and Mrs. Thomas Connolly, 6618 Greenwood avenue, were notified by the war department yesterday that their son, Staff Sgt. Jeremiah S. Connolly, 21 years old, an air gunner, had been killed in action July 11 in the Southwest Pacific.

Mr. and Mrs. George A. Carpenter, 175 South River street, Aurora, received word Monday from the navy department that their son, Harold Carpenter, 22, seaman first class, was missing after naval maneuvers in the Pacific. Yesterday they got a letter from him saying that he had returned to the United States with a special detail.

Lt. Maxwell Judas, 22 years old, Elgin bomber pilot who was reported missing in action after a raid over Wilhelmshaven, Germany, last May, is a prisoner of war in Germany, his mother, Mrs. Harriette Judas, 245 Villa street, Elgin, was advised yesterday. Judas' plane was shot down during the 22d raid he participated in over enemy territory.

EX-GOV. STASSEN FINISHES NAVAL TRAINING SCHOOL

New York, July 23 (AP).—Lt. Comdr. Harold E. Stassen, who resigned as governor of Minnesota last April to join the navy, was graduated today at the Fort Schuyler training school after an eight week indoctrination course. He said he would proceed immediately to active duty outside the United States.

Stassen, mentioned as a possible Republican Presidential candidate in 1944, declined to discuss politics, saying he believed "there should be a singleness of purpose" in the military forces.

Asked what he would do if he were drafted for public office, he replied that he considered the possibility "so remote that I have no comment."

BATTLE EXPANDS IN MOUNTAINS ON CHINESE FRONT

CHUNGKING, China, July 23 (AP).—A Chinese war report said today:

"Fighting in progress in the sector between Linhsen and Huihsen, south of Lingchwan, in the Taiheng mountain region, increased in ferocity when the enemy, having suffered heavy casualties, brought up reënforcements. Meantime, our forces are continuing to attack the enemy from the rear."

Japs Raid Air Base.

BY THE ASSOCIATED PRESS.

The Tokio radio reported yesterday that Japanese bombers had smashed runways in an attack on an allied air field at Hengyang, in south central Hunan province, which the Japanese described as an advanced base of the United States army air forces in China. The broadcast said the Japanese carried out the attack with the loss of one plane and shot down three of six American P-40 fighters which challenged them.

CHANDLER FINDS NEW AGGRESSIVE VIEW ON JAP WAR

Washington, D. C., July 23 (AP).—Sen. A. B. Chandler [D., Ky.] declared today there was evidence of a "greater determination" upon the part of the allied high command to "carry the fight to the Japs."

The Kentuckian, a recent critic of high command strategy in the Pacific, told a reporter on leaving a conference with Gen. George C. Marshall, army chief of staff:

"The whole situation in the Pacific has been given more attention recently. I think there is ample evidence of a great determination to fight the Japs in the Australian area and in China as well."

Chandler, member of the senate military affairs committee, complained to the senate several weeks ago that Gen. Douglas MacArthur and Maj. Gen. Claire Chennault, air commander in China, both needed greater support, particularly planes, than they were receiving.

TOW 2 GLIDERS 1,234 MILES FOR NONSTOP MARK

Washington, D. C., July 23 (AP).—A distance record for plane towed freight gliders, 1,234 miles nonstop from Sheppard field, Tex., to Maxton army air base, North Carolina, was set in a flight last Sunday, the army announced today.

The previous record of 1,177 miles nonstop was made in the course of a 3,500 mile trip of a fully loaded towed glider from Montreal to Great Britain, announced in London, July 5.

In the flight last Sunday, two large gliders, loaded to capacity with special maintenance equipment, were towed by two planes.

"The flight, which was performed in 9 hours and 45 minutes under adverse weather conditions, may have far reaching implications in solving maintenance problems for army air forces fighter and bombardment units in theaters of operations," the army said.

NAVY SEEKS MEN OVER 38 AND NEW 17 YEAR CLASS

A drive for youths 17 years old and for men between the ages of 38 and 50 was started by the navy yesterday under the direction of Lt. Comdr. Warren S. Hatch, in charge of navy recruiting in the Chicago area.

Comdr. Hatch said the navy is eager to get men without specific skills as well as skilled men. He asked potential recruits to apply either in writing or in person to the recruiting headquarters at 321 Plymouth court.

A special booth explaining the opportunities and advantages of naval service will be opened at the Meet Your Navy show in the Chicago Stadium next Friday.

CLAY GOWRAN'S STORY OF FIGHT ANOTHER SCOOP

Spectacular war stories, such as his thrilling account of the battle against the Japs at Yank headquarters on New Georgia Island, are nothing new to Tribune War Correspondent Clay Gowran, who has seen most of the action in the South Pacific.

Among Gowran's many dramatic news scoops were his stories of the outpost established on New Georgia 10 days before the American invasion of June 30, the resultant 88 hour jungle trek to capture Viru, and his eye witness account of the naval bombardment which clinched the capture of Guadalcanal in February.

Gowran joined the Tribune staff in 1937. He made a seven months' tour of United States army training camps and covered all three of the major army maneuvers in 1941. Later he conducted the "Friend of the Yanks" column for a short time.

In April, 1942, he toured Central and South America and then headed for Hawaii, where he soon drew a berth aboard a destroyer which took him into the fighting zone.

Gowran was born May 26, 1913, and received his early education in Chicago. He then spent two years at North Central college in Naperville before transferring to Northwestern university, where he was graduated in 1935.

FLYING SQUADS RESTORE 160,000 BRITISH HOMES

[Chicago Tribune Press Service.]

LONDON, July 23.—Building costs in Britain have increased 120 per cent since the outbreak of the war and probably will go up another 30 per cent in the next 12 months, it was disclosed in the house of commons today.

The figures were given J. Henderson Stewart, Liberal, in a debate on ministry of works' estimates, after George Hicks, parliamentary secretary to the ministry, had suggested that the increase had not exceeded 105 per cent.

In detailing the work carried out by his ministry, Hicks said 90 groups of "flying squad" builders had been formed who go all over the country, sometimes "living rough," and to date had repaired more than 160,000 bomb damaged houses.

South Pacific Radio Photo Circuit to Be Open Soon

Washington, D. C., July 23 (AP).—A radio circuit for transmission of photographs will be opened soon between the United States and the South Pacific war theater, the army announced today. Signal corps experts are in Australia installing equipment. Radio photo service has been in operation several months from North Africa.

FOXHOLE BATTLE VICTORY TOLD BY TRIBUNE WRITER

Sees Japs Driven Back by Box Barrage.

[Continued from first page.]

launch assaults directly toward our machine gun posts, which they could see in the moonlight. Again and again our guns roared. Their fire was so murderous at such short range that it seemed impossible for human beings to withstand, but following each burst we could hear the laughter and taunts of the Japs coming from the area our guns had just ripped. It was weird and unholy, as tho we were fighting disembodied men whom bullets could not touch.

After an hour had passed, with the Japs still attacking in strength, it was decided to use the artillery. It was a desperate decision because the heavy guns would be firing blind almost a mile in the New Georgia jungle from where our besieged little camp was located. The slightest aiming error would mean death for us instead of the Japs.

Barrage Creeps Closer.

The phone connection was put thru to the artillery commander. He was ordered to fire a few shells placed well beyond us into the jungle. Estimating they had burst 600 yards beyond, he lowered the range 200 yards at a time until they were striking 50 to 75 yards in front of us to the north.

Then came the problem of ranging the other guns to fire along lines 50 yards to the south east and west of our defense positions so we would be enclosed by a box barrage. Like a mathematics instructor in a quiet midwest college, the short, wiry officer crouched there in his foxhole and calmly worked out the range problems on the back of an old envelope. Soon shells were bursting along our east and west positions.

While the range was being established on the south front two shells hit near me. Apparently some hairline miscalculation had been made by the battery.

Shells Land Near By.

By this time I had grown accustomed to the soft plump of the guns and the whine of the shells coming toward us. These sounded no different until they were right upon me. Then their whine changed to a high shriek. As I tried to claw my way deeper into my two foot foxhole, the first burst 50 yards away. The second was an ear splitting crack seemingly only a few feet away, altho it was 25 yards off. The concussion bounced me a foot off the ground as dirt and rock crashed down upon me. Today my ribs and diaphragm are painfully sore from the impact.

Within a few minutes, however, the box barrage was established. Then thruout the night, when the screams of the Japs indicated a rush was imminent and our machine guns opened up, the artillery was ordered to pour in shells.

Our 200 yard square encampment, inclosed by chattering machine guns and shrieking and crashing shells, was an inferno of sound, flashes of high explosives, and flying steel. Next morning we found every tent had innumerable shrapnel and bullet holes.

Jungle Adds Its Terrors.

But even worse than the moments when the barrage was falling were the periods of silence between. During these both the Japs and Americans listened intently to locate each other. Then the sounds of the jungle itself rose up around us, magnified and distorted by our taut nerves and overvivid imaginations.

Scuttling lizards became Japs creeping up on us and the cry and rustle of a bat in a tree became a Jap sniper drawing a bead. When something plopped into the foxhole beside me, I almost leaped out, thinking it was a Jap grenade, until I saw it was a six inch land crab. When a Jap did crawl past within five yards of me, I did not know it. Only at dawn, when an officer told me about it, did I learn of the Jap's nearness. However, the Jap was killed as he attempted to backtrack.

About midnight it began to rain hard. In the jungle the rain pouring upon the foliage drowns out normal sounds and the Japs took advantage of the noise to launch new thrusts toward our machine gun posts. But the gunners discovered them and opened up. Then within a few seconds the barrage came to our aid. It was this time when the Japs were almost at the muzzles of our guns that they paid most heavily.

Rooster Lends a Welcome Note.

When silence returned we could hear the screams of wounded Japs lying a few yards away. Some screamed and cried all night long. Others died with a curious blubbering and muffled sobbing which grew fainter as their wounds took effect.

Three times that night it rained and each time the Japs tried the same thing. And each time they paid.

For some reason, at such a grim time there always is something incongruous. This time it was a lone rooster, apparently abandoned when the natives left a tiny village nearby at the opening of our New Georgia offensive. Thruout the thunder and rattle of guns, all night long the rooster had lived. At the hour of the false tropic dawn he began to crow. His crowing was hoarse and cracked, as tho the rooster's nerves were as shaken as ours. But it was a God sent sound because it meant dawn and the end of the Jap night attack were near.

Battle Over, Men Exhausted.

It was just dawn when reënforcements came to our aid. Ten or 20 at a time they crawled past our foxholes and moved up to drive the Japs back. They were heavily armed with machine guns and automatic rifles. Most of the fighting was over, however. The Japs slipped into the bush with the dawn, knowing our patrols would be after them when it got light.

Roaming from outpost to outpost, I talked with the gunners who had stopped the Japs. They were exhausted but triumphant. At one post commanding the trail from the interior the gunners told me how early in the battle a Jap officer and nine men had stalked up the trail to the right of them as tho they owned the place. When he saw the machine gun, the Jap officer drew his saber and took his men forward on the run.

"We waited until they were almost upon us and then we cut loose with two guns," said a dirty, tired youngster in a smelly jungle uniform. "The guns just about blew them apart in their tracks."

Travels a Dangerous Trail.

The men took me up the trail 10 yards from the post. Ten Japs lay sprawled there in awkward, unnatural positions just the way the guns had cut them down. We experienced no reaction in looking at them. They were just lumps of something which once had been men and now were just work for the burial squad.

When I left on a hike to the beach to get to Rendova Island, where I wrote my story, the camp commander gave me a guard of five automatic rifle men. There still might be Japs along the trail, he explained.

On the way we passed three soldiers clustered behind a log 100 yards off the trail. They were stalking a sniper believed to be in a large tree. They would raise their rifles for a shot and then move around to a new position for a better shot, just like a squirrel hunter back in the United States. When we were 300 yards past them, we heard three rifles crack in unison. Then a heavy object toppled into the underbrush. Farther on we heard what apparently was a wounded Jap 200 yards to the left of the trail. He was calling over and over: "Help me. Help me. Help me."

One Yank Kills Five Japs.

At the beach we found the units there also had been harassed during the night. A little Jewish boy from New York City was the hero of the hour. During the night he was scouting along the front when he saw five Japs setting up a 90 mm. mortar to pour shells into the American position. Carefully he raised his automatic rifle and drew his sights on them. When he pulled the trigger there was only a loud click which attracted the Japs' attention.

Lying flat on the ground while they poured fire over him, he unjammed his gun and then killed all the Japs. He used up all his rifle ammunition, however, so the rest of the night he lay there protecting the area with only a pistol and seven cartridges. His name is Corp. Maier Rothschild.

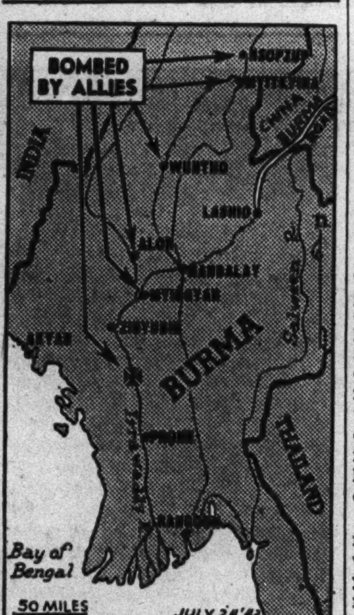
Pound Japs in Burma



Where allied planes bombed Japanese installations in Burma.

NEW DELHI, India, July 23 (AP).—Bomb carrying American P-40 Warhawks attacked Japanese installations in northern Burma yesterday and, a United States 10th air force report said, created "much damage." They destroyed a road bridge at Nsopzup, set afire a barracks area near the air field at Myitkyina, and pounded buildings and motor vehicles at Manywet and Hamti.

At the same time, Mitchell bombers attacked cotton mills at Myingyan and rail installations at Alon. Liberator bombers attacked Wuntho, 25 miles south of Katha, Wednesday. All of the American planes returned safely.

The R. A. F. concentrated on Japanese transport, hitting 65 boats on the middle Irrawaddy river between Prome and Zibyubin, a British report said. The Japanese, holed up in the Arakan swamps for the monsoon season, were strafed.

REDS SEND POLES TO LONDON; SEEK FRONTIER TALKS

[Chicago Tribune Press Service.]

LONDON, July 23.—Three delegates from the Polish Union of Patriots recently established in Moscow with the approval of the Russian government have arrived in London, it was disclosed tonight, to contact the Polish government in exile.

Their object, it was explained, is to seek a solution of those disputes, particularly concerning post-war frontiers, which ruptured Polish-Russian relations in April. Then it was reported the Russian government was planning to form a puppet Polish government, made up of Polish Communist refugees, on Russian soil.

The delegates, traveling on Russian passports, undertook the journey on the initiative of the soviet government. They are expected to be received shortly by a Polish government representative.

ADVISES ENDING R.O.T.C. COURSES IN HIGH SCHOOLS

Champaign, Ill., July 23 (AP).—Prof. S. C. Staley, director of the University of Illinois school of physical education, today advocated abolition of R. O. T. C. training in the nation's high schools and urged that this time be devoted instead to physical fitness.

In a talk before a three day short course on war problems of high school principals, he urged that the high schools strive for physical rather than military training.

Basing his statements on studies he said he made in pre-war Europe, Staley declared that military training was given in the secondary schools of France, Italy, and Spain, but not in those of Germany, Russia, England, and Scandinavian countries.

"Which is producing the best armies?" he asked.

LABOR WARNED BY WLB TO HALT WAGE DEMANDS

President Tells Intent to Hold Prices.

Washington, D. C., July 23 (AP).—The war labor board cautioned labor today against seeking "inflationary wage increases" even as President Roosevelt disclosed that the administration is endeavoring to reorganize the defense against inflation with a new price control and economic stabilization program.

While acknowledging that no ideas have been agreed upon yet, the President told a press-radio conference that whatever decision is reached, congress will have the final word because it will cost money.

Mr. Roosevelt's announcement came less than 24 hours after organized labor asked him for a retail price roll-back to Sept. 15, 1942, levels or abandonment of the WLB's "Little Steel" formula. This formula declares in general that wage increases granted to compensate for higher living costs shall not total more than 15 per cent of wages paid on Jan. 1, 1941.

Board to Maintain Formula.

The board announced today it has no intention of scrapping the Little Steel formula, altho "other divisions of the anti-inflation army may weaken."

Presenting its position in an opinion denying wage increases to Los Angeles transit workers who struck yesterday for a 24 hour period, WLB told labor that before making wage demands discordant with the stabilization program, "labor should look to what is likely to happen if that program is broken down."

Declaring that the board intends to hold the line against inflation "insofar as demands for inflationary wage increases are concerned," the opinion observed:

"The time has come for labor to realize that if we are going to stop inflation we cannot continue to raise wages in the wage brackets which are not substandard."

Warning to President.

William Green, president of the American Federation of Labor, and Phillip Murray, head of the Congress of Industrial Organizations, said yesterday that unless price levels of 10 months ago are restored labor will discontinue support of the entire stabilization program and seek removal of Price Administrator Prentiss Brown.

President Roosevelt told his conference he did not regard this as an ultimatum but added that labor as well as other groups are in a predicament because food prices have not been kept at levels of Sept. 15 as called for by congress.

The assertion by Green and Murray was interpreted by Sen. Robert A. Taft [R., O.], however, as a "threat" to the Little Steel formula. He added that labor appeared to be "asking for something impossible" in its demand for the price roll-back.

Both Taft and Sen. Carl A. Hatch [D., N. M.] expressed belief that Brown faces an almost impossible task under present conditions and predicted that the subsidy question will be back in the lap of congress as soon as it reconvenes. Both also defended Brown's efforts to keep prices and wages in line.

As the situation stands, the administration contends it has general authority to pay subsidies to roll-back food prices, altho it failed to obtain specific congressional authority for such payments.

Boston Contractor Guilty in Cocoanut Grove Blaze

Boston, Mass., July 23 (AP).—A Superior court jury today convicted Samuel Rudnick, a contractor, of conspiracy to violate building laws in connection with the Cocoanut Grove night club fire which killed 492 last Nov. 28. Rudnick was sentenced to two years in the House of Correction, but received a stay, pending a Supreme court appeal. The jury acquitted three others, including James Welansky, brother of Barnet Welansky, owner of the club.

LEWIS REQUESTS WLB APPROVAL OF ILLINOIS PACT

Promises to Appear; Aug. 3 Hearing Set.

BY WILLIAM STRAND.

[Chicago Tribune Press Service.]

Washington, D. C., July 23.—John L. Lewis' United Mine Workers today asked immediate approval by the war labor board of the new wage agreement signed with the Illinois coal operators. Submission of the agreement to the WLB was regarded as the first tacit admission by Lewis that the board has authority in the coal controversy.

Later the WLB announced that public hearings on the proposed contract will begin Aug. 3.

Lewis' recognition of the board after months of attacks on it resulted from the recent enactment of anti-strike legislation which conferred statutory powers on the WLB, it was explained by UMW officials.

Pact Involves $3 Gain.

The Illinois agreement, which has been adopted by the UMW policy committee as the basic contract, contains portal to portal pay, a one hour longer work day, and other provisions designed to yield approximately $3 more per day in wages.

According to a union spokesman, operators in northern West Virginia, Indiana, western Kentucky, central Pennsylvania, and in the western states—Utah, Colorado, Montana, and Washington—have indicated they will ask for similar agreements with the UMW. Representatives of the Appalachian operators and the southern operators, however, have taken the opposite stand and are demanding that the WLB refuse to approve portal pay.

The board previously has rejected portal to portal pay [wages covering nonproductive travel time between the mine entrance and the point where the actual work is done], which was one demand that precipitated the wage controversy. Strikes arising from the miners' demands were called off last month until Oct. 31.

It is expected that testimony at the hearings ordered by the board will be devoted to explaining the basis for the portal to portal allowance of $1.25 per day in the proposed increase.

Edmundsen Signs Letter.

Labor board action was asked by the union in a letter signed by Lewis, UMW president, and Ray Edmundsen, president of the UMW district 12, representing Illinois miners.

"We believe the agreement is in the public interest and stand ready to appear before you in its support in such hearings as you may elect," they wrote William H. Davis, WLB chairman. "The Illinois Coal Operators' association filed copies of this agreement with you July 21."

Knox's Niece Awarded 7 Year Movie Contract

Friend of the Yanks

[The Friend of the Yanks department will answer questions about the draft and military service, both in the daily columns and by mail, if stamped, self-addressed envelopes are sent with the queries.]

J. E. B. writes:. "I am a British subject, but I've declared my intention of becoming a United States citizen. Can I volunteer for the navy Seabees or does the old rule that you have to be a naturalized citizen of 10 years' standing still apply? Can I gain citizenship thru navy service?"

ANSWER: The navy says friendly or neutral aliens cannot be accepted on a voluntary basis, but they may request assignment to the navy and the navy Seabees when they are sent to the induction station. Citizenship is granted to navy inductees on exactly the same terms as army inductees.

J. C. S. writes: "I have a rather unusual request to make. While in Chicago on furlough and while going from the La Salle street station to the 12th street station, I lost two rail tickets on the New York Central from New York to Chicago. One was a furlough rate and the other at the regular rate. I had to buy two tickets, one for myself and the other for my wife. It might be that whoever found them might not know where to turn them in. They were lost about 9 p. m., July 8. I thought I might make contact thru your column."

ANSWER: If the finder will write or call this department we will be happy to give the soldier's name and address.

I. K. writes: "My draft board in Chicago reclassified me to 1-A and sent me my induction notice despite the fact that according to one of the answers in your column on July 10 I'm supposed to be classified 3-A. I married a woman in August, 1940, who had a little girl 3 years old by a previous marriage, and this child has been in our home ever since. The draft board told me that because I did not adopt her legally, she was not a child within the meaning of the regulations and refused to let me appeal. I am employed as a machine operator in a corrugated paper box factory making paper boxes for the government."

ANSWER: Paragraph 5 section 622.33 states: "A person who is supported in good faith by the registrant in a relationship similar to that of parent and child; but shall not include any person 18 years of age or over unless he is physically or mentally handicapped," is considered a child within the meaning of the regulations and you are entitled to a 3-A classification. No draft board has authority to refuse to let a registrant appeal from what he considers an improper classification. Have the appeal agent assist you in getting a stay of induction or write state selective service headquarters. Maybe they can get your draft board to read the regulations.

The Inquiring Camera Girl

BY FREIDA ZYLSTRA.

[THE TRIBUNE will pay $5 for each interesting question submitted by a reader and used by THE TRIBUNE. Today's question was submitted by Elsie Anne MacDonald, 1726 North Clark street.]

THE QUESTION.

What is your favorite way of saving money?

WHERE ASKED.

Michigan avenue and Van Buren street.

THE ANSWERS.

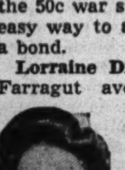
Richard Malecha, student, 1824 South 49th court, Cicero—All of my friends are on the lookout for 1943 nickels for me. I have a nice collection of them now and, at the rate I'm going, I'll soon have a corner on the market. My $20 stack of nickels represents one of the biggest cash savings I've ever had.

Mrs. Edward A. Rein Sr., housewife, 6921 Sheridan road—Our whole family has agreed to save every penny that they get for the "family pool." With the pennies we buy war stamps for a bond and make it out in the name of one member of the family. Each month the three of us accumulate about $12 worth of pennies.

Ruth Huendorf, student, 2648 Argyle street—For a while I had a makeshift card board box with a slot big enough for dimes or dollars. It was always easy to get money out of it at any time and that was hard on the account. I've discarded the tempting box for bonds, and I'm doing better now.

Mary Pohlman, page girl, 3512 West 64th street—At first I had the habit of saving pennies and having them converted into nickels. After I became quite proficient at that, I went in for bigger money. I save all the loose cash in my coin purse and put it in a strongbox at the end of each day.

Jeanette Witte, student, 4414 North Rockwell street—This is the first year I've considered a savings account. The small amounts I earn, plus my allowance, weren't quite enough for an account. I've managed to buy several bonds and find the 50c war stamps an easy way to accumulate enough for a bond.



Lorraine Dieringer, student, 2331 Farragut avenue—My plans for saving money have never worked out as I've wanted them to. I've never taken a coin bank seriously and don't have enough will power to do a systematic job of any kind of saving. Now I take a certain per cent from my pay check and hand it over to my mother for safekeeping.

GOVERNOR SIGNS BILL FOR EQUAL PAY FOR WOMEN

Measure Goes in Effect Next July.

BY GEORGE TAGGE.

[Chicago Tribune Press Service.]

Springfield, Ill., July 23.—Gov. Dwight H. Green today signed the bill requiring industrial employers to pay women as much as men for equal work after July 1, 1944. It was one of the most controversial measures of the recent legislative session.

The new law will permit wage differentials based upon seniority, experience, training, skill, or ability, regular or occasional differences in duties, availability for other operations, "or any other reasonable classification."

Supported by Unions.

Organized labor furnished the greatest motive power behind the bill. It was charged that union agents were interested, first, in collecting more dues from women, and secondly, in getting more contracts with employers under a clause in the law reading:

"Nothing herein contained shall prohibit such variation [in pay between men and women] where the same is authorized by contract between employer and a recognized bargaining agent."

Penalties of $25 to $100 fines are provided for violators of the law who may be judged guilty of a misdemeanor.

Spokesmen for manufacturers are planning to test the constitutionality of the new law. They assert that it discriminates against them in favor of other employers, and will drive industry to other states. An official of one large company said that all of its "girl operations" would be transferred to a plant in Indiana.

Signs State Pension Bill.

Among 72 other bills signed by Gov. Green today was one establishing a pension system for the 24,000 state employes. The state had been the only important unit of government without a pension setup.

Clustered around the governor when he put his pen to the bill were more than a score of state employes with terms of service ranging up to 46 years. Oldest in point of service is Miss Elin Berg, secretary in the department of public health.

"The assurance of security which this new law provides will be an incentive to increased efficiency in the future," Gov. Green said, "not only for present workers but for those who may enter the state service later."

Employes to Contribute.

Cost of the system will be about a million dollars a year to employes and about the same amount to the state when it is in full operation. Beginning Jan. 1, employes will contribute 5 per cent of salaries to the pension fund. Those leaving state service before becoming eligible for benefits will receive refunds of payments without interest.

Employes may retire at the age of 60 with 20 years of service, or at 65 with 15 years' service. A system of credits for service prior to existence of the law is provided.

In signing a bill introduced by Sen. Richard J. Daley [D., Chicago], the governor vetoed two other election bills to avoid inconsistencies. The Daley bill requires that when a citizen wishes to vote and his card is not found in the precinct register, he must have two householders come to the polls and vouch for him. At present only his own affidavit is necessary.

Other Bills Signed.

Among bills signed were those having the following purposes:

Requiring election boards to employ equal numbers of Republicans and Democrats as canvassers, as is done in the case of election judges and clerks.

Authorizing the Chicago park district to permit erection of a marine corps memorial in Grant park.

Excluding tax deductions from the amount of wages exempt from garnishment.

Setting up a new system of budgeting for the Chicago sanitary district and requiring annual audits supervised by the state auditor.

Exempting school districts governed by boards of school directors from the law requiring local governments to submit budgets to the state.

By the end of this week, only 30 of the 655 bills passed this session are expected to remain to be signed or vetoed.

BILL TO REVISE LAW ON MENTAL ILLNESS SIGNED

Modernizes Handling of Problem.

[Chicago Tribune Press Service.]

Springfield, Ill., July 23.—A bill to modernize Illinois statutes relating to mental cases was signed today by Gov. Dwight H. Green. Sponsored by the Illinois Society for Mental Hygiene, the measure was introduced by Rep. Bernice Van der Vries [R., Winnetka]. In 1941 a bill of similar purpose was vetoed on technical grounds.

Rehabilitation of the thousands of persons who attempt a return to normal life is expected to be made easier by changes in terminology. "Mental illness" is the phrase used thruout the new law in place of "lunatic" and "insanity" in the 1893 statute.

May Alter Public Attitude.

"Hopes are high that this will help educate the public to know that mental illness is no more reprehensible than is any other disease, and thus help the victims who often are acutely conscious of social attitudes," said Willard L. Couch, assistant superintendent of charities in the state department of public welfare.

A new method of access to institutions for treatment is provided. On a petition signed by two physicians and approved by the county judge a person may be admitted without loss of civil rights. Admission in this way is classified as being "on consent by lack of protest." Safeguards are provided to prevent abuse of this method to "railroad" victims into institutions.

Provides Jury Determination.

Persons admitted on consent by lack of protest or by their own voluntary application have the right to leave the hospital at any time on giving 10 days' notice to the superintendent. This period of notice is required to permit notification of relatives who might then decide to seek a court commitment.

In cases of court commitment the person alleged to be mentally ill or a relative files a petition for a jury inquest to determine the facts.

Under emergency detention the person alleged to be mentally ill may be held for a period not exceeding 15 days pending judicial investigation of his mental condition when not to do so would endanger his own life or the life of others.

A one year period of conditional release, instead of the present 90 days' parole, is provided in the new law, which becomes effective Jan. 1.

FOUND INJURED IN SHAFT.

James Hoban, 18 years old, 10521 Wentworth avenue, was taken to Roseland Community hospital yesterday after he was found seriously injured in the elevator shaft at the Sherwin-Williams company plant, 635 East 115th street, where he was employed.

LABOR COSTS AND LIVING COSTS.

William Green, president of the American Federation of Labor, and Philip Murray, president of the Congress of Industrial Organizations, told the President that something would have to be done about the failure of the administration to hold down the cost of living.

Everybody or nearly everybody will agree that there has been a failure and that it is deplorable, but only a small minority will approve of the step demanded of the President by the two executives of organized labor. They want prices charged consumers reduced to the level prevailing in September, 1942, with the government paying the difference. That is the subsidy plan which congress before its adjournment viewed with suspicion and which congress will be more determined to oppose now that the members have had a chance to talk with the people back home.

The country is confronted with inflation, largely because of the increases which have taken place in labor income, while the supply of goods and services has gone down, In the first three months of 1943 the total nonfarm income of the country was 29.2 billion dollars, or 13.6 billion greater than in the same period in 1939, the year the war started. Of this increase 12¼ billion dollars was in labor income. While labor income has increased 111.5 per cent during the war, other income has increased 28.8 per cent.

Measured by wage rates, labor in 1939 was already better paid than ever before, whereas many sections of the population still were suffering from depression. According to the handbook of the United States department of labor, the average hourly wage of building tradesmen in 1939 was $1.07, the highest of all time. That compared with $1.00 in 1929 and .557 cents in 1919.

According to the same authority the average hourly earnings of factory workers in 1939 was 64.4 cents, the highest on record up to that time, compared with 56.6 cents in 1929 and 47.7 cents in 1919. In mining, average hourly earnings amounted to 85.7 cents in 1939; the comparable rates were 69.3 cents in 1929 and 70.7 in 1919. On the steam railroads the average hourly earnings amounted to 70.7 cents in 1939, a peak figure, up from 63.0 cents in 1929 and 53.7 cents in 1919. As the cost of living in 1939 was considerably lower than in 1929 and 1919, American workmen were living in the golden age.

Between 1939 and January, 1941, there were further increases, the effect of which, to take only one example, was to give factory workers an average hourly earning of 68.3 cents. Notwithstanding this fact, the Roosevelt administration, acting thru the war labor board in the Little Steel formula, authorized increases up to 15 per cent over the rates prevailing January, 1941.

The war labor board has ordered that hourly wage rates should be the only factor taken into consideration in stabilizing wages. No limitation was placed upon other methods of increasing the earnings of wage earners. Maurice S. Brody, in a study just issued by the University of Chicago, points out that the following factors have increased the spending money of labor besides the wage rate boosts: regularity of employment, which has immensely improved; the number of hours worked has increased in factories from 38 to more than 45 on the average during the war; payment of time and a half for over 40 hours, a negligible factor in 1939, but now very important; the increase in family income, with more members at work.

While all these influences have been causing pay envelopes to swell, the manufacture of automobiles, electric ice boxes, washing machines, and many other items, for which workmen used to spend a large part of their weekly pay, has stopped. The production and use of many other items has been curtailed.

Increased income of labor has run prices up. The AFL-CIO executives now propose that everybody contribute money in taxes to pay for rolling back prices. Increased labor pay having run prices up, organized labor wants to saddle part of the higher cost of living on those who have not participated in the advance. The Green-Murray alternative to the roll-back is still higher wages.

POST-WAR AIR ROUTES.

Representatives of 16 commercial air lines met recently in Washington and outlined a post-war policy for civil aviation which they believe the United States should follow. The participants in the meeting were all operators of domestic air lines before the war, altho most of them now conduct foreign flight operations for the government. The two pre-war operators of transoceanic routes did not join in the declaration, nor did United Air Lines, one of the largest of the former domestic operators.

The operators favor private ownership and management of post-war air lines, with open, world-wide competition. They want the government to confine its efforts to fostering and encouraging a world-wide air transit system, and to obtaining civil and commercial outlets necessary to its operation. They would allow world-wide freedom of transit in peaceful flight, the so-called "right of innocent flight" by which planes of any nation could traverse the air over the territory of any other nation.

This is a good platform as far as it goes and to the extent that other nations will assent to it. Private ownership and management are obviously best. Our own air lines demonstrated that before the war when they far outstripped in efficiency the government run lines of Europe.

It would be a tremendous advantage to American air lines if other nations agreed, and abided by their agreement, not to subsidize commercial air lines. Our undisputed leadership in both manufacture and operation of planes would give us world leadership in a short time under such conditions. For that very reason it is doubtful whether other nations will actually abstain from granting subsidies, direct or indirect.

There is a simple formula that our state department can adopt. It is that wherever we are flying today in the prosecution of the war, our commercial planes shall be allowed to fly in time of peace, and wherever we have built airports and other facilities for war use, our commercial planes shall be allowed to use them after the war, sharing that use with the planes of the country in which they are located.

Our entry into the war has been the salvation of our present allies, not one of whom is not deeply indebted to us for both men and arms. We ask only what is rightly ours in seeking the post-war use of the facilities that we have constructed for their defense. Indeed, our continued use of those facilities is as much in their interest as it is in our own, for only thus can we continue the defensive efforts of which this nation alone is capable in a large portion of the world.

THE REFORMATION DIDN'T LAST.

When the office of price administration backed down in the face of Gov. Goodland's rebuke of its practice of unconstitutional search and seizure in Wisconsin, and asserted that henceforth it would proceed legally in enforcing gasoline rationing regulations, THE TRIBUNE commended the action, but took the promise of reformation with a grain of salt. The reservation was justified.

Mr. McKeough's Gestapo is again running all over the map, harassing citizens who are engaged in the legal exercise of their legal rights, and acting generally just as a bunch of political incompetents directed by a lame duck might be expected to act. The so-called enforcement drive, on the face of the facts, is doing little, if anything, to prevent the illegal use of rationed gasoline, and even if it were accomplishing its purpose it should not be permitted because the agents are in many instances violating the law.

The statute that they are enforcing is but one of many on the books, and the OPA agents, as well as the people against whom they are proceeding, are bound to respect all laws and in particular to respect the procedure dictated by the Constitution for the enforcement of those laws. This they are not doing.

What Mr. McKeough seems to overlook is that the holder of an A rationing book is entitled to approximately 240 miles of driving in a rationing period and that by saving his gasoline from a preceding period he can double that mileage. What he does with his gasoline, so long as he uses it in his own automobile and proceeds at a lawful speed, is no business of Mr. McKeough or any one else, in or out of the OPA. If the car owner wishes to use it for pleasure driving, that is his right. If he uses it for a vacation trip, that is also his right.

Mr. McKeough first recognized this principle in setting a zone in which he said that Chicago motorists might drive without interference—not that they needed his permission—and then his agents proceeded to stop and question or to report to local boards motorists who were well within that zone. He first published a list of people whom he names as suspected violators, without the slightest evidence that his charges were true, subjecting those people to unjust publicity. Some of them were stopped and questioned only 55 miles from Chicago. Within 24 hours after his unjust attacks he had rescinded his threats to prosecute, demonstrating anew the footless incompetence of his organization.

At the time of the first snooping outbreak, in Fond du Lac, motorists from Illinois were taken before the local Fond du Lac rationing board, which subjected some of them to penalties. This was in apparent violation of the OPA's own regulations, directing that violations be referred to the rationing board from which the motorist got his gas coupons. Since that time the OPA, which presumes to make its own laws as it pleases, has issued an order giving any rationing board the power to punish any motorist found in its district for any fancied violation.

This is rotten administrative practice and cannot fail to produce widespread injustice. The local rationing board has the duty of ascertaining the rightful needs of the motorist in its district. Frequently local boards, in the proper exercise of their power, grant excess rations to motorists for specifically stated needs. Under the new regulation, any other board can pick up this motorist and, rejudging his case, subject him to punishment for doing something his own board assured him was perfectly legal. The method is bound to lead to intolerable confusion.

It is the duty of local law enforcement officials to coöperate with OPA agents, or any other federal agents, in enforcement of the law, but beyond and above that duty they have the duty to obey all the laws themselves and to see that others within their jurisdiction do the same. Elected officials in the middle west will be false to their duties if they do not proceed promptly to arrest and punish any OPA agents, or any one assisting them, who violate the protection that every state constitution grants the citizen against unreasonable search and seizure.

The question goes beyond the enforcement of proper rationing regulations, desirable as that is. At stake is the right of the people to have the law administered by constitutional methods, and to be free from the oppression of burocrats who pretend to the power to write their own laws.

Editorial of the Day

OUR OWN INTERESTS, TOO.

[Miami Herald.]

Seldom in congressional history has a committee worked with as definite a purpose and so decisively as the Truman war investigating committee. Its order for an inquiry into alleged contracts for turning over hundreds of American built military airports to foreign nations six months after the war evidences a timely alertness to the nation's interests.

The Truman committee is not witch hunting. Millions of lend-lease money have gone into erecting airports along aerial highways all over the globe. The committee hopes its members, who are to make an inspection trip, will return with recommendations to aid this government in establishing a policy which at least would permit post-war use by American planes of the landing facilities built by this country's hard cash.

The committee's position is sound common sense. Its determination to work out a policy for the country to follow in the premises is the sort of post-war planning that congress may well and advisedly undertake.

MR. PEPYS ACKNOWLEDGES.

24th July—Rec'd from an unknown benefactor by post a small box containing three specimens of silverware from Chicago cafés of 40 years ago when I was a young blade about town, to-wit: a pickle fork of good design marked Doussang; a coffee spoon, also well ornamented, marked the Monroe, and another coffee spoon of small merit marked Becker & Watson.

Remembered Doussang's as a restaurant of French cuisine, the rival of De Jonghe's, and the Monroe as a restaurant that catered to supper parties and advertised in theater programs, but cannot remember Becker & Watson's place, so will look it up in an old telephone directory. Must say that the Doussang and Monroe pieces are of better design in silver plate than is customary at our public resorts of today, which proves my belief that civilization has gone backward rapidly ever since I came of age and tried, like every American, to advance it.

Rec'd from the public library a first edition of "My Private Diary," by the late Rudolph Valentino, an idolized mime of the films, with a note saying: "It turned up in the Victory Book campaign and we'll swap it any day for half a dozen paper-backed Pocketbooks." Which proves, I suppose, that war is no respecter of glamor boys.

Rec'd my pay check with a great chunk bitten out of it for income tax, which proves, no doubt, that the talk about "tax forgiveness" was an example of congressional comedy.

Have rec'd no postcards from missing friends with pretty pictures of summer resort lakes and mountains, and remarks that they were having a wonderful time, which convinces me there's a war on. How long the war will last nobody knows, but would be glad to hear from the several prophetic friends who were going to buy me bottles of champagne if it wasn't over by the summer of 1943.

LINES FOR TARZAN.

Sing a song of Tarzan,
A Scottie that I know,
Black as any ace of spades,
Old, and fat, and slow.
He waddles slowly to the door,
But e'er he lets you in
He sniffs, and wags suspiciously
The whiskers on his chin.

He loves to push his rubber ball
In the reflecting pool,
And then climb in to rescue it
And wade in waters cool;
Then he must bring it back to prove
That he can always win,
And on the soft, warm grass he rubs
The whiskers on his chin.

He loves to help John drive the car,
And sits up straight and still
To watch the scenery float by,
Paws on the window sill;
He leans his head upon his paws
And, as the breeze blows in,
He blinks a little when it stirs
The whiskers on his chin.

Sunrise at Night.

Chicago has mountains, too—of slag. It also has sunrises at night.

Stand at 112th street and Ewing avenue and look west to see this spectacle. You will first see a newly-created subdivision whose houses blink off their lights and say their good-nights. Beyond this are manmade mountains of slag that look inky-black in the faint glow of the steel mill's stage setting. On top of these mountains you will notice the outline of an engine with four cars without windows. You wait a bit impatiently for the first "sunrise," and then the car tilts. It looks like a giant soup bowl filled with molten, golden bullion. Imagine gold as a light source, fired with the most brilliant yellows, mingled with splashes of deep, rich, vibrating orange; such is the splendor, awe, and breathtaking beauty before it breaks. As it does the skies blaze with fiery reds, toned down to golds, then to orange, and finally yellow. All this happens in split-second phases. Now slag, like molten lava, flows down into an ever-widening carpet.

You have witnessed a "night sunrise" in Chicago. You will want to stay on for the next. From these hades-on-earth shows come inspiration, beauty, and a creative power that moves you mightily. Alexander Belfuss.

And Twilight steals across the lawn,
Where her cloak of darkness lies
Tiny yellow lights arise . . .
They are only fireflies.

Lamps to guide the moon's pale ray,
Sunbeams who have lost their way,
Stars that fall from evening skies,
Golden steps to Paradise. . . .
Are they only fireflies? Louise.

The ready-to-wear saleslady said I wore my clothes too large, she wouldn't sell me clothes with a generous fit, and I don't like these muscle-revealing clothes some women wear.

The beauty operator said I had enlarged, clogged pores and my eyebrows were wild.

The shoe clerk said my foot had an unusual spread. [It probably does. I walk a lot these days.]

The manicurist complained I had no half-moons.

DAYDREAMING MUST BE MIXED WITH REALITY.

ALMOST every youngster reverts to daydreams. On lazy summer afternoons, with the air filled with the calls of birds and the drones of insects, thoughts are likely to wander, with utter forgetfulness of self. Lofty castles are peopled with fair ladies and knightly gentlemen.

Most incidents of this sort are normal. Children must develop imagination, and youth is the time to indulge. We are concerned only when these episodes become so fascinating that the lad prefers them to healthy play and the companionship of those his own age. We will then need to apply correction. Our concern is that flights of fancy shall not assume too important a place in life.

At the same time we must not decry the value of reveries. Let every boy and girl picture his goal, set his mark, and attempt to achieve it. But he should understand that accomplishment must be worked for. Perhaps our young people have not had enough of this form of exercise and we can well encourage them in it. Too few have envisioned some worthwhile aim.

But the practice can be carried too far. The one who fails to toil to attain even reasonable proficiency may picture himself as always successful, the recipient of praise and honor. Defeated by reality, this way is taken of finding satisfaction.

There is always some danger in loneliness. An only child, unless friends can be found, may fail to learn resourcefulness and the great lessons of give and take. When he begins to talk to imaginary playmates, it is high time to provide them. We must not permit the daydream to become a substitute for action. Otherwise the routine discipline of school will come as a rude shock.

No little harm is done by the pushing, ambitious mother. I well recall the case of a 9 year old girl who had many natural gifts. She constantly was forced ahead of the other youngsters in the neighborhood. She began to fail in her school work and seemed to be unable to concentrate.

Fortunately, the family physician was able to win her confidence. He discovered that she considered herself superior to her classmates. She was living in a world of her own; queen of all she surveyed.

A summer camp was suggested and it proved the very medicine she required. Apparently there were a number of wise counselors. She soon came off her high horse and, from snubbing her tentmates, became a humble seeker of their good opinions. They were extremely cautious about praise and not a word of commendation did she hear unless she truly earned it.

The beauty of this plan was that it did not destroy her spirit. She returned physically strong and mentally normal.

REPORTING SYPHILIS.

A. N. writes: What is the attitude of employers in regard to syphilis? Does the health department inform the patient's boss?

REPLY.

In general, industry does not discriminate against those who show a positive Wassermann or Kahn test, if the patient is under treatment, and cannot spread the disease. The records in the health department are confidential. The officials, however, make every effort to see that the victim receives adequate care so that he cannot pass the infection along.

LUNG ABSCESS.

F. J. writes: What is the necessary procedure in treating an abscess of the lung?

REPLY.

Drainage will need to be established. For this purpose, the bronchoscope will help. Gravity may be resorted to, with the body inclined 30 degrees with the head down. If surgery is required, make certain you are in skilled hands.

DISTRESS AFTER DRINKING.

GIVE THE VOTERS A CHOICE.

Cincinnati, O., July 17.—Political chicanery perplexes every generation, and this generation is no exception. But we seem to be getting an overdose of perplexities in our day. The progress made by this great country has aroused the envy of every other nation of the world. These nations cherish the possibility of being the possessors of such a powerful nation, but they would not have it on a democratic basis. They refuse to acknowledge the fact that this nation became strong only because of its democratic practice; because all had a stake in its success.

We have been the envy of the powerful forces of the world almost since the birth of this great republic. Direct attacks against us have been frustrated. But they have not become discouraged and are still hopeful of taking over this nation to make it over according to their greedy pattern.

Direct attacks having failed, they have resorted to a new technique—the indirect attack. We have been subject to this attack for quite a few years now and we have neglected the issue too long. Too many people believe the attack is all out in the open thru propaganda. We shall never lose our heritage thru propaganda. Propaganda brings out facts and facts will sustain our heritage as a great republic and a free people.

The weakest link is the political link. This link may be our undoing unless all of us become vigilant and watch our politics. The monstrosity of the Republican convention of 1940, which produced a headache instead of a candidate, justifies the statement that we can lose our rights and our individuality as a nation thru politics . . . and political parties.

What transpired in 1940 is in the making for 1944, not alone in the person of Wendell Willkie but thruout the entire Republican hierarchy. For proof of this I refer to a statement made only a few days ago by John W. Bricker, governor of Ohio, potential candidate for President on the Republican ticket. At Lima, O., Gov. Bricker stated: "Domestic issues will dominate the 1944 campaign. Both parties are agreed on foreign policy."

Those statements can produce a lot of controversy and an abundance of ill-feeling. We distinctly remember that both candidates in 1940 "were agreed on foreign policy"—without the advice and consent of the American people. Is it planned that 1944 shall be a duplication of 1940 and the people again be deprived of their voice concerning the foreign policy of the nation? Is there collusion existing between the two major parties that they can be "agreed on foreign policy?" What is the foreign policy on which the two major parties are agreed? Why not consult the people on the issue of foreign policy to determine if they approve or disapprove?

The Declaration of Independence tells us—and decent political morality dictates—that the powers of government are derived from the consent of the governed. By what authority then do the two major parties usurp this right by agreeing on issues and only giving the people the privilege of selecting the administrator of their agreements.

The voting public of the United States is sick of this method of voting against the "ins" in favor of the "outs." The people are quite capable of determining the domestic and the foreign policies of its government. They have that right and the two major parties must return that right to the people if they hope to remain "major parties" for long. FRED A. GEIER.

ON CATHOLIC DOCTRINE.

Chicago, July 21.—In today's issue of the TRIBUNE, a "baby mixup" news item stated that the Harry J. Hardwigs of Los Angeles are filing suit against a hospital for an alleged switching of babies. The suit said that the Hardwigs "believe that a child not baptized in the Catholic faith is doomed to eternal perdition."

Now, whether or not the Hardwigs believe this to be true is not the point in question here. If they do believe this to be true, they are misinformed. The Catholic church does not teach that unbaptized children, or children baptized outside the Catholic church, are "doomed to perdition."

The Catholic church teaches that for any one to enjoy the supernatural happiness of heaven it is necessary for him to be baptized. Any one not baptized validly will not enjoy this special super-happiness in heaven simply because such a one is not in possession of the capacity for it which baptism gives. Hell [eternal perdition] is the lot of him alone who dies in the state of serious sin which he personally has committed. It is clear that a child before he reaches the age of responsibility for personal actions is incapable of personal sin. Therefore, such children will never go to hell. On the contrary, they will in all probability enjoy a natural happiness, as St. Thomas teaches: "They are free from pain and sorrow . . . they enjoy peace and happiness . . . that happiness which would have been their natural end, if human nature had not been elevated to a supernatural order."

SHAKEDOWN BY DELIVERY MAN.

Chicago, July 19.—We recently had occasion to have a package of merchandise delivered to us thru a forwarding company.

Our office is located on the second floor of a building, up one easy flight of steps from the street, and the delivery man—who came up to notify us that the packages were there—refused to carry this merchandise, which was not exceedingly heavy, up this one flight of steps, unless reimbursed extra for such service.

We were informed by the company that the man was complying with orders when he made such a refusal. Such regulations seem very absurd to us, especially in view of the fact that the driver was a husky individual, who carried the goods up this flight of stairs without any trouble, after we paid him for such service. We can see no logical reason for such silly rulings in times like these, and believe people should rebel against such absurd tactics.

PROUD OF TRIBUNE AWARD.

Chicago, July 21.—Last night I heard the W-G-N broadcast where Dick Najarian of Zenith Radio corporation was given the Chicago Tribune award of War Worker of the Month.

I want to tell you how proud it made me, a Zenith worker, to have one of our men receive this high honor. We are all working hard to turn out as much radionic equipment for the army and navy as we possibly can, and it makes us all feel good to have somebody outside of the plant recognize work well done. HYPHENATE SOCIETIES.

Chicago, July 20.—The heading of an article in the July 19 TRIBUNE reads thus: "Irish at Rally Demand Ulster Be Part of Eire." Why do Americans [and the article says these Irish are Americans] want to stick their noses in other peoples' business?

This country is overflowing with so-called Americans whose first thought is for some foreign nation. We are Americans, so let us think of America and to hell with uniting Ulster and Eire, or restoring Poland or Slovakia, or Union Now, or a hundred other crusades. Those people should be able to care for themselves and it is no business of an American what the Irish in Ireland want to do.

If Mr. Bernard MacGilliam and his Ulster Irish Liberty Legion would spend as much time and effort trying to preserve our own United States of America as he does settling the political questions in Ireland, we would not now have to fear for the safety of our own political and economic freedom.

Let us all be and think American. People in Europe can take care of themselves without advice from pressure groups in this country. C. A. METZ.

SMEAR TACTICS.

Chicago, July 16.—Whoever disagrees with a New Deal policy runs the risk of being called a Roosevelt hater, or of being a pro-Nazi, or both. With the experience of the last 10 years, it would be strange if there were no one with a small hate, but generally the charge is unfounded. The accuser fails to distinguish between a lack of confidence and hate. No one hates Lanny Ross because he cannot step into the ring and knock out Joe Louis, and no one hates Joe because he cannot sing like Lanny. Neither would any one hate a one armed paper hanger with the hives just because we cannot send him up to paint the flag pole on The Tribune Tower. Yet there are thousands of men in Washington today who are even less qualified to do the job assigned them than any of the cases cited here.

The charge of being pro-Nazi is even more absurd. The proper place to make that charge is with the FBI, which is doing a good job in that line so far. Just because we do not like arsenic is no indication that we love carbolic acid. A. R. DROW.

NO PUPS ALLOWED?

Chicago, July 23.—[Legal Friend of the People.]—I live in a large apartment building, having signed a standard lease which reads that "animals are not allowed on demised premises." However, at least eight tenants have dogs, some of them noisy and others dirty. No satisfaction can be had from the agent when complaint is made. Have I sufficient cause to break my lease? C. V.

If you reread your lease we believe that you will find it merely prohibits you from keeping a dog, but does not oblige the landlord to exact or enforce such prohibitions with respect to other tenants. Your remedy, if any, would be against the offending tenant.

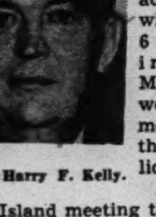
G. O. P. LEADERS CALLED TO MAP 1944 PROGRAM

Committee to Hold 2 Day Parley in Michigan.

BY ARTHUR SEARS HENNING

[Chicago Tribune Press Service.]

Washington, D. C., July 23.—Harrison E. Spangler, chairman of the Republican national committee, announced today that the Republican post-war advisory council will meet Sept. 6 and 7 at Mackinac Island, Mich., to begin work on recommendations for the 1944 Republican platform.



Gov. Harry F. Kelly.

At the Mackinac Island meeting the council will be organized and committees created to study and formulate proposals of action on international relations, taxation, reconversion of industry to peace time production, orderly demobilization of the fighting forces, reorganization and streamlining of government departments and bureaus, and other post-war problems.

Committee to Get Report.

At a later date there will be public hearings by the various committees at which organizations and individuals will be invited to submit their views on American coöperation with other nations to preserve peace, and other foreign and domestic questions. The council will report its recommendations to the national committee next year for transmission to the resolutions committee of the Republican national convention.

Gov. Harry F. Kelly of Michigan will be host to the council at the Mackinac Island meeting. The Michigan governor invited the council to meet at the island "where the members can get in two days of uninterrupted shirt-sleeve work."

The dates were selected to permit senators and representatives to attend as they start back to Washington for the reconvening of congress.

49 on Post-War Council.

The post-war advisory council is composed of the 24 Republican governors, 17 members of congress, and 8 representatives of the Republican national committee. It was appointed last May by Chairman Spangler.

"From this council of experienced legislators and executives will begin to flow the program upon which America will depend for guidance in the years ahead," Mr. Spangler said today.

"There seems to be little doubt now that next year the voters of this country will turn to the Republican party for leadership out of the morass into which the New Deal has led us. . . .

Peace Program Expected.

"Successful prosecution of the war must be our first consideration. Then we must be prepared to coöperate on a friendly basis among ourselves and with other nations to prevent a recurrence of war and to restore the economic stability of the world.

"I have no doubt that these leaders of the Republican party will present to the nation a program for international coöperation that will be a beacon of future peace to all the peoples of the globe."

REDS JOIN HAGUE TO BLOCK G.O.P. SAYS BROWDER

New York, July 23 (AP).—Earl Browder, general secretary of the Communist party in the United States, commenting on the recent indorsement of Mayor Frank Hague of Jersey City by the New Jersey Communist party, said today the action was designed to prevent a Republican victory in the state.

In a letter published in the New York Herald-Tribune, Browder said: "The simple fact is, of course, that the Communists merely joined in the advice [given by many others] that the worker should not join in the factional fight in the New Jersey Democratic party which promises to throw the election to the Republicans who are sabotaging President Roosevelt's war program."

New Jersey will elect a governor in November.

U. S. ASKS COURT TO LABEL BUND AS SUBVERSIVE

The government yesterday asked Federal Judge William J. Campbell to rule that the German-American bund was a subversive organization and that membership in the bund is a basis for denaturalization. The request was contained in a brief filed in behalf of government suits to revoke the citizenship of Dr. Otto Willumeit, former head of the bund here, and eight other former members of the bund. It was the government's answer to a defense petition, asking dismissal of the cases on the ground the bund was not a subversive organization and was not controled from Germany.

Baby Mixup

[TRIBUNE Photos.]

Derek John Woodruff, the baby in the case.

A fair haired, blue eyed baby was gurgling happily yesterday in St. Vincent's orphanage, completely indifferent to the interest police were taking in the fact that his mother, Miss Marie Woodruff, 24, gave him away.

Six weeks old Derek John Woodruff of 2411 Lincoln avenue had a busy night Thursday. After his mother gave him to her boy friend, Nick Maggiore, 40, of 2038 Huron street, the latter decided he did not want him and took him to St. Vincent's orphanage. Refused admittance there, Maggiore took Derek to the North avenue police station. Police then took him to St. Vincent's, detained Maggiore for questioning, and later picked up the baby's mother in a night club at Lincoln and Wrightwood avenues.

The mother, held at Racine avenue headquarters, yesterday denied that she had abandoned the baby and said Maggiore was crazy about Derek and wanted him, so she left him there last Sunday. "Nick gave the baby to a friend of his named Mabel," Miss Woodruff said, "but Mable gave Derek back to him Thursday night, and then Nick took him to the orphanage. I didn't know anything about it until the police came after me in the night club."

OPA FIXES RULES FOR DRIVING INTO SHORTAGE AREA

Washington, D. C., July 23 (AP).—The office of price administration set up machinery today to enable motorists to use their "A" ration books for trips into or out of the eastern gasoline shortage area.

The action was necessary because eastern motorists are now using "A-6" coupons while those outside the east are using "A-7" coupons from their new basic books. "A-6" coupons are not valid outside the east, while "A-7" cannot be used in the east.

To overcome this and permit travel across the "border," OPA set up procedures by which eastern motorists who plan to travel outside the shortage area may go to a rationing board and exchange "A" coupons for enough "B" coupons on a coupon for coupon basis to enable him to get the gasoline he will need outside the area. Motorists outside the eastern shortage area who intend to travel into it will follow the same procedure.

DENY REHEARING ON REVERSAL OF TREASON CASE

The United States Circuit Court of Appeals in a one page order yesterday denied the government's petition for a rehearing of the appeals court order reversing and remanding for retrial the treason conviction of the six relatives and friends of Herbert Hans Haupt, executed German saboteur.

J. Albert Woll, United States attorney, was out of town, and his assistant, Earle C. Hurley, would not comment on the ruling. It was indicated, however, the government would advance its appeal to the United States Supreme court.

The three couples were convicted by a jury. The men were sentenced to death and their wives sentenced to 25 year prison terms and fined $10,000 each. The defendants are Hans and Erna Haupt, parents of the executed saboteur; Walter and Lucille Froehling, uncle and aunt of Herbert, and Otto and Kate Wergin, friends of the Haupt family.

Customer Spills His Chili; Row Follows; He's Freed

Christie E. Erickson, 57 years old, 6446 Ellis avenue, was exonerated by Judge Francis Borrelli in Grand Crossing court yesterday of all blame for a disturbance he created in a restaurant at 836 East 63d street. He related that after he spilled a bowl of chili on the counter, a waitress told him: "You'll have to clean it up yourself." The remark, he said, led to a quarrel with the manager.

REP. DAY WARNS OF SUPER STATE MENACE TO U.S.

Commends Congress for Uprising.

The proposal to make our nation part of a world super-state, which would mean the end of the republic, is "the great issue of 1944," Congressman at Large Stephen A. Day of Evanston said last night in a radio speech.

Day assailed recent statements by Justice Owen J. Roberts of the United States Supreme court suggesting that a constitutional referendum be held soon on the question of American membership in an international order for which constituent nations would be expected to surrender conflicting sovereignty.

He hailed congress' uprising in its first current session as an indication that the law making body "is determined to put an end to the further abdication of its prerogatives and to check all encroachments by the executive and judicial departments."

Sees Menace to Sovereignty.

The congressman envisioned our entry into a world organization as "a surrender of sovereignty far more drastic than any enemy force could ever inflict." He intimated the step might be taken by the President without congressional concurrence by an executive agreement.

Great Britain and Russia do not need us except to defeat Hitler, he said. He called attention to the intense nationalism shown by Winston Churchill and Josef Stalin, asking, "Is it possible that we utterly lack equally pro-American leadership?"

A common world currency with America at the short end, loss of our high wage and living standards, constant involvement in the quarrels of other nations were among the effects of Union Now foreseen by Day.

Opposes Union Now.

"Union Now would split America into groups and factions who, at first heartbroken, would become sullen," Day declared. "If you want to see another 1776 and a war for independence, just succeed in fastening the chains of Union Now on the wrists and ankles of the American people. No, Justice Roberts, we do not want Union Now with Britain and you shall not impose it upon us."

In a statement to the press, Congressman Day warned of further attempts at usurpation by the executive branch, pointing out that our post-war rehabilitation administration has signed compacts with 30 nations without congressional consent. If the proposed referendum were held "while 11,000,000 of our men and women are under military regulation . . . our republic would die," Day declared.

DELAY HEARING ON PETITION IN VAULT ROBBERY

A hearing on an involuntary bankruptcy petition filed against the Portage Park Safe Deposit Vault company, 4717 Irving Park road, by five boxholders who claim losses in the burglary of the vault during the week-end of July 10-11, was postponed for a week yesterday by Archie Cohen, federal referee in bankruptcy.

Atty. Milton Gerwin, who filed the petition, told the referee that after a conference with officials of the Maryland Casualty company it was decided to appear before Federal Judge William H. Holly next Monday and request permission for the surety firm to have an audit of the losses made at the expense of the company.

Max Rappaport, counsel for the vault firm, told Cohen that he stands ready to coöperate in any way feasible as far as there is a liability. He said that altho the firm carried $50,000 insurance for which it paid only $49 annually, it was probable that all losses, except cash taken in the burglary, would be covered. Under the policy, he explained, the vault company was not liable for cash losses, which total more than $400,000.

BULK OF $930,000 SHAFFER ESTATE GOES TO FAMILY

Probate Judge John F. O'Connell approved proof of heirship yesterday for the $930,000 estate of Charles B. Shaffer, pioneer oil producer who died in his home at 1420 Lake Shore drive last Sunday at the age of 84 years. Henry A. Gardner, attorney for the estate, said the bulk will go to the widow, Isobel, and two children, Mrs. Otto [Barbara] Neumann of Miami Beach, Fla., and Elmer Ellsworth Dale Shaffer of Lexington, Ky. About $50,000 will be divided among other relatives and friends, and part will go to Kenyon college in Ohio, Gardner said.

He leaves his widow, Ida, and two daughters, Edith and Hazel.

John Beaton.

John Beaton, 80 years old, past state advisory archon of the Royal league and a retired machinist foreman who was employed for 35 years by the Chicago and North Western railway, died yesterday in the West Suburban hospital. Surviving are his widow, Amelia; a son, and a daughter. Mr. Beaton lived at 1224 North Massasoit avenue. The funeral will be held at 1 p. m. Tuesday in the chapel at 5701 Division street.

Michael P. Troost.

Services for Michael P. Troost, owner of the Troost Monument company of River Forest, will be held at 10 a. m. Monday in St. Vincent Ferrer church, River Forest. Mr. Troost, who was 43 years old, died Thursday in the Oak Park hospital. He lived at 1445 Franklin avenue, River Forest. His widow, Hazel, and three daughters survive.

Charles Shiffler.

Charles Shiffler, a baritone who appeared in many Wagnerian roles with the Chicago Opera company, died Thursday in Berkeley, Cal., according to word received yesterday by friends here. He sang during the last season with the San Francisco Opera company. His widow and a son survive.

SPY HUNT FADES INTO SEARCH FOR HOUSEBREAKERS

A police case which started out with all the aspects of a major spy hunt apparently had simmered down yesterday to a routine investigation of housebreaking. The furor started when Mr. and Mrs. R. M. Cain notified police that their penthouse apartment at 3240 Lake Shore drive had been broken into during their two weeks absence from the city.

Agents from the federal bureau of investigation were called into the case when it was discovered that two radio sets with short wave attachments and a pair of powerful binoculars had been used during the intruder's occupancy of the 18th floor apartment, which has an open view of Belmont harbor and the lake beyond. It was discovered later that these items belonged to Cain.

Officials of the FBI refused to make any comment, but it is believed that they have left the investigation to local police. Capt. William Drury of the Town Hall station said he was looking for a former maid of the Cains in the belief that she may have retained a key to the penthouse and gone gone there. Cain, who is vice president of the Abbott Laboratories, said nothing was stolen.

W. L. ROSS DIES; BROTHER OF 1874 KIDNAP VICTIM

Saranac Lake, N. Y., July 23 (AP).—Walter L. Ross, 74 years old, covictim in one of the nation's most publicized and mysterious kidnapings 69 years ago, later a prominent Wall street figure, died yesterday.

It was on July 1, 1874, that two men in a buggy stopped in front of the Ross home in Philadelphia, Pa., and offered Walter, and his brother, Charlie, 4, candy and a visit to a circus. After a short ride the men gave Walter a quarter to go into a store and buy candy.

They drove away with Charlie, who never was seen again. The boy's father, a grocer, received a demand for $20,000 ransom, but was unable to raise the money.

FOUR ARRESTED IN BOOKIE RAIDS FREED BY COURT

Four reputed handbook operators were freed by Judge Oscar S. Caplan in Racket court yesterday on a motion to suppress evidence obtained by the police when they raided the alleged handbook at 346 East 26th street.

The police admitted they had to smash a door to enter the place. The four discharged were Peter McKoene, 45 years old; Charles Plotner, 53; Leonard Miana, 40, and Frank Fenneman, 50.

A gambling charge against Joseph Iarussi, 52, who was seized in the lobby of a building at 17 Quincy street, where he allegedly accepted bets on horse races, was dismissed on the ground of insufficient evidence.

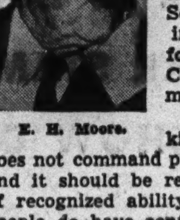
'PALACE GUARDS' IMPERIL UNITY, SENATOR WARNS

Demands Ouster of Kitchen Cabinet.

Tulsa, Okla., July 23 [Special].—Demobilization of the "New Deal's palace guard, made up of Harry Hopkins, Felix Frankfurter, and other impractical un-American advisers" was demanded today by Sen. E. H. Moore in an address before the Tulsa Chamber of Commerce.



E. H. Moore.

"This so-called kitchen cabinet does not command public confidence and it should be replaced by men of recognized ability in whom the people do have confidence," he declared. "Congress has the power—and I hope it will exercise it—to demobilize this palace guard."

First Appearance at Home.

The occasion was the blunt speaking junior senator's first public appearance in his home state since he went to Washington last December. In one of the election surprises of the nation, Moore, a lifelong Democrat, ran on the Republican ticket in his first quest of an important public office and unseated Sen. Josh Lee, an ardent New Dealer.

Moore told his audience of 300 business men that New Deal propagandists are using public money in an attempt to "sell the people by fair means or foul on the indispensability of a man or group of men."

"Whole bureaus have been set up and maintained for the purpose of propaganda to create in the minds of the voters of the country a belief in the indispensability of the now governing class," he declared. "Nothing ever was more false than this claim.

For War Spending Only.

"We are paying out billions and billions of dollars—and properly so—to win the war. Whatever amount of money we spend, and even whatever amount of money we waste, the American people will not complain if it is used for the prosecution of the war.

"But we also are spending multiplied millions of dollars for propaganda purposes that have no connection with the war. We are spending this in every form and manner here and in every country in the world to indoctrinate the minds of people thruout this country and the world with the thought that we possess today, in our ruling class, men of super-colossal stature."

HENRY G. FOOTE, LONG IN LUMBER BUSINESS, DEAD

Henry Gould Foote, 69 years old, former Chicago and Minneapolis lumber executive, died last Tuesday in Clearwater, Fla., Chicago friends learned yesterday. Mr. Foote was prominent in political and civic affairs in Minnesota during the period 1903-'30, when he organized and later sold the H. G. Foote Lumber company.

During the same period he organized the National Retail Lumber Dealers' association, in conjunction with Edward Hines, and acted as the organization's vice president for three years. During the last several years he was associated with Merrill, Lynch, Pierce, Fenner, and Beane, Chicago brokerage house. Recently he was appointed judge of the Municipal bench in Belleair, Fla.

He is survived by his widow, Maude; a son, Henry Jr. of Chicago, and a daughter, Mrs. Stewart Scott of Patney, Vt. The date of services and interment in Minneapolis will be announced later.

CIO AVOWS AIMS TO PERPETUATE NEW DEAL IN U.S.

High ranking leaders of the Congress of Industrial Organizations yesterday touched off a midwest campaign which they said seeks to continue the New Deal in power indefinitely and to back it up with a congress composed of pro-labor liberals of both parties.

The six man CIO political action committee, headed by Sidney Hillman, president of the Amalgamated Clothing Workers' union and long one of President Roosevelt's admirers, met in Hotel Sherman with 250 state and local CIO officials from Illinois, Indiana, Ohio, Michigan, Wisconsin, Minnesota, Iowa, Missouri, Nebraska, and Kentucky.

The announced purpose of the meeting was "to insure election of New Deal candidates in the 1943 and 1944 elections and to defeat reactionary, defeatist and anti-labor congressmen."

R. J. Thomas, head of the United Automobile Workers and a member of the committee, said it plans "to secure a united political action with the American Federation of Labor, the railroad brotherhoods, and the broadest possible consumer, farmer and progressive labor organizations."

Members of the committee, in addition to Hillman and Thomas, are: Van A. Bittner, assistant to the president of the United Steel Workers of America; Sherman Dalrymple, United Rubber Workers' president; Albert J. Fitzgerald, head of the United Radio, Electrical, and Machine Workers, and David MacDonald, secretary-treasurer of the steel workers.

CONVICT BROKER ON REAL ESTATE FRAUD CHARGES

John J. Kern, former real estate dealer at 1502 Devon avenue, was found guilty late yesterday by a jury of seven women and five men in Criminal court on a charge of operating a confidence game. Judge Donald S. McKinlay set Tuesday for hearing on a motion for a new trial.

Kern was accused by the state of accepting down payments on buildings he was not authorized to sell. During his trial several witnesses told of paying him money for buildings they could not buy and said that Kern refused to refund their money.

Kern testified the transactions were in good faith and in the usual real estate procedure. He said he planned to pay back the money until he found it had been used in office expenses. He charged his offices had been raided and records seized without a search warrant and blamed the state's attorney's office for the action.

If a motion for a new trial is overruled, Kern faces a prison sentence of from one to 14 years. Three other similar indictments are pending against him. Kern said that if denied a new trial he will appeal on the ground that records were seized without service of a search warrant.

CLERK SHOWS 14 RINGS; BANDIT LIKES THEM ALL

A young man walked into the National Jewelry company store at 47 North Chicago street in the heart of Joliet's business district shortly before noon yesterday and asked to see some diamond rings.

Mrs. Lucille Scherblich, the clerk, brought him a tray of 14 rings. Selecting one, the man tried it on. It fit. "I like this one very much," he told the clerk. "In fact I like them all."

With that, the man grabbed the tray, ran outside and around the corner where, witnesses said later, they remembered a man getting into an automobile and driving away. The rings, company officials said, were valued at $5,000.

PUBLISHER SHOT BY GUNMAN GETS 3D TRANSFUSION

Cleveland, O., July 23 (AP).—A third blood transfusion was administered today to John S. McCarrens, 74 year old general manager of the Cleveland Plain Dealer and a leading American publisher, in an effort to prevent his death from three bullet wounds inflicted by a gunman who then killed himself.

As he sat in his office in the Plain Dealer building yesterday, McCarrens was shot in the abdomen, left wrist and right arm by Herbert L. Kobrak, 59, a native of Hungary who long had been associated with foreign language newspaper enterprises here.

Deputy Inspector Frank W. Story said the publisher's assailant apparently had become unbalanced from a long series of newspaper reverses.

Varied Events Fill Calendar for Week-End

BY JUDITH CASS.

A VARIETY of events will make the week-end a busy one as well as an outdoor one. The annual running of the rich Arlington Park Classic this afternoon will attract crowds to Washington Park, where the Arlington meeting is being held.

A second horsey event is the Knollwood Amateur Horse show to be held tomorrow at the Knollwood club in Lake Forest. Musical events on the program include a performance of "Aida" at Soldiers' field tonight, and concerts at Ravinia park tonight and tomorrow afternoon. The Onwentsia is having one of its infrequent dancing parties tonight, and the Saddle and Cycle club is having a mixed doubles tennis tournament tomorrow.

Dining After the Races Is Popular at Arlington.

Dining after the races, to avoid the crowded trains back to the loop, instead of luncheon before is becoming popular at Arlington. Three women owners have entered horses in the Classic, Mrs. Harry Payne Whitney, Mrs. Barclay K. Douglas, and Mrs. Isabel Dodge Sloane. Mrs. Douglas and Mrs. Sloane will be present. Mrs. Sloane's Cavalcade won the race in 1934, and Mrs. Whitney's Shut Out was victorious in 1941. Also coming here for the event are the Charles T. Fishers of Detroit.

As the Knollwood ring is only a short walk from the Knollwood crossing where Libertyville-Mundelein trains stop, the committee expects a large turnout for its show. Luncheon out of a picnic basket will be the approved fashion for eating, while a small stand will sell liquid refreshments. Many participants will ride or drive their horses to the show.

So that none of the many children participating will be disappointed, each will be given a ribbon. Those who do not get a prize will receive the Knollwood colors of green and white. Some of the exhibitors are Mrs. Louis F. Swift, L. F. [Pete] Caufield, Mrs. Stuart Templeton and Miss Joan Templeton, the Theodore Mohlmans, and Mrs. Benjamin Carpenter and her children.

Number of Young Women Will Be Ushers at Opera.

The outdoor opera performance will be the first of two—"Carmen" will be presented next Saturday—with the Illinois Opera guild benefiting from the sell-out of 1,200 box seats. Mrs. Hadar Ortman is general chairman of the benefit. Tonight's performance of "Aida" will begin at 8 o'clock and the gates will be open at 7 to take care of the expected crowd.

A number of pretty young women will act as ushers and assist in the distribution of programs, among them the Misses Priscilla Blackett, Mary Jane Brummel, who heads the Opera Guild Juniors; Nancy Davis, Alys Faurot, Peggy Hill, Yvonne Hoskins, Jane McKenna, Barbara Wakeley, and Dorenda Penfield. Many who are not able to use their seats have given them to service men, among them Mrs. Loyal Davis, Mrs. George B. Dryden, Mrs. James G. McMillan, who is president of the guild; Mrs. Wentworth Field, and Mrs. Raleigh Warner.

Mrs. Haven Core Kelly is giving a party for service men who will be attending the opera, and some of the others entertaining at informal suppers before the performance are Mrs. McMillan, Mrs. Hill Blackett, Mrs. Ortman, and Mrs. William H. Spurgeon.

Efrem Kurtzes to Leave Monday for New York.

Efrem Kurtz, who will close his engagement as guest conductor with the Chicago Symphony orchestra with the week-end concerts, and his attractive wife will depart on Monday for New York to the regret of their many friends here. Their Chicago visit is being cut short as Mr. Kurtz is to conduct the New York Philharmonic with Yehudi Menuhin as soloist in an outdoor concert next Thursday.

The Kurtzes will say farewell at a supper party Mrs. William Sherman Hay is giving for them after the concert tonight, and at a cocktail party Dr. and Mrs. Eric Oldberg are giving tomorrow, at which next week's guest conductor, George Szell, and Mrs. Szell, also will be special guests.

The Saddle and Cycle's mixed doubles event will be the club's first tournament in which husbands and wives have been allowed to play together. Some of those competing will be Mr. and Mrs. Henry Gross, Comdr. and Mrs. Herbert S. Stone, Mr. and Mrs. Wells Farnham, the John Roots, the Paget K. Cadys, Mr. and Mrs. John V. Farwell III., the Kenneth Carpenters, and the Hugo Vogels. A buffet luncheon will be served before the tournament, which starts at 3 p. m.

James Hilary Hewitt, the baby son of Lt. [j. g.] and Mrs. Fred E. Hewitt Jr. of Winnetka who was born on July 18, has a grandmother, Mrs. Hewitt Sr.; a great-grandmother, Mrs. Adelaide Taylor of Chicago, and a great-great-grandmother, Mrs. Joseph Consider of Meadville, Pa., on his father's side. Young Mrs. Hewitt is the former Jane Bignell, daughter of Dr. and Mrs. Kenneth A. Bignell of Kenilworth. Lt. Hewitt is stationed at the naval reserve school at Northwestern university. Little Hilary will not be christened until late fall, when his god-father, James Hill, expects to return from Persia after serving with the American Field services as a volunteer.

Women in War Work

By Kate Massee

One of the first Chicago women to be commissioned in the army medical corps is Dr. Julie Olentine, 27 years old, a member of the staff at St. Anthony hospital, who was notified yesterday to leave July 30 for Drew field, in Tampa, Fla., where she will be attached to the army air forces as a first lieutenant. A graduate of Rush Medical college in 1940, Dr. Olentine interned at St. Anthony and has been practicing for two years in Oak Park. She specialized in obstetrics and gynecology. She applied for a commission in April, immediately after legislation was passed admitting women to the medical corps.

The hotel committee of the women's division, war finance committee of Cook county, whose chairman is Mrs. Georgia Hunt, will give a special program at 8 o'clock tonight to celebrate the first anniversary of the war bond booth in the Edgewater Beach hotel. Miss Anna Doetsch and Miss Dorothy Hummel are co-chairmen of the booth, which so far has sold $148,890 in bonds and stamps.

Mrs. Manne Mandelson, chairman of the booth situated in the apartment hotel at 540 Briar place, reports the sale of two $10,000 bonds at the booth, making a total of $70,000 which she and her volunteers have sold in bonds and stamps since her chairmanship began last April. The booth in the Briar place hotel is sponsored by the Lincoln Park chapter of the Women's Defense Corps of America, of which Mrs. Mandelson is honorary chairman.

Members of The Women of Rotary in Chicago are justifiably proud of their most recent project, that of raising a special fund to provide a mobile canteen to be used on the fighting front in Alaska. The unit was presented to the Salvation Army and is now on its way to bring cheer and comforts to soldiers. Mrs. Oscar W. Rosenthal is president of The Women of Rotary, and the committee in charge of raising the fund was headed by Mrs. Sylvester Schiele, with Mrs. Harold B. Harvey as vice chairman. Commissioner John J. Allan of the Salvation Army accepted the gift.

Mrs. Arthur H. Spiegel, chairman of the volunteer nurses' aid corps of the Red Cross, announced yesterday that the office will be closed on Saturdays until Sept. 11. Women interested in volunteering are asked to call at headquarters during the first five days of each week. On Monday and Tuesday, Aug. 2 and 3, the office will be open until 7 p. m.

Three young women of the Chicago area were among recent graduates of WAVES training courses and now are serving with the women's reserve of the navy.

Mary Virginia Penick, seaman 2d class, of Kenilworth entered training at Hunter college, New York City, while still a student at Northwestern university. Upon completion of her indoctrination course, she was assigned to duty in Washington, D. C.

Lt. [j. g.] Mae Bliss, whose home is in Highland Park, has completed her training course at Smith college, Northampton, Mass., and now is working with Lt. [j. g.] Margaret Harding Cecil, senior WAVES recruiting officer, in the Chicago office of WAVES procurement. Before joining the service, Lt. Bliss had a career in training and merchandising at Marshall Field & Co.

Ensign Dorothy Williams of Evanston is still another member of the WAVES who trained at Northampton in a recent class. Before enlisting she worked in a war plant. Ensign Williams now is in St. Louis, Mo., as inspector of naval materials.

Parts for War Turned Out by Girl Reporter

[Miss Geserick is gaining first-hand information of new vocations that women have entered to help win the war. This is the second of her series of articles. Others will follow from time to time.]

BY JUNE GESERICK.

Vast quantities of airplane engine parts are being turned out by Stewart-Warner corporation's corps of women turret lathe operators, the first half dozen of whom were hired about six months ago. Their success at a job long held only by men was praised recently when the corporation announced it would hire additional women for such work.

Lathe operators need keen minds, skilled hands, and good coördination to operate the huge machines which turn out nuts, washers, and other engine parts. Women left farm chores, office jobs, and housekeeping tasks to fill the places at the lathes, vacated when men went to war. Many of them had had no previous experience and sought the job because they wanted to help make parts for the planes to be flown by their husbands or sweethearts. Others took the jobs because the work is pleasant and pays well.

I spent most of one day working at a 5,000 pound lathe in order to learn the job—the thrill of operating the machine as well as its difficulties.

Like getting a job in any other war plant, my application for work at Stewart-Warner's required time and numerous preliminaries. Would-be employes' records are carefully traced. They are finger printed and photographed. The reason for such caution is adequately given on the hundreds of signs that read—WARNING—SABOTAGE.

E. L. Polk, assistant personnel manager, asked my choice of jobs. When I said I wanted to be a lathe operator, he took me to the department and asked, after I had watched scores of other employes working, if I would be happy there.

"Those who work best are those who are happy," he explained. "An employe who is displeased with her work or her surroundings puts out only mediocre work. In war time work must be perfect."

My job paid 58 cents per hour while I learned. As I advanced my earnings would increase, it was explained. After I had donned a jeep suit coverall I was turned over to Henry C. Witt, foreman, and Gustav Wanka, a set-up man who doubles by teaching beginners.

Learning to operate the lathe reminded me of the days when I was a child and my father allowed me to hold my hand on the steering wheel as he drove the family automobile. "Gus" would move a lever, pull it back, and then let me push it back into place. Finally I was permitted to operate the machine with only oral coaching.

I put the stop of the machine to the spout, the place where the lathe keeps feeding fresh metal to the instruments used in forming a machine part. I was making a nut. I butted the metal bar—from which the nut was to be made—against the stop and backed it into position that I might center drill it. The center drill, Gus said, makes a truer center for the drill which puts a hole thru the nut.

After I had made a hole in the center, I shaped the nut with a circular form tool and faced it or smoothed off the top of the nut. After insuring a smooth hole by reaming the nut, I cut it off. The nut, which looked pretty good to me, was finished.

Gus put the completed nut to his micrometer, which proved it to be almost exactly as ordered by the blue prints fhom which lathe operators work—but which I couldn't read. A more rigid test of the nut was made when it was measured on the comparitor, which magnifies the item 50 to 1. The first thing I had made on a turret lathe came within specifications and soon would be used on a plane engine.

At the end of my day's work I was not noticeably fatigued, for the work was interesting. Also it hardly could be considered messy, as only my hands were stained with oil from the machines—and the company provides good soap to remove that. For any one who drives an automobile, for the levers operate much on the same theory as gears of a car, the work is comparatively easy and pleasant. If I were not a reporter I think I should enjoy operating a turret lathe where I could add to the five plane engine nuts I made during the hours I worked.

Club Federation's Gift to Aid Women's New Cancer Control Clinic

A new diagnostic cancer control clinic for women, sponsored by the Women's Field army of the American Society for the Control of Cancer, has been opened at Women and Children's hospital, 1606 Maypole avenue, upon promise of an initial gift of $1,000 from the Illinois Federation of Women's Clubs.

Mrs. Walter M. Rennie, president of the club federation, accompanied by a small party of club women, will make formal presentation of a check for that amount on the next clinic night, at 8:30 o'clock Thursday. Among the club representatives will be Dr. Adelaide Doolittle Hoeffel, department chairman of the public health and child hygiene, who has arranged for the donation.

Dr. Augusta Webster of the hospital staff and president of the American Medical Women's association, has been placed in charge of the clinic, and a special committee appointed by the Chicago Medical society, with Dr. P. J. Simonds at its head, will act in an advisory and supervisory capacity.

Evangelical Home Has Its Homecoming Today

The Evangelical Home for Children and Aged in Bensenville, which in the 48 years of its existence has cared for more than 3,000 boys and girls and hundreds of elderly men and women, will be host again today to its many supporting friends and alumni at the annual benefit festival and homecoming. An outdoor religious service, conducted by the Rev. Paul Buchmueller of Minonk, will open the day's events at 11 a. m. General chairman of the large festival committee is the Rev. Armin H. Bizer of Northbrook, vice president of the home's board of directors.

Urge Mothers in War Jobs to Use Nurseries

More and more mothers are being employed in war industries thruout Chicagoland. Many of the working women, however, are beginning their employment without making adequate provision for the care of their children.

Concern over this problem was expressed yesterday by Dr. Margaret Gerard, psychiatrist, authority on children, and a consultant to the child care committee of the office of civilian defense. Dr. Gerard urged that mothers place their children in the city's 10 operating war nurseries sponsored by the OCD and the board of education, immediately upon entering employment, rather than permitting the children to shift for themselves or receive only haphazard care.

Three hundred and fifty-three children are now being cared for daily in the 10 war nurseries, which could provide for 710 children without enlarging their facilities, Miss Mary Murphy, chairman of the child care committee, explained.

Three of the centers now serve a hearty breakfast of fruit, cereal, toast, and milk to their little charges, and all the centers prepare a balanced noon meal as well as an afternoon snack.

Children from 2 to 6 years old are accepted in the centers and the small sum of 50 cents each a day covers all expenses, as the centers are supported mainly by federal funds provided by the Lanham act. Extensive plans for use of school plants for after-school activities for older children are now being made.

The centers are located in Baptist Missionary school, 2969 South Vernon avenue; Christopher house, 2507 North Greenview avenue; Howell Neighborhood nursery, 1831 South Racine avenue; Hyde Park Neighborhood nursery, 1364 East 56th street; Jewish People's institute, 35 West Douglas boulevard; Lincoln center, 700 East Oakwood boulevard; Newberry Avenue nursery, 1335 South Newberry avenue; Parkway Community house, 5120 South Parkway; South Chicago Community center, 9135 South Brandon avenue, and Sullivan Nursery school, 8255 South Houston avenue.

Mothers who are employed or who are contemplating war work should communicate with the office of the child care committee of the OCD at Superior 9430.

White Collar GIRL

BY RUTH MACKAY

You Need a Vacation.

You've been taking the same bus every morning for a year and now, lately, you've missed it on an average of twice a week. And, when another does come along, if you scramble into a back seat, it is invariably beside a gum-snapper or a spread-eagle reader who scans his paper with his elbow in your ribs. You find yourself plotting murderous things and wonder whether you are growing violent.

You say "good morning" to the elevator starter and wish pensively that he'd change his tone just for luck. Or change the accent—"GOOD morning," instead of "good MORNing." And then you worry like everything for fear you are growing testy.

You creep into the office and there is the boss with the same secretive smile he always wears when you are two minutes late. You do wish he'd say something . . . say anything . . . even bellow . . . rather than stare at you and smile in that irritating, forbearing way that asks, plainer than words, "Late again, eh?"

One More Irritation.

You're at your desk. And what's this? An ash tray filled with stale cigaret stubs—and you make a point of never smoking in the office. Last week there were two ash trays on your desk one morning. You debate idly whether it is significant enough to write to the vice president of the company: "In re: Unemptied ash trays."

You look in the bowl where you keep paper clips and there isn't a one. You snap at the office girl—tho it isn't her fault—and then remember guiltily that she has five little brothers to support . . . or is it five little sisters?

You fumble thru the morning and go to lunch. There's not a thing you like on the menu—a fact which consoles you not at all even tho you are reducing. You quibble with the waitress over your iced tea—she brings it hot—then notice how flustered and tired she looks and you worry about that.

You Fumble Again.

Back at your desk you fidget till 3 o'clock, when you get off to go to the doctor's. His reception room is jammed. You twist your neck and weary your brain trying to decipher the names on the waiting room door—[they read backward from where you sit]. You are so intent on it you don't hear the attendant call your own name. You have to wait just that much longer.

You rush back to the office before closing time—there is, of course, 5 o'clock dictation. You miss the bus going home, hop on another, and walk six blocks. You limp thru your doorway to discover that no one got home early enough to buy meat at the butcher's and it's eggs again—wouldn't you know? You look for the mail. There isn't any. You decide to press a dress you washed out that morning. The cord of the iron has burned out.

The Moon Does It.

You retire to your room to write a letter. Thru your mind flits a picture of the boys from the office in Africa or the South seas who are homesick for all the humdrum everyday routine that now irks you. Chastened, you take your letter out to mail and there is the moon, cool, aloof, undisturbed, and quiet. All in a second you know what's the matter with you—*you need a vacation.*

Young Methodists to Hold Rally at Park Tomorrow

Several hundred young Methodists from the Epworth and High leagues, Wesleyan groups, and Oxford clubs will gather at noon tomorrow on the Jackson park lake promontory for a rally which will continue into the evening. There will be a supper, followed by a community sing.

Record Crowd Is Expected at Negro Festival

Sponsors predict a record crowd for the fourth annual Negro music festival, beginning at 8 o'clock tonight at Comiskey park. All proceeds from the show, which will feature a chorus of 1,000 voices and appearances of headline Negro entertainers, will go to the army-navy relief fund.

J. Wesley Jones.

Individual stars will include Paul Robeson, noted baritone; Dorothy Donegan, pianist; Geraldine Overstreet, lyric soprano, and the Southernaires, Negro spiritual singers. Sgt. Joe Louis will speak in the interest of war bonds. His wife, Marva Trotter Louis, heads the program committee.

Prof. J. Wesley Jones, director each summer of the big Negro chorus which appears at THE CHICAGO TRIBUNE's music festival in Soldiers' field, will conduct the 1,000 voice chorus, assisted by Thomas Dorsey. The chorus will sing "Swing Low Sweet Chariot," "The Old Flag Never Touched the Ground," and a song written by Mr. Dorsey, "If You Never Needed the Lord Before, You Sure Need Him Now."

General admission is 55 cents, grandstand seats $1.10, and boxes $1.65. Tickets are available in THE TRIBUNE public service office at 1 South Dearborn street.

Daringly Chic Designs Make a Fashion Hit

BY REA SEEGER.

[Chicago Tribune Press Service.]

New York, July 23.—Nettie Rosenstein staged her usual dramatic fashion show, making the hit of the week with the press because she had a professional commentator ad libbing from a script filled with terse information about new fall and winter fashions.

The entire show was an unusual combination of chic and shock. Rosenstein's deadly "little black dresses" acquired even new qualities of devastation. They are designed as a background for costly or exciting costume jewelry, but are equally effective without it.

Some of these so-called simple day time and street dresses are shamelessly revealing. Mannequins as thin as the filament in a light bulb and with some of the same curves model them to perfection. The necessary physical requirements to wear these super-siren creations consist of a concave diaphragm, wide shoulders, and the snakiest of swivel hips.

The materials of course are the most adhesive crepes and jerseys that can be woven. But only a genius like Nettie Rosenstein knows how to dart, tuck, or shirr to outline the body lines so suavely.

Less breath taking to see are the famous Rosenstein suits and street costumes, yet these are extraordinarily beautiful both in seam work and elegance of fabric. These are the originals that so brilliantly reflect designing genius—achieving the greatest chic with the least fabric and trimming.

Two exciting suits were starred, one a toreador bolero complete to hat, with braid trim in black down the bolero jacket, the other a stunning cool gray suit of a shade called marquisite, with matching gray plush ascot and short gloves.

Stunning winter coats, both in super-slenderizing black and vivid color, accentuate body line. Black short dinner dresses are excitingly svelte, with a record breaking low in decollatage and with the celebrated Rosenstein's silhouette achieved in form revealing snugness. The few long dinner gowns are just as shockingly beautiful.

More Gifts Increase Funds for Free Ice and Camp Algonquin

Seven contributions added $26 to the free ice fund yesterday, while the Camp Algonquin fund was increased by four gifts totaling $44. Money is collected by THE CHICAGO TRIBUNE for these projects, which are administered by the United Charities.

Donors of $5 each to the ice fund were H. B. Vested, Florence A. Cohn, Fred Ascher, and Ida Klein. "J. & M." gave $3, and two anonymous gifts were for $2 and $1. Adding yesterday's gifts brought the ice fund total to $691.50.

Four donations to the Algonquin fund were topped by $25 from Helen Huckalig. The other gifts were $10 from Theta Gamma Delta sorority, $5 from Fred Ascher, and $4 from Kenneth, Dorothy Adelaide, Douglas, and Graham Duffield. The camp fund now totals $681.84.

INSTALMENT XXX.

DELIVERED.

They were old fashioned foils, some 30 inches in length, with rubber buttons guarding the points. A smart sliding snick with each blade in turn and the buttons went rolling. The foils were killing weapons now.

A hilt in right and apoint in left, Diego came round to face Young Affran, who was on his feet after furiously kicking the chair into a corner. He looked at Diego. He was astonished at the explosive force that had hurled him over that chair. He had known Diego only as a sick man moving leisurely in Big Ellen's garden; and, no doubt, he had been certain that as a Briton he could have trundled this lean foreigner thru the door. They had never tried each other out at fencing, and for all the rumors of the rapier-killer on Commando, he was not even sure that Diego could fence—and himself could.

Diego thrust the hilt into his hand, but the young man's fingers hesitated to close on it, and Diego had to word-sting him.

"Take it! Or are you a coward?"

Young Affran snatched at the hilt then.

"Usted! I'll spit you for that."

Diego had his temper in perfect control, but if any one interfered between them now, he would have to draw blood to show that he meant business. No one did. Henrietta behind a chair in a corner, did not want to; Ewan McInnes was minding his own business; and the father —. Well! the father knew his son for a fine fencer.

"Remember the buttons are off," warned Diego. He brought his point up. "En Garde! Engagé!"

Diego kept the blades engaged and felt the other's wrist. It was strong, but not supple, and that was a fatal lack. Charles was only an amateur, and, with the buttons off for the first time, he remained cautiously on the defensive. Diego would have been happy to give that young man a lesson there and then, but he was afraid to show his skill lest any one interfere too soon.

He merely tried him two or three lunges, inside and outside, easily parried and riposted. And, then, being in a hurry, he lashed at him the one straight out at the head that is permissible in Spanish fencing. It so surprised Young Affran and Diego had the opposing blade where he wanted it. Again, as three months ago with Henrietta's stick, he bound the blade in flançonade, whipped it out of Young Affran's hand and at his feet, stepped forward, set his heel close to the hilt, and snapped the blade off.

He was so near that he could have run his defenseless opponent thru by shortening his grip. Instead he put the weighted pommel against his breastbone, lifted him backwards as if he did not weigh a stone, and thrust the hilt into his hand.

"There! now you are read, but your jaw has not fallen."

Henrietta came out from behind her chair. She laughed high and shrill, with a trace of hysteria.

"There's a Spanish hidalgo for you, brother. Have you no sense? Keep out of it, you fool!"

Diego turned his back on them. Maj. Harper had his back to the inner door, his hand on the knob at his side. He took one slow stride forward to give him time. And there Ewan McInnes found the opportunity that he had been patiently waiting for. He got to his feet and spoke with legal deliberation.

"Let us consider. You know, major, you are the laird of Glen Affran, and I'm thinking it would be the proper thing to investigate this—this insubordination—at its source—without hesitation of troubling about this man's overbearing methods."

"You think so, McInnes?"

"I do. I would take prompt and drastic action and show the auld fools who is laird. As your factor, I will go with you."

"Very good, McInnes. We'll make someone suffer for this."

The old lawyer turned to Diego. "Young man, as the laird's legal adviser, it is my right to accompany him, and I need not remind you that I am a man of the Glen myself."

Diego did not hesitate. "Certainly, sir. I shall be glad if you come to Loch Beg with your client." He knew that once there, Aunt Ellen would not hesitate to send him about his business if she did not want him.

"Let us not waste time then," urged the old man. "We'll take the cobble, and by my certies! the major and I will put a flea in a lug or two or the night is done."

Maj. Harper, hatless went out the side door. Ewan McInnes followed him, and he did not look at them either. Neither did Diego, for he did not want to see if there was humiliation in their eyes. He just lifted a hand and went out.

Diego, crossing the lawn behind the other two, heard quick light footsteps behind him, turned head, and waited for Henrietta. She caught his arm and held him.

"You are hard on us Harpers, Don?" she whispered.

He had no answer to that, but he only said:

"For you I am grieved—"

"Never mind me. Something is happening tonight, and Big Ellen wants to keep me and Charlie out of it."

"I know nothing."

"You would not tell me if you did. But that is not what I am here for." She squeezed his arm, "Don, please. How is Ann?"

"She is well. She is at Donald Gunn's bothy."

"But why did she run away? She never—she could not——"

"No. The man died by accident." He paused and went on. "She was there at the time, and your father found her, and something was said—something that brought here evil days about her. She broke down, and I took her across to Donald's to give her time to recover herself. She has done that." He put his hand on her holding fingers. "She will face the world again if she has good friends like you."

"Leave me out of it. She can look after herself, and so can I as she taught me." She shook his arm. "Listen, Don! When this mess is cleared up, you'll take her right away from here? Do you hear me? Don't lose her. Whip her up in your arms and away." She lightened her tone. "I'll forego my claim on you, Diego."

"She will not let me take her," Diego said.

"Let you! Let you!" She threw away his arm "O, you! forget to be a hidalgo once in a while. Good-night and good luck!"

She turned quickly, and was running across the grass. Her brother was waiting outside the door for her. Diego lifted hand to him, and his hand went up to his brow in salute.

They went down the loch in the outboard cobble, the laird at the tiller, his factor facing him, and Diego at the bow. Not a word passed amongst them all the way down.

Uncle Hamish had heard the engine, and was on the pier waiting for them. He was in his dark Sunday clothes, his massive neck in a white collar and black cravat. Was this Sunday, then, Diego wondered? No, but it soon would be, for it was now late on Saturday evening. And Diego should have been in Edinburgh on his way to London. London—and even the war—could wait. He might not see either if things went wrong tonight.

Hamish caught the painter and whipped it around the mooring post. Diego was at his side when he straightened up.

"Ay, Jamie lad! Glad I am you're back, and sorry for what happened."

"I was sorry, uncle," Diego said.

"Not you need be sorry. Your aunt and myself knew you would not fail us. You had no trouble?"

"My hands had not to touch anyone," said Diego, and wondered how the bare truth could lie.

Maj. Harper was on the pier now. His strong voice came sternly.

"What is the meaning of this, McLeod?"

"Life or death, Maj. Harper. You will find out."

Thirty-two red points a week and about 24 blue points won't go far unless there's a well outlined plan for spending them. Here's a week's plan for two working persons, well within ration book bounds.

SUNDAY.

BREAKFAST

Grape Juice Cornflakes
Fluffy Omelet Toast
Coffee or Milk

DINNER

Barbecued Spareribs [1]
Baked Potatoes Green Beans
Coleslaw
Deep Dish Apple Pie with Cheese [2]
Tea or Milk

1. Barbecued Spareribs: Choose meaty spareribs [1½ lbs.]. Cut into pieces convenient for serving, lay in baking pan, sprinkle with salt and pepper, bake in 375 degree oven 45 minutes to an hour. Baste 3 or 4 times while cooking with barbecue sauce. Sauce: ¼ cup shortening, 2 tablespoons minced onion, 2 slices lemon, 1 green pepper, finely chopped, 2 tablespoons chili sauce, 1 tablespoon Worcestershire sauce, ¼ cup brown sugar, ⅛ teaspoon dry mustard, ½ teaspoon chili powder, ⅛ cup vinegar. Combine all ingredients in saucepan and cook over gentle heat until shortening is melted and ingredients are thoroly blended.

2. Save half of pie for dinner tomorrow night.

MONDAY.

DINNER

Spanish Rice with Bacon [1]
Frenched Green Beans
Tossed Green Salad with
Thin Cheese Strips
Bakery Rolls
Fresh Peach Shortcake [2]

1. Spanish Rice: 1 small onion, minced, 5 strips bacon, diced, 1½ cups cooked rice, 1 cup stewed fresh tomatoes, salt and pepper, 1 tablespoon chopped green pepper. Cook onion and bacon together until onion begins to color. Add all remaining ingredients, blend thoroly, and continue cooking over gentle heat, 20 minutes or longer.

2. Biscuit Shortcake: 1 cup sifted flour, 1 teaspoon baking powder, ¼ teaspoon salt, 2 tablespoons sugar, 4 tablespoons shortening, ½ cup milk. Sift together all dry ingredients, work in shortening, and mix to smooth dough with milk. Divide into two portions. Turn one onto slightly floured board and roll out, brush top surface also with softened butter and bake in hot oven [450 degrees] about 20 minutes. Separate the layers, fill with sweetened fruit, putting more fruit over the top. Serve with plain cream.

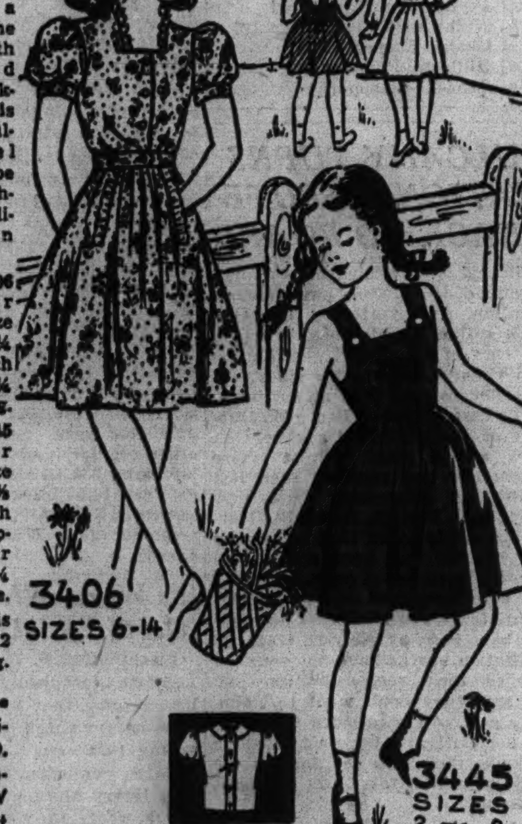
Patterns for Juveniles



The younger set comes in for a share of fashion interest today in these two patterns. One is a terns. One is a one piece model with ruffling around pockets and neckline. The other is a buttoned-shoulder-strap model which may be worn with or without blouse. Applique included in pattern.

Style No. 3406 is designed for sizes 6 to 14. Size 8 requires 2¼ yards of 35 inch fabric with 1¾ yards of ruffling.

Style No. 3445 is designed for sizes 2 to 8. Size 4 requires 1⅝ yards of 35 inch material for jumper; 1 yard for blouse, with ¼ yard for applique.

Each pattern is 10 cents, plus 2 cents for mailing.

Order Clotilde patterns from Chicago Tribune, P. O. Box 537, Grand Central Annex, NEW YORK CITY. Print name and address; state size. Each pattern is 10 cents, plus 2 cents for mailing. The pattern book is 15 cents, 10 cents if ordered with pattern.

Looking at Hollywood

By Hedda Hopper

Hollywood, Cal., July 23.—Ever since Walter Brennan saw the late Will Rogers in "State Fair," he made up his mind that if the picture ever were done again, he wanted to play Will's part. Now plans are well under way for him to do it. Remember in "State Fair" there was a prize porker named Blue Boy? They're searching for another Blue Boy, but this is the payoff: He'll have to sing, 'cause the famous Dick Rogers is writing a song which goes from one grunt to another. . . Doris Duke Cromwell is backing Vincent Youmans' first picture, "The Life of Tschaikowsky." . . . Zorina is testing to play opposite Ronald Colman in "Kismet." . . . Billy Gaxton and Victor Moore have turned down Michael Todd's musical, "Mexican Hayride." You can look for the two to be teamed on a big radio show which will emanate from Hollywood. Don't be surprised if you find the comedy team in Metro's "Ziegfeld Follies."

Good Luck.

Diana Bourbon, one of our biggest radio producers, has been chosen by the OWI to head its radio division from London. She leaves here Aug. 4. Diana knows Elmer Davis very well. Did his last commercial radio show, also one for Orson Welles. Came here three weeks ago to produce Judy Canova's radio show, which has caught on in a big way. ...It's a silly idea of Warners' that Paul Henreid should keep his baby a secret for fear news that he's a fond papa will destroy his romantic appeal. Thought that idea went out with the horse and buggy. . . . When Constance Dowling finishes "Up in Arms," she'll be able to recruit for army nurses, 'cause her uniforms are really something. Not regulation, but whipped up by our own Eddie Schmidt. . . . Lucille Ball, to dazzle Desi Arnaz, who arrives on leave tomorrow, is now talking Spanish. Both will be at the Hollywood Canteen tomorrow night. So will Hedy Lamarr and John Loder.

No Exchange.

Jimmy Gleason, in a generous moment, offered Spencer Tracy his polo pony, whereupon Spencer came back with, "Listen, I've got seven I'll give you. They're eating their heads off. Nobody will take 'em off my hands." . . . For years Kay Kyser's threatened to sing. His band members said they'd put his head in a bucket if he did. Maybe they will when he attempts "Seasick Sailor" in "Around the World." . . . Columbia executives are arguing as to why the studio was going to do "The Life of Chopin." "This guy Chopin is okay," said one, "but his music ain't modern!"

Ho Hum!

George Jessel and Lois Andrews shopping for their 2 year old. . . . Alan Baxter goes into the army after he finishes work in "Hitler's Women" at Monogram. . . . George Cukor is trying to locate a replica of the British crown jewels, which were on display at the world's fair, for "Gaslight." Doesn't he know they went right back to Britain? . . . If "Man in the Family" turns out well, Universal will make a series with same cast—Donald O'Connor, Susanna Foster, Lillian Gish, and Richard Dix. . . . Gregory Ratoff was interviewing Alan Dinehart for the part of an agent in "Tropicana" and said, "Have you a dress suit?" Alan replied, "Sure." "Is it good?" "Well," said Alan, "it's an Earl Benham." "Okay," said Gregory, "you've got the part." . . . Sgt. Louis Bush knows what it means to be married to a celebrity. When he got back to camp after the honeymoon, he picked up a paper and read that Sgt. Louis Blair, husband of Janet, was returning to camp!

Topped Himself.

Mitchell Leisen's stage office is a plush dressing room twice the size of any star's. He and Joan Fontaine are practically having a "love feast." He keeps saying, "Doesn't she look wonderful?" She did, done up in a red wig and a kelly green velvet dress weighing 50 pounds. While I was on the set, they were testing a drop of blood on one of Joan's costumes. Mitch said, "Don't you think that's a little pale?" At which Joan quipped, "Shouldn't it be bluer? After all, it comes from Basil Rathbone." . . . Judy Garland was relaxing on the beach at New Rochelle when men who were out on the PT boats heard about it, put in, and asked her whether she wouldn't come aboard and say hello to them. She did, but swears they'll never recognize her on the screen. There she was in pigtails and bare feet. . . . Because New York stage stars were photographed badly in "Stage Door Canteen," they're calling it "Stage Door Cartoon."

According to Culbertson

[Copyright: 1943: By Ely Culbertson.]

As long as players shy away from leading a suit headed by ace-queen or king-jack, just so long will expert defense remain a mystery to them. I grant that such leads should not be made blindly, nor as a matter of preference, but it is absurd for inhibitions of this sort to ruin a marked defense. Consider this shamefully typical case:

South, dealer.
Both sides vulnerable.

NORTH
♠ 6 3 2
♥ J 8 3 2
♦ 10 3
♣ K 8 7 5

WEST
♠ 10 9
♥ Q 10 7
♦ K J 9 7 4
♣ A J 6

EAST
♠ 8

♣ Q 10 9 4 2

SOUTH
♠ A K Q J 7 5 4
♥ K 9 6
♦ 6 5
♣ 3

The bidding:

South	West	North	East
4 spades	Pass	Pass	Pass

South overdid things a bit in opening with four spades. A three spade bid would have carried sufficient preëmptive value and, at the same time, would have been more in consonance with South's trick expectancy. But if the value of a bid can be judged by its result, South's choice was beyond criticism. It is worth observing that if the opening bid had only one spade, West might have dared a two diamond overcall, and East-West then might have reached a game contract in diamonds which would have been cold on the normal spade lead from North. Thus, the superficially conservative bid of one spade might have resulted in South's having to go to the five level in order to save a game.

Against the actual four spade contract, West opened the ten of trumps. This was a highly logical selection in view of the fact that an opening from the honors in the other suits would have been just a shot in the dark. It was, however, almost the last logical move made by the defenders.

Declarer won the first trick with the spade ace and led his singleton club toward dummy. West was naturally reluctant to give up his semi-tenace position in clubs, and his play of the six-spot instead of the ace was not unreasonable. Dummy's club king won and on the low heart return, with East ducking, declarer cashed the heart king. Now the heart six was returned and when West played the ten, he was allowed to hold the trick. Again he made the safe exit of a trump. Declarer won and led the nine of hearts. This, of course, put East in with the ace and the crucial point had arrived. None of the previous defensive plays had been fatal, but East now proceeded to cut his own throat, not to mention his partner's. Avoiding a diamond lead as tho it were the plague, East returned a club. Declarer let out a suppressed whoop as he ruffed with a high trump, led the trump four to dummy's six, and discarded a diamond on the 13th heart. After that, he did not mind giving the defenders one diamond trick.

East and West spent about 10 minutes in shouting about the diamond situation, West maintaining that he could not have led at any time from the king-jack, and East scoffing at the very notion that he could have led from the ace-queen.

Methodist Plan for Missionary Work Is Told

The Methodist church is preparing to send missionaries back to Japanese occupied territory and to Japan itself when the war is over, Dr. Ralph Diffendorfer, executive secretary of the foreign division of the Methodist board of missions said yesterday. He was addressing the closing session of the four day annual meeting of the Methodist general board of lay activities and the national council of conference lay leaders at the La Salle hotel.

Dr. Diffendorfer also said that missionaries who had been able to remain at their posts but who have been cut off from home support by the war would be reimbursed at the close of hostilities.

Among the resolutions and programs of action approved at the final session were:

Lay support for the council of bishops' "crusade for a new world order," which will work for full participation by the United States in some kind of world organization designed to insure a just and lasting peace.

Service by Methodist laymen to uprooted families in war industry communities.

A nation-wide evangelistic campaign by laymen to win new members to the church during the present period of growing interest in religion.

A program to increase the number of lay preachers to offset partially the decrease in the number of Methodist ministers resulting from demands of the uniformed services for chaplains.

A program for church aid in preventing juvenile delinquency and for coöperation with other agencies in studying the problem of parental responsibility for juvenile delinquency.

In a special resolution presented by the Rev. James L. Lyons of Santa Ana, Cal., Generalissimo and Mme. Chiang Kai-shek were named as outstanding Christian laymen.

The session was presided over by Edgar T. Welch of Westfield, N. J., president of the board of lay activities.

Orchestra's Brasses Fail to Measure Up; Concert Disappoints

Of the free attractions on the lake front last night, the foaming spray of Buckingham fountain was more rewarding to the eye than the Grant park concert to the ear. Appearing in the band shell was the augmented Chicago Opera orchestra, handicapped by what sounded like frogs in the throat of the brass, and more than a little bewildered by the conducting of Dino Bigalli, who combines the best intentions in the world with a lunging technique and a tendency to handle a musical phrase as if it were taffy improved by stretching. The good string section with Herman Felber as concertmaster did some competent work in Wagner's Overture to "The Flying Dutchman" and in the polka from Weinberger's "Schwanda," but the bagpiper's fugue was a dismal mire punctuated by hoarse barks from the brass. The evening's soloist was Ada Belle Files, who sang music of Tschaikowsky, Moussorgsky, and Rachmaninoff in a big and wobbly contralto. C. C.

"Would it be kinder *not* to tell the folks at the Ambassador East that the single row of corn planted behind their hedge will never yield an ear of corn? Too bad they didn't consult a common dirt farmer who knows that corn must be planted in multiple rows in order to bear."

"One of our Sigma Chi boys at Tower hall tells me of a sign in the midshipmen's mess hall which reads: 'Food Will Win the War.' Some wag has written below: 'Yeah, but how are we going to get the enemy over here to eat it!'" —Chester W. Cleveland.

"I did not know until I read it in your department that the granite for the Mormon temple was hauled to the site by locomotive, but perhaps this was during the latter part of the building's construction. For many years, before becoming bent over, rheumy-eyed, and wheezy from bronchitis, I was an itinerant granite cutter and during my travels drifted into Salt Lake City, where I worked on the present state capitol. An old Mormon granite cutter who had worked on the temple told me the rough blocks were hauled to the grounds by ox team, the round trip taking several days. He told me, too, that the jambs around the windows, specified to be of granite, are of sandstone, the change being made by a brother of Amelia Folsom, Brigham Young's favorite wife, who displaced the original architect. He also told me it was on the temple that Brigham Young introduced the eight hour day, the first appearance of that institution west of the Mississippi."

"Hanging to a strap does have its moments of interest. This morning, on an early Lake street L, my attention was caught briefly by two very small gray kittens engaged in a furious boxing match on the sill of a second story open window in a business building. I only hope the mother was close enough to administer a stinging rebuke to her foolhardy babies." —Violet Sumner.

"Jenny's life is a series of small anti-climaxes, as many [1] terrible and [2] delightful things happen to her. Recently she bought a bathing suit and arrived home with it only to find it was too large.

"The next day she went downtown to exchange it. The bus was late, so she sat on a neighbor's steps to wait. As she later passed the Drake, she missed it, got off the bus, and called the neighbor, who retrieved it. She went back, picked it up, and started to town again, there to be met by her sister. In the course of shopping from counter to counter the suit was lost at [1] the hosiery counter, [2] the lingerie counter, and [3] the waiting room, but rescued each time.

"The fourth time it was missed Jenny rushed to the floorwalker of the [4] sweaters and cried: 'O, did you find a bathing suit? I have lost it three times.' And the floorwalker answered: 'Lady, I have your suit, but I would advise you to put it on and wear it.'"

BY CECIL SMITH.

"Salute for Three" evidently aims to be the poor man's "Stage Door Canteen." You may remember that "Stage Door Canteen," in the opinion of this column, was no great shakes in the matter of ideas, taste, or imagination. Well, it was "Hamlet" compared to "Salute for Three."

Completely violating the spirit of the canteen, this crude little bit of nonsense makes it out to be something of a matrimonial bureau. The principal people involved are Macdonald Carey and Betty Rhodes, who get along perfectly well until one of those hopelessly artificial misunderstandings, so common in cheap movies and so impossible in life, rends them apart—until just time for the final reunion.

Betty Rhodes sings and sings, squeezing out all the juice she can find in songs about gray skies, rainbows beyond the horizon, and the like. Mr. Carey has an uncomfortable role, and I don't care to say anything about his performance—likewise Marty May, who is a good trouper from vaudeville and musical comedy.

One of the few acceptable moments in the film comes when an amusing comic adagio dance is set forth by Lorraine and Rognan, the duo whose career was tragically brought to an end when Roy Rognan was killed in the Clipper crash which also took the life of Tamara and injured both Lorraine and another excellent performer, Jane Froman.

It looks as tho the Apollo is trying to strike some kind of balance this week, for the theater also has "Assignment in Brittany," which is not to be missed.

Persuade Your Child to Think Independently

BY GLADYS HUNTINGTON BEVANS.

[Copyright: 1943: By News Syndicate Co., Inc.]

Recently I indulged in a bit of autobiography and told you about my Uncle Thomas and my Uncle Bill, and how Uncle Thomas wanted us [when we were from 15 to 20] to be audience for the grownups' conversation, and Uncle Bill always let us enter into it. And that naturally made Uncle Bill our favorite. It was good for us, too, to feel free to exchange ideas with others, and agree, or disagree, quite vociferously at times.

Today I want to go on with that idea. In fact, I want to emphasize a piece of advice about you and your adolescents, particularly, altho it holds all along the line: Simply encourage your children to think for themselves.

Often we may feel that our children's reasoning or their conclusions are wrong, and perhaps they are, but we can at least treat them with understanding and accord them dignity. A casual and habitual flouting of a boy's or girl's opinion by his parents is not going to encourage that most necessary feeling of confidence in themselves. Yet many parents are affronted by their children differing with them.

Do you try to make your children think as you do? Do you feel that "mother knows best" or "father knows best," and thereby rob a child of his freedom of thought? The ability to think clearly, untrammeled by other conceptions of right or wrong, is not something that one achieves miraculously at the somewhat arbitrary age of 18 or 21. It is something that can best be achieved by practice, by a trial and error method, that can best be done by doing.

Our power to influence or sway the opinion of our little children is almost unlimited, and therefore we should use this power with wisdom. The power wanes as children grow older, and are acted upon more by outside influences and contacts. There are, then, other influences at work besides ours, modern novels, movies, newspapers, radio, and social contact with their contemporaries.

As children reach the adolescent age we are all due for shocks when we discuss things with them, just as our fathers and mothers were shocked by a viewpoint which was modern when we were in our teens. What was radical then is conventional now, and what we may consider radical now may be conventional in the next generation. In any case, we'd do well to listen and consider what they have to say.

Thru the Looking Glass

From the notebook:

Add flivver fashions: Those towering, lacquered pompadours, suddenly adopted by the tall, the short, the slim, the stout, for wear with shorts as well as dinner gowns. This is a distinctly formal hair arrangement, utterly incongruous with slacks or play clothes and not becoming to ALL women. Many women who are really smart, and who realize that an ounce of distinction is worth a pound of pompadour when the pompadour reaches the epidemic stage as it has now, are running, not walking, to their beauty shops and begging for short cuts! They're not wearing flowers in their hair either. . . . Fashion is a funny business, indeed.

A dermatologist at one of the finest hospitals in the country is working out a WHITE leg make-up for the nurses and the student nurses in that institution and its school of nursing! They were the forgotten women in the whole cosmetic-stocking picture, and heaven knows they don't deserve to be. Good white stockings are among the hardest of all to buy and, since they are on their feet all day, they find the heavy, coarse hose almost unbearably uncomfortable.

A recent survey of several thousand men in camps in this country revealed that their first preference in the way of gift toiletries was soap, since that is not G. I. and they have to spend their own money for it. Next, shaving preparations, with hair lotions a close third. A little private survey on our part reveals that the men like those shower soaps, on cords, because they are so handy and can be slung around the neck on the treks to and from the showers. ELEANOR NANGLE.

BYRD DEMANDS NELSON EXPLAIN WPB NEWSPAPER

Cites Paper Shortage in Protesting.

[Chicago Tribune Press Service.]

Washington, D. C., July 23.—A full explanation of the war production board's reason for venturing into the publishing field with a weekly newspaper for distribution to industrial plant committees was asked today by Sen. Harry F. Byrd [D., Va.], chairman of the joint congressional committee on nonessential expenditures.

The new WPB publication, called the "Labor-Management News," is being put out by the agency's production drive division, it was disclosed yesterday. It has a weekly printing of 30,000 copies and is being sent to labor-management committees in plants thruout the country in an effort to help boost war output, officials said. Production boosting ideas and statements from government officials are contained in the paper, which is a 12 page tabloid weekly.

Byrd Writes Nelson.

Sen. Byrd in a letter to WPB Chairman Donald M. Nelson today asked the WPB chief for a complete report on the purpose of the publication and its contents.

"This venture calls for a full explanation," Byrd said, "particularly in view of the paper shortage and WPB's curtailment of paper that may be used by private publishers."

Byrd recalled that WPB has ordered publishers of newspapers, books, and magazines to reduce their use of paper by 10 per cent because of reduced supplies.

Calls Plan Fantastic.

Another senator, who is a member of the Truman committee and comes from a paper producing state, said he was "much surprised and distressed" by the WPB newspaper project. He asked that his name not be mentioned until he has a chance to confer with WPB officials on the project, but added:

"The whole thing sounds fantastic. Congress has just prohibited the office of war information from issuing any kind of pamphlets and leaflets. If WPB and every other agency that can is going to turn around and do the same thing we have forbidden OWI to do, the whole purpose of the restriction is being circumvented."

5,133 MURDERED IN 18 YRS.; ONLY 1,575 CONVICTED

Crime Commission Lays 609 Killings to Gangs.

Figures compiled by the Chicago Crime commission showed yesterday that "getting away with murder" is more than a figure of speech in Cook county. During the last 18 years [1925 thru 1942], 5,133 murders have been committed in the county. For these crimes, only 1,575 persons have been convicted.

During the period studied, 2,474 murder indictments naming 3,026 defendants were returned. Defendants disposed of by the courts totaled 3,142, including carry-overs from previous years.

Of the 3,142 defendants, only 1,575, or about 50 per cent, were convicted; 970, or 30 per cent, were not convicted, and 597, or 19 per cent, were not prosecuted.

Only 50 Per Cent Indicted.

"In other words," said the crime commission, "less than 50 per cent of the murders were sufficiently solved to justify the return of indictments by the grand jury and, of those defendants indicted, less than 50 per cent were convicted."

The commission's survey showed that 609 murders, almost one out of every eight, resulted from gangster activities. These included killings ascribed to warfare among hoodlums engaged in gambling, bootlegging, labor racketeering, black hand, mafia, and Chinese tongs.

"The number of gang murders solved is negligible," said the commission's report.

856 Holdup Murders.

Murders committed during robberies totaled 856, almost one out of every six; 190 were the result of abortions, 175 victims were infants, 117 were caused by reckless driving, 47 resulted from arson, 41 from poison or gas, and 33 were the result of rape attacks. Quarrels caused 2,940 murders, or more than half of the total.

The commission noted in connection with the 190 abortion deaths, coroners' juries ordered 140 doctors and midwives held to the grand jury. Only 66 of the 140 defendants were indicted. Of the 66 indicted, only 15 were convicted and sent to prison.

Fifteen midwives and doctors were charged with 45 murders by abortion. Of these, only six were punished.

REPORT SLIGHT DROP IN LIVING COSTS FOR JUNE

[Chicago Tribune Press Service.]

Washington, D. C., July 23.—The cost of living for the nation's households showed a decline of a fraction of 1 per cent for the month ended June 15, but was still 5.9 per cent above the level of Sept. 15, 1942, at which congress has ordered prices stabilized, Secretary of Labor Frances Perkins reported today.

The labor department's monthly summary showed that living costs from May 15 to June 15 fell one-fifth of 1 per cent, the first decline since a year before Pearl Harbor. The decline was accounted for by reduced food prices, which dropped four-fifths of 1 per cent for the month.

The living cost reduction fell short of last week's estimate by Price Administrator Prentiss M. Brown, who predicted the June report would show a 1 per cent drop in the price level.

Living costs on June 15, today's report showed, were 23.8 per cent higher than on Jan. 1, 1941. They were 26.6 per cent higher than at the outbreak of the war in September, 1939, and 9 per cent above the Pearl Harbor level.

Truck Driver Is Accused of Stealing $1,400 Cargo

Capt. John T. O'Malley of the Hudson avenue police last night said Victor Besser, 21 years old, an ex-convict, had confessed he stole his truck load of electrical supplies valued at $1,400 while he was a driver for the Frank Bartuch Cartage company. Besser, Capt. O'Malley said, contended he had sold the merchandise for $20 but Detectives Bert Richter and Ben Hrusicki recovered all of the equipment in Besser's flat at 1968 Lincoln avenue. Police said Besser would be charged with larceny.

MULCAHY TURNS RATION DISPUTE BACK TO BOARD

Micheal F. Mulcahy, area administrator of the office of price administration, said yesterday the Oak Park ration board which referred the case of an alleged gasoline ration violator back to his office will be asked to take final action itself.

The case is that of Bruce W. Hubbard of 133 South East avenue, Oak Park, a war plant chemist whose automobile was reported seen last month at Fairmount Park race track, near East St. Louis, Ill. Hubbard told his board that neither he nor his car had been out of the Chicago area for a year, and that his employers had offered to substantiate his assertion that he could not have been at the race track.

"Ration boards have not yet sidestepped their responsibilities, and I'm sure they don't want to," Mulcahy said. "I'm satisfied that they all act fairly. I have urged them to make their own decisions in the knowledge that this office will back them up."

STEAL GASOLINE COUPONS.

Burglars took batteries valued at $100 and 350 gallons worth of gasoline ration coupons from the Ray & Gus service station, 2956 North Narragansett avenue, yesterday, the owner, Ray Heltzel, told police.

STATE REPORTS YEAR'S BALANCE OF 66 MILLIONS

Springfield, Ill., July 23 (AP).—The fiscal year ended June 30 found Illinois with a balance of $66,052,470 in the state treasury's general revenue fund, an increase of more than 26 million dollars during the year and by far the highest balance in the state's history.

State Treasurer William G. Stratton's report showed the record high reserve even after payment of $18,570,780 of bonded indebtedness.

Most of the general fund balance has been invested in government securities. A recent treasurer's office statement said that such investments totaled 78 million dollars including balances available in some funds other than the general revenue fund.

The general fund, covering most operations of the state government, increased from $39,533,133 on June 30, 1942, to $66,052,470 on the same date this year. Stratton reported other regular funds of the treasury increased $30,332,811 during the fiscal year, to $115,278,680. Trust funds increased $76,930,791, and they had a combined June 30 balance of $368,681,685.

It's Worse When Dimes Get to Look Like Pennies

Washington, D. C., July 23 (AP).—The new steel penny looks so much like a dime that hundreds of persons have written to the treasury, asking that something be done to end the confusion. Treasury Secretary Henry Morgenthau Jr. said today, however, the treasury has found it impracticable to change the color or size of the coin or to bore holes in it. Therefore people will have to put up with it for the duration of the war.

OPA FILES CHARGES AGAINST 21 MORE GASOLINE DEALERS

Suspension proceedings against 21 additional gasoline retailers charged with violating rules of the office of price administration were filed yesterday by Michael F. Mulcahey, metropolitan OPA director. Hearings on the charges will be heard next month before W. M. McFarland, regional OPA hearing commissioner.

Suspension proceedings against 24 retailers were filed last Wednesday by Mulcahy. All the cases grew out of an investigation of 200 dealers by OPA agents during June.

Mulcahy said the 45 accused dealers failed to account for discrepancies in gasoline inventories and ration coupon accounts.

REPORT COFFEE RATIONING WILL BE ENDED SOON

Release of coffee from the ration list is imminent, government food officials in Washington said yesterday. Recommendations that coffee be freed from rationing controls have been made to the office of price administration and formal approval is expected soon. Rationing of coffee started last November after shipping losses in the Atlantic reduced American stocks. With improved shipping, the coffee trade has reported stocks early in July totaled about 450 million pounds, compared with normal supplies at this time of the year of 300 million pounds. Imports have been exceeding the rate of restricted consumption.

COCHRAN, MOREY MEET FOR GOLF TITLE TODAY

TWO NOTRE DAME PLAYERS JOIN COLLEGE ALL-STARS

WALLY ZIEMBA AND MILLER TO FACE REDSKINS

Feats Recalled in Irish Games.

Volunteers Wanted

COLLEGE and high school musicians who wish to participate in the All-Star band should make their availability known to Ray Dvorak, whose address is University of Wisconsin Bands, Madison, Wis.

BY WILFRID SMITH.

The Irish of Notre Dame raised their bid today for positions on the All-Star eleven which will meet the Washington Redskins in the charity game in Dyche stadium Aug. 25.

Notre Dame will send these stars to the college camp when practice begins Aug. 7.

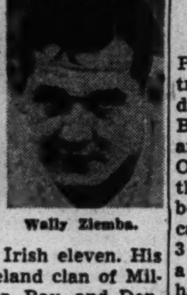
Creighton Miller, varsity right half back, whose 68 yard run in Soldiers' field last December tied the Great Lakes Bluejackets, 13 to 13, and Wally Ziemba, varsity center, who blocked two Southern California kicks for points after touchdowns for a Notre Dame victory, 20 to 18, the concluding triumph in an undefeated season in 1941.

These individual achievements were the high points in the careers of these Notre Dame football men. Back of these brilliant plays, however, is a foundation of steady, dependable performance by which they earned varsity monograms and recognition as No. 1 players at their respective positions.

Follows Miller Tradition.

Creighton Miller, as you know, plays according to the Miller tradition. His father, M. Harry Miller, captained the 1908 Irish eleven. His uncles of the Cleveland clan of Millers, Gerald, Walter, Ray, and Don, all played for Notre Dame and Don was the right half back on the famed Four Horsemen eleven. Harry Stulhdreher, quarter back of that 1924 national championship team and now Wisconsin's director and coach, has been named head coach of the 1943 All-Stars.

Creighton Miller.



Wally Ziemba.

Creighton began his football career at Notre Dame as a full back. In his role in 1941 as relief man for Dippy Evans he ranked third on the Irish squad in ground gained with 206 yards and an average of 3.5 yards for each time he carried the ball. He proved that line plunging wasn't his only ability by averaging nearly 50 yards in punting and in the detexerity with which he caught passes.

Breaks Thru Sailors.

Thus, at the start of last season, Creighton was moved to right half back by Coach Frank Leahy. An injury in fall practice held him back and he didn't recover completely until the last two games, altho he continued to play. Against Southern California and Great Lakes, Creighton showed why he had been ranked as the best right half back on the squad. His touchdown run of 68 yards to tie Great Lakes climaxed his performance.

The Bluejackets led Notre Dame in this final game of the year, 13 to 0 at the half. The sailors had piled

9 Nominated for Arlington Classic Today

BY HOWARD BARRY.

(Picture on next page.)

The Arlington Classic, traditionally the race in which anything can happen, will be renewed today at Washington Park. Chicago fans who watched three sensational upsets in the last four runnings are just going to sit tight this afternoon and refuse to be surprised even if Burnt Cork turns into a brilliant route runner and wins by five lengths. With $50,000 in added money, this gallop of a mile and a quarter will gross $72,750 if all nine overnight entries get to the post.

It's the most wide open Classic in years. Chop Chop, Occupation, Askmenow, Slide Rule, Bourmont, and others will harass the mind of every one who tries to name the winner. And there are others such as Famous Victory, Amber Light, All Hoss, and the above mentioned hard running little sprinter, Burnt Cork, to complicate the situation.

Chop Chop May Be Choice.

It is considered quite probable that the Mill River stable's Chop Chop will be the post time favorite. He started out as tho he might go places this season and with Count Fleet, Blue Swords, Ocean Wave, and other good 3 year olds missing from the Classic, this will be a great opportunity for him. After being beaten by a narrow margin in two allowance events which touched off his 1943 campaign, Chop Chop blazed over the mile and three sixteenths of the Empire City Handicap to win in 1:57 1-5, which was a Jamaica track record even tho it did last only a week. That was three weeks ago and his training moves have indicated that he's still in sharp form.

John Marsch's Occupation, so highly popular with Chicago fans last year when he was the nation's leading money winning juvenile, will get plenty of backing today even tho he did fail Monday in his first effort at a distance greater than seven furlongs. Many believe that with a little greater restraint in the early stages he might have lasted the mile and a furlong of the Challenger purse instead of faltering in the closing yards and losing to Askmenow by half a length.

Askmenow Well Liked.

Askmenow, a filly owned by Hal Price Headley, increased her prestige tremendously by that victory Monday over a field which included Bourmont, All Hoss, Burnt Cork, and Famous Victory in addition to Ocupation. Previously she had won the $10,000 Matron stakes. Many bettors will shy away, however, because the fact remains that she's a 3 year old filly and the distance is a mile and a quarter. No filly ever has won this race before, tho some mighty good ones, including Top Flight, have tried. Askmenow will have a running mate today—All Hoss.

Slide Rule ran so well earlier in the season that he'll no doubt get his share of support now that the distance is up again to a mile and a quarter. The sprinters were too much for him in a pair of seven furlong efforts during the current meeting. Earlier he had won two stakes at Belmont and had been second to Count Fleet in the Withers. He was third in the Kentucky Derby.

Field for Classic

NINE horses were named in the overnight entries for today's Arlington Classic at Washington Park. With $50,000 added, the purse for this miles and quarter race for 3 year olds will gross $72,750 if nine start. The field in order of post positions follows:

Horse.	Wght.	Jockey.	Prob. Odds.
Famous Victor	117	G. Woolf	20-1
Slide Rule	120	F. Zufelt	5-1
Burnt Cork	117	M.J.Haycock	30-1
*All Hoss	117	N. Jemas	4-1
*Asknenow	115	C. Bierman	4-1
Amber Light	120	No boy	15-1
Bourmont	117	M. Peters	10-1
Chop Chop	123	J. Longden	2-1
Occupation	120	L. Whiting	3-1

My Song.

O, I would sing of daffodils
In springtime and of purple hills.
Of youth's young dream I'd like to sing,
As I look back—remembering.

I'd sing of summer's lovely things,
Days fraught with sweet rememberings,
Of golden harvests now unfurled
To feed a hungry, battered world.

And O, my song would be today
Of peaceful things—of things that stay;
Of memories the years now bring
As I wait here—remembering.

The White Sox split a double header with the Red Sox in Boston yesterday. Story on page 17.

BY EDWARD BURNS.

Claude Passeau's four hit pitching yesterday gave the Cubs a 5 to 0 victory over the Boston Braves and the success, Claude's fifth straight and 10th of the season, bounced the Cubs back into fifth place over the Braves and the Phillies.

Passeau hasn't lost a match since June 27, when he yielded a sole homer to Danny Litwhiler in the seventh inning and also a two run homer in the ninth to drop a 3 to 2 decision to the Cardinals. Since that sad day the Mississippi nut fancier has beaten the Braves, 7 to 1; Brooklyn, 9 to 4; New York, 4 to 2, and Cincinnati, 3 to 1. Yesterday's decision was his fourth over the Braves and the second straight in which he has given up only four safe ones.

Cubs Score in First.

The Cubs made the one run which was enough to win in the first inning. Jim Tobin, who went all the way for the Braves, loaded the bases before a put-out was accomplished and the one run looked like a skimpy harvest at the time. Stan Hack walked, Eddie Stanky beat out an infield single and Phil Cavarretta walked on four pitches to load the bases. Bill Nicholson then sent Butch Nieman into the ivy vines on the left field wall for his drive, Hack scoring.

The Cubs, with Passeau taking a part on the offense, made Claude's work easy by adding three runs in the fifth inning. Clyde McCullough and Lennie Merullo, the latter fully revived from Thursday's goat role in both games of a double header, knocked singles and when Tobin failed to find the handles on Passeau's sacrifice bunt, the bases were loaded. Hack then doubled to right, his second hit, scoring McCullough and Merullo, Passeau reaching third. The runners held their bases on Stanky's infield out, but Passeau scored and Hack got to third on Cavarretta's fly to Charley Workman. Nicholson walked, but Goodman bounced out to Eddie Joost.

Goodman Gets a Double.

Nicholson opened the eighth with a single to right and went to third when Goodman celebrated his 35th birthday by doubling to right. Lowrey flied to Tommy Holmes, Nicholson scoring. Goodman stole third but died there.

The decisiveness of the final put the lads in fine fettle to receive the Giants today. Henry Wyse will go after his fourth straight, opposed by Bill Lohrman.

THAT VITAL PUTTER

Bob Cochran of St. Louis (right) flourishes that putter which has boosted him into the final of the All-American Amateur today at Tam o' Shanter, but his opponent, Dale Morey of Martinsville, Ind., doesn't seem to register the proper fear. [Fred Kuehn Photo.]

GOGGIN, WEHRLE TIE FOR LEAD IN ALL-AMERICAN OPEN WITH 140

BY CHARLES BARTLETT.

Wilford Wehrle, the Racine, Wis., amateur, who has played a spot of golf against more than a few professionals, and Willie Goggin, the 37 year old White Plains, N. Y., pro, yesterday climaxed 12 hours of confusion at the Tam o' Shanter Country club, by taking the half way lead in the $10,000 All-American Open golf tournament, with 36 hole scores of 140, four under par for the distance.

For hours the galleries pursuing the professionals, amateurs and women over Tam o' Shanter's 18 holes, were resigned to another three-way tie for the lead, such as existed after Thursday's opening 18. Then Wilf and Willie, playing in the same threesome, posted 68 and 70, respectively, to take charge of first place, one stroke ahead of a threesome of 141 marksmen.

Three Tie at 141.

Until the Wehrle-Goggin arrival, the aforesaid trio of 141s apparently were the men to lead the field into today's third 18. They included long-hitting Melvin [Chick] Harbert, the Battle Creek, Mich., air cadet; Bob Hamilton, burly Evansville, Ind., pro., and Buck White, the Mississippian who caused something of a stir early in the Hale America Open last summer.

Meanwhile, the entire regiment of pros, who had been frustrated by the course on Thursday, with only six of them breaking its par of 72, were rearing back with a successful revolution that saw 24 of them crack it before the day was over. One of the leaders of this uprising was bespectacled Al Huske of Chicago's Glen Oak club, who was in early with a 66, six under par, and only a stroke over the course record. Al put together a pair of 33s, including three birds to the side and nary a five, to win the day's low round prize of $100.

Heafner Shoots a 68.

Sgt. Clayton Heafner of Camp Croft, S. C., runner-up for the Open title last year, shot a 68 after a Thursday 75, and his second round card was later duplicated by Ralph Hutchison of Bethlehem, Pa., before Wehrle came home. Harbert finished with two birdies for the 69 that was duplicated by White and Frank Commisso of Rochester, N. Y.

Still among those who couldn't get off of the par beam was the man who has collected $4,901 in the course of winning the last two Opens at Tam o' Shanter—Byron Nelson of Toledo, O. For the second straight day the champion, who had shot three 67s and a 65 in nine previous competitive rounds of the tournaments, was held to a par 72 that leaves him four shots away going into the third round. Jimmy Demaret of Detroit also was checked with a second round 72 which gave him 145.

Serafin, Kaiser Tie at 142.

Tied at 142 were two chunky veterans, both of whom are capable of being in front—Felix Serafin of Pittston, Pa., and Bill Kaiser of Louisville, each of whom had 70s yesterday. The 143 bracket in addition to Heafner and Hutchison included Amateur Bob Cochran of St. Louis, Andy Gibson of Baltimore, Leland Gibson of Kansas City, Mo., and Harold McSpaden of Philadelphia. Matching the 36 hole par with Nelson were Harry Cooper of Minneapolis, Gib Sellers, last year's 36 hole leader from Hot Springs, Ark., and Jim Ferrier of Chicago.

The qualifying limit for the 85 players and ties who will enter the last 36 holes was 152. The only outstanding absentees will be Bobby Cruickshank of Richmond, Va., present North and South champion, and Ralph Guldahl of San Diego, Cal., former National and Western title holder.

The two leaders are no strangers to their position. Wehrle has shown an ability to get around a course in match or medal play. Wilf has won the Western Amateur, once went to the quarter finals of the British Amateur, and is the present holder of the Chicago National Amateur championship. He was the low amateur scorer in the 1940 National Open, and also won the Chicago district title when it was a medal play event.

Wehrle and Goggin led the field at the halfway point in the All-American Open tournament at Tam o' Shanter yesterday with 140 apiece.

REACH FINAL IN AMATEUR AT TAM O' SHANTER

Kovack, Donohue Beaten, 1 Down.

Bob Cochran, rangy paper salesman from St. Louis, and Dale Morey of Martinsville, Ind., captain of the Louisiana State golf team, gained the finals of the All-American Amateur tournament at Tam o'Shanter with a pair of uphill battles in yesterday's 36 hole semi-finals.

Cochran, who eliminated Wilford Wehrle of Racine with ease in Thursday's quarter-finals when he shot a blazing 67, had to do it the hard way yesterday to gain a 1 up decision over Frank Kovack, the excaddy from Waukegan.

Meanwhile, Morey was engaged in a see-saw battle with a fellow collegian, John Donohue Jr., of Sioux City, Ia., a recent graduate of Georgetown university. The boys battled to the 36th green where the Hoosier won a 1 up decision.

To Start at 9:30.

Today's 36 hole final between Cochran and Morey will get under way at 9:30 a. m.

Cochran held a 1 up margin at nine holes and maintained this advantage at the 18th. Both shot the back nine of the morning round in 34, two under par, giving Kovack a medal of 71 against Cochran's 72.

Kovack erased Cochran's lead at the 20th, where he dropped a 10 footer for a birdie four. He won the next two holes when Cochran bogied both by three putting. The Waukegan lad pulled into a lead of 3 up at the 24th when Cochran needed three more putts to hole out. The St. Louis player won the 27th with a birdie four to trail 2 down.

Cochran Trims Lead.

Cochran cut into his opponent's lead by winning the 28th with another birdie. They halved the next two holes in par and the St. Louisan squared the match at the 31st where he sank a long putt from the edge of the green for another birdie. He knocked down a 30 footer at the next hole to take a 1 up lead. They halved the next two holes.

The match was squared again at the 35th where Cochran's drive was in the rough and his second landed in a trap at the side of the green. He settled for a 5, one over par, while Kovack holed out in 4.

Morey Drops Behind.

The Morey-Donohue match was pretty much a repetition of the other semi-final battle. Morey led, 2 up at 18 holes and then proceeded to lose that lead on the first two holes of the afternoon round where a trap at the 19th and the trees at the 20th cost him both holes.

The match was squared at the 23d where Donohue took a 6 when his second dropped in a trap. Morey went 1 down again at the short 26th where his tee shot missed the green and he took a bogey 4.

Morey fell further behind at the 29th where he three putted for a four. He won the next two holes when Donohue took bogey 5s and pulled into a 1 up lead at the 33d with a birdie 4. The match again was squared at the 34th where Morey took a bogey 4 to Donohue's 3. The Indiana player won the 35th by sinking a 12 foot putt for a birdie 3. They halved the last hole in 4s to give the decision to Morey, 1 up.

up 11 consecutive first downs before the Irish made their first required distance and led at the intermission in this statistical measurement, 14 to 4. Then the Irish exploded.

Averages Six Yards.

On the first play after the kickoff opening the second half, Corwin Clatt, full back, ran 82 yards to score. Great Lakes received and punted on fourth down. On the next play Miller made his spectacular run.

Miller averaged six yards for each running play during the 1942 season. He is 21 years of age, weighs 188 pounds, and is 6 feet 1 inch tall. He has recently been given a medical discharge from the army and has one more year of competition at Notre Dame.

During his high school days in Wilmington, Del., he received 13 athletic awards while competing in four sports.

Ziemba, who was graduated from Notre Dame last May with the degree of bachelor of science, is enlisted in the marine corps reserve. He began his football career as a tackle but in 1941 Coach Leahy moved him to center because of his "aggressiveness, determination, and fine reactions." Ziemba played 352 minutes of a possible 540 minutes that year and personally supervised the Irish victory over Southern California when each team scored three touchdowns and the margin was the result of Ziemba's blocking two of the Trojans' tries for points.

Ziemba also blocked Northwestern's try for the point in the 1941 season by which Notre Dame won that annual battle, 7 to 6.

Handicapped by Injuries.

Wally was handicapped last season by knee injuries but continued his fine play at center and in backing up the line. In addition to three football monograms he also was on the Irish track team for two seasons. Wally captained the Hammond, Ind., high school football and basketball teams. He won state honors in both sports and the Hammond basketball team reached the Indiana state finals in the year of Ziemba's captaincy.

Wally is 23 years of age, weighs 235 pounds, and is 6 feet 3 inches tall. He joins an All-Star squad which now has the finest group of college centers brought together in the history of the annual game with the professional champions. The others are Tex Warrington, William and Mary; Vic Lindskog, Stanford, and Joe Domnanovich of Alabama.

116 Compete Tomorrow for Swim Crowns

Preparations are completed for the 14th annual Chicagoland 100 yard swimming championships, which will be held tomorrow afternoon in the California park pool, 3901 North California avenue. One hundred and sixteen boys and girls who qualified last week-end in four preliminary sectional meets will compete for the 10 gold championship medals.

More than 900 boys and girls entered the qualifying races and each of those who completed his 100 yard test received a souvenir button. The 116 qualifiers for tomorrow's finals, who represent nearly two score of clubs and organizations, were awarded gold qualifying medals. Many of the contestants, however, are unattached.

Gold medals are the championship awards tomorrow in the 10 races. Silver and bronze medals will be given to boys and girls finishing second and third, respectively, in each age class. The Lido club swimmers, who last year represented the Shawnee Country club, are defending the team title in the girls' division. The South Side Boys' club won the 1942 team title.

Tomorrow's races will start at 2 p. m. Contestants will report a half hour earlier for assignment and to receive their racing numbers. Only two of the 1942 champions will compete. These have advanced to the next higher age class under the rule which prohibits a champion to compete a second time in the same age division. The champions are Alice Miller, Lido club, class C champion, and Marilynn Billquist, Skyline A. C., class D champion.

HAGG AND DODDS CLASH TONIGHT IN CAMBRIDGE

Cambridge, Mass., July 23 (AP). — With both Gunder Hagg and Boston's Gil Dodds determined to give the best performances in their transcontinental racing series for the benefit of the American Air Forces Aid society there appears to be a slight possibility that the Swedish sensation will be forced to break Glenn Cunningham's American mile record of 4:06.7 to win tomorrow night in the Harvard stadium.

Lills Beat Yankees, 8-6, in Windy City Softball

In Windy City Softball league games played in Rheingold stadium last night the Lill Coals beat the Witt Hanley Yankees, 8 to 6, and the Adducis defeated the Owl club, 12 to 8. In league games in Hilburn stadium the Collegians beat Irv-Oaks, 10 to 4, and Eddie's Service whipped the Adamowskis, 11 to 6. There are no games scheduled tonight.

BOXING WRITER DIES.

New York, July 23 [AP].—Murray Lewin, 45, veteran boxing writer and president of the New York Boxing Writers' association, died in Brooklyn Jewish hospital tonight.

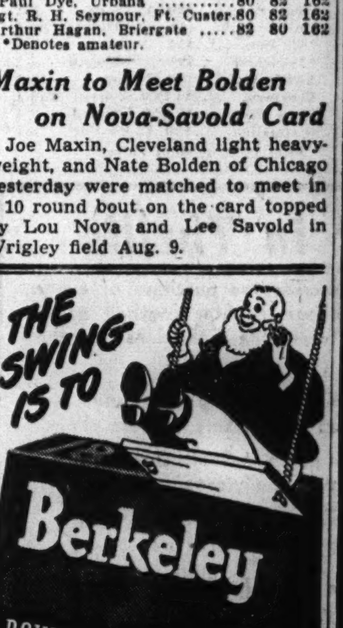
Maxin to Meet Bolden on Nova-Savold Card

Joe Maxin, Cleveland light heavyweight, and Nate Bolden of Chicago yesterday were matched to meet in a 10 round bout on the card topped by Lou Nova and Lee Savold in Wrigley field Aug. 9.



BERG HAS FOUR STROKE LEAD IN WOMEN'S OPEN

Cards 149 for 36 Holes; Betty Hicks 2d.

Patricia Berg of the Minneapolis Bergs, who has been suspected of being quite some shakes as a golfer these last few years, verified the suspicion again yesterday by shooting a magnificent 72, four under women's par, for a new course record in the second round of the All-American Women's tournament at Tam o' Shanter.

Entering the third round this morning, the read headed 25 year old Minnesota professional, who will shortly be inducted into the marines, has a 36 hole total of 149, three under par for women at Tam o' Shanter. Her nearest rival is Apprentice Seaman Betty Hicks of the SPARS, who yesterday fashioned herself a handsome 74 for a halfway total of 153.

Miss Berg Holds Lead.

Playing in the threesome just ahead of Miss Berg, Miss Hicks made a determined challenge to trim the two stroke margin with which Patty's first round 77 led her own 79 at the end of Thursday's opener. Betty was out in 36, one under par, but it wasn't long before Patty rounded the turn with the same figure. The Minnesotan, recent winner of the Women's Western Open for the second time, then came back with still another 36, against Miss Hicks' 38.

The 18 women in the field will begin teeing off on their third round at 11:10 o'clock this morning. Tied for third place with 162 each are Jeanne Cline, former Western Junior champion from Bloomington, Ill., and Kay Byrne, New York radio singer. Miss Byrne, New York state champion, took an 83 yesterday, while Miss Cline scored her second straight 81.

The cards for Misses Berg and Hicks follow:

WYATT YIELDS 4 HITS AS DODGERS BLANK REDS, 2-0

Brooklyn Outfield Equals Putout Record.

Cincinnati, O., July 23 (AP).—After being held to two hits for seven innings by Johnny Vander Meer, the Brooklyn Dodgers shoved a run across in the eighth today, added another in the ninth, and whipped the Reds, 2 to 0, behind Whitlow Wyatt's four hit pitching. The Dodger outfield made 18 putouts, equalling the major league record. Score:

Ross Wins, 5-1, After Boston Beats Sox, 8-7

BY IRVING VAUGHAN.

[Chicago Tribune Press Service.]

Boston, Mass., July 23. — The White Sox indulged in their most inartistic nose dive of the season today, a misstep which denied them the pleasure of taking both ends of a double header from the seventh place Red Sox. The Chicagoans made their big plunge in the first game, tossing off a five run lead, which resulted in an 8 to 7 ten-inning beating in which John Humphries and Joe Haynes folded speedily. But the White Sox roared back, with Lee Ross and Vince Castino leading the shouting, for a 5 to 1 victory.

In his sixth profitable job of the year Ross pitched a seven hitter, the task being quite simple after Castino, rookie catcher from St. Paul, had enjoyed two swings against Heber Newsome who now is burdened with eight spankings against one victory. The Castino kid scored the first Sox run after singling. In his next appearance he slammed a homer with the bases filled. This lead remained undisturbed until the ninth when Ross permitted his budding shutout to escape.

Doerr's Homer Starts It.

In the first game the Chicagoans did their hard work early, scoring all their runs in five innings off Yank Terry and Louis Lucier. With this edge Humphries appeared to be rolling in comfort until a homer by Bob Doerr brought on a wild streak that made it necessary to bring in Haynes with the bases filled in the eighth. Haynes ended that threat and the Chicagoans still possessed a three-run lead. But with two out in the ninth Pete Fox hit a three run homer to tie the score.

The decisive tenth opened with Haynes walking Bill Conroy and he added to his distress by throwing low to second on a bunt by George Woods, who pitched the last two innings for the Bostons. However, the error was charged against Luke Appling. Then Haynes caught L. Newsome's bunt on the fly, but immediately tumbled into a 3 to 2 jam while pitching to George Metkovich. The rookie doubled on the next pitch to send home the winning run.

Bobby's Errorless Streak Ends.

Doerr came to the end of the performance which had carried him thru 60 games without an error, a stretch that enabled him to pile up 342 chances for a big league fielding record at second base.

A double by Metkovich and a single by Jim Tabor fixed up Boston's run in the opening inning of the first game but this appeared insignificant after the Sox had thumped Terry in the second inning. Hodgin doubled, went to third on Kolloway's single and Kuhel was purposely passed. Hodgin scored on Tresh's infield out and Humphries did his bit with a double which scored Kolloway and Kuhel. After Moses had been tossed out Tucker singled to score Humphries. Then Lucier replaced Terry.

Kolloway Hits Double.

The three run Chicago fifth started with Lucier walking Curtright. Guy skipped to third when Appling singled on a hit and run play. Hodgin's low liner slipped thru Doerr's hands but was called a single, Curtright scoring. Kolloway doubled to the left field fence and Appling registered. Hodgin rode home on Kuhel's long fly to Metkovich.

The Red Sox scored once on Humphries in the fifth because of two hits and an error by Kolloway in the middle of an easy double play. With two gone in the eighth Doerr hit his homer over the left field wall and Humphries promptly fell apart. Fox and Lupien singled and Partee walked. Manager Cronin, batting for Lucier, also walked and Fox was forced to score. Out went Humphries and in came Haynes whose first pitch was lofted to Moses by L. Newsome.

Fox Ends It in 10th.

Two were out in the ninth and Culberson on first after scratching a single off Hodgin's shin, when Doerr hit the left field barricade for a double. Then Fox stepped up with a three run homer over the same fence to tie the score, but not for long.

For his warmup in the second game Castino singled off H. Newsome at the start of the third and reached the plate on a single by Moses, a pass to Tucker and Curtright's double play grounder. Then Appling walked and Hodgin singled in the fourth. After Kolloway had flied out, Kuhel also walked and an instant later the whole gang ran home, followed by Castino who had knocked the ball over a tall sign in left field. It was his first big league home run.

Going into the ninth Ross had a four hitter to his credit but Metkovich and Culberson got singles. A fly ball disposed of Tabor but Doerr singled, filling the bases. Metkovich scored while Doerr was being forced and Moses ended it by taking a high fly hit by Lupien.

POLICE SNARE CONFIDENCE MAN AND COMPANION

Bait Trap with Ad and Get Results.

A veteran swindler and his woman companion, a former burlesque actress, said to have defrauded more than 100 Chicagoans in the last year, were trapped yesterday by the Hudson avenue police. They are Carl Cummings, alias Thorsen, Carlson, Becker, and Johnson, 57 years old, 64 West Elm street, and Fay Bernard, 48, of 159 Goethe street.

Carl Cummings.

Cummings, whose police record, going back to 1922, includes four terms in the Bridewell, told Capt. John O'Malley of his most recent racket. His method was to call on advertisers of property for sale or rent, inspect their buildings, and accept their terms. Then he would offer a check for a sum larger than the agreed down payment, and take the difference in cash. His checks always bounced.

Capt. O'Malley, with the coöperation of Otto Ross and Mrs. Ada Munzberg, real estate brokers at 663 North State street, placed an advertisment offering for sale a rooming house at 1357 North Wells street. Cummings and his woman friend approached the house yesterday afternoon, surveyed it, and started to walk way. But Policeman Samuel Desent, who was stationed in the house, followed and arrested them. The pair will be placed on view in the police showup at 2 p. m. tomorrow in the Central Police building.

THEATER OF AIR LINKS MENDELSSOHN MUSIC, SHAKESPEARE DRAMA

An unusual treatment of "A Midsummer Night's Dream" will be presented on the Chicago Theater of the Air from 8 to 9 o'clock tonight over W-G-N, W59C, and the Mutual Broadcasting system. Shakespeare's drama will be interwoven with the music of Mendelssohn.

Col. Robert R. McCormick, editor and publisher of THE TRIBUNE, will speak.

In the dramatic production Puck, portrayed by Bob Jellison, will take Shakespeare thru the dream. Other leading parts will be taken by John Barclay as Shakespeare, Marvin Mueller and Laurette Fillbrandt. The W-G-N Symphony orchestra and chorus under the direction of Henry Weber will present the music. Jack La Frandre is the writer-producer. The music will include "Scherzo," "Nocturne," and "The Wedding March."

C. Y. O. BOXERS TO MEET PEORIA SQUAD TONIGHT

Peoria, Ill., July 23 [Special].—Five boxers of the Catholic Youth organization of Chicago will meet Peoria representatives in a series of amateur bouts tomorrow night for the benefit of service men from nearby camps.

The C. Y. O. fighters, who will be under the supervision of Lou Radzienda, manager of the organization's loop gymnasium, will be Pete De Simone, 118 pounds; Lloyd Watts, 126; Abe Lee, 135, and Al Prislinger and Sam Washington, both 147 pounds. Washington is the 1942 C. Y. O. open welterweight champion.

3 RUNS IN 9TH BRING VICTORY TO CAMP GRANT

Rockford, Ill., July 23 [Special].—Camp Grant pushed over three runs after two were out in the ninth inning today to defeat the Caterpillar Tractors, 7 to 6, for its 29th victory of the season.

The Warriors will play a double header today, meeting Savanna Ordnance depot in the first game and Iowa Pre-flight in the second on Keep 'Em Flying field. Gene Joselane and Bob Carpenter will pitch for Camp Grant.

OUTPUT FAILS TO MEET NEED, SAY OFFICIALS

Somervell, Wilson Issue Warning.

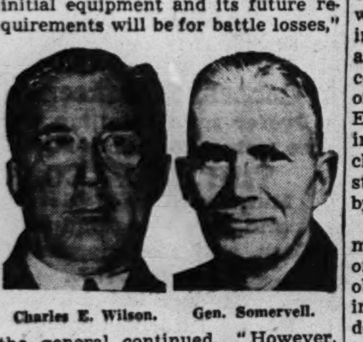
Warnings that American war material production is lagging so far behind schedule that it does not match military needs, and may prolong the war, were given by two high officials yesterday.

They are Lt. Gen. Brehon B. Somervell, chief of the army service forces, and Charles E. Wilson, executive vice chairman of the war production board. Both spoke before an intent audience at a luncheon of the Chicago Association of Commerce in the Hotel Sherman.

Production Schedules.

Gen. Somervell said that, to meet assigned quotas of production for 1943, 61 per cent of the airplanes scheduled must be built in the latter half of the year; 59.6 per cent of the ordnance; 67.9 per cent of signal corps equipment; 65.1 per cent of engineer equipment; and 68.9 per cent of chemical warfare needs. He listed only quartermaster and medical supply production as up to standard.

"In some fields our army has its initial equipment and its future requirements will be for battle losses,"



Charles E. Wilson. Gen. Somervell.

the general continued. "However, in the majority of items, we are still not fully equipped. It will be well into 1944 before our troops here and abroad will have equipment both for operations and for training.

"We are building up a large army overseas. We have already shipped more tonnage to North Africa than was shipped from the United States to the A. E. F. in France in the entire last war."

Still Not Enough.

Gen. Somervell said American industry and labor had attained "unbelievable results" since Pearl Harbor, but that this was still not enough. He also said that some items were being cut down, causing local disruptions.

As an instance of the trend he mentioned that fixed artillery and anti-aircraft guns were less needed now—with the allies on the offensive—than mobile artillery.

One little known factor, he said, was the vast amount of transportation and such items as pumping stations and pipe lines needed to make occupied areas safe from a health standpoint for military needs.

The general explained that the question of shifting workers from forms of production being minimized had been given much consideration. The WPB and the war man power commission are coöperating, he said. Arrangements are being set up, he added, for the swift settlement of claims by manufacturers who are thrown partly or completely out of production.

Gaining Experience.

"Our record in this respect to date leaves much to be desired, but we are gaining experience and believe we are definitely on the way to solution of this problem," the general said.

He recalled that the output of needed equipment was 300 million dollars behind schedule [for the army] in April, May, and June. To make up the deficit, he said, production must be greatly stepped up in the latter half of the year, at least to the extent of 100 millions a month. This would be a great help to early victory, he said, while delay would contribute to losses.

Wilson gave additional figures. He said that the June production goal was 6½ billion dollars and only 6 billion was realized. This, he said, was a "sobering fact," and its truth could not be changed by impressive figures on total output.

If 7,000 airplanes were turned out in June, against 5,000 in January, it was comforting to know this was an improvement over 1942, he said.

"But it would be folly to let these fine numbers lull us into a sense of security," he said. "As long as war output is short of requirements, we have every cause for worry."

Long and Stubborn War.

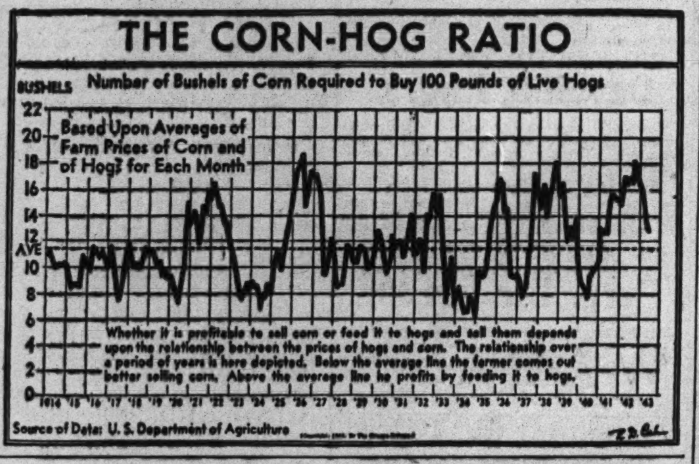
Wilson said the war was going to be long and stubborn, and that the enemies' strength should not be underrated; that hundreds of planes and hundreds of tanks can be destroyed in an hour.

"A man in a bombing plane has a better chance to come back alive if there are 100 planes in the raid than if there are 50," he asserted.

He said that the man in the jungle was better protected if 100 big accurate guns were behind him rather than 50. And, he asserted, the extra production this year was demanded not only as an assurance of victory but as added safety for our fighting men.

"They [the more numerous units of material] mean a cutting down of casualties, which God knows will be large enough in any event," Wilson said.

The two speakers were introduced by Floyd E. Thompson, chairman of the association committee on public affairs, and former chief justice of the Illinois Supreme court.



Armour to Call All Delaware Senior Stock

All of the 7 per cent guaranteed preferred stock of Armour & Co. of Delaware will be redeemed "in the very near future," George A. Eastwood, president of the company, announced yesterday after arrangements for the action were completed by the board of directors.

Retirement of the Delaware issue will mean that the properties, assets, and earning potentialities of the company, a subsidiary of Armour & Co. of Illinois, will be restored ultimately to the parent corporation, Eastwood said. He is president of both companies.

Much Stock Already Retired.

A major part of the 523,581 shares of $100 par preferred stock that were outstanding has been or is being eliminated as a result of issuance of 35 million dollars of 7 per cent cumulative income debentures of the Delaware company in May. Elimination of the preferred is being accomplished partly thru exchange of the debentures for the stock and partly thru funds obtained by sale of the remaining debentures.

Eastwood disclosed that the money to complete the retirement ordered by the board yesterday was obtained by the sale to a group of insurance companies of 15 million dollars of five year 3 per cent notes which will be funded later. Money from the company's treasury also will be used.

Call to Be at $110 a Share.

The face amount of the preferred stock remaining uncalled is approximately 17 million dollars. It will be redeemed at $110 a share plus accrued dividends to and including Sept. 22, after which dividends will cease to accrue on the stock.

Armour of Delaware is the Illinois company's principal subsidiary. The dividends and principal of the subsidiary's preferred are guaranteed by the parent company. Ever since the stock was issued in 1922 it has been regarded as a contingent liability which potentially hindered borrowing operations of Armour of Illinois and affected the parent company's ability to pay dividends on its own stock. The packing business requires heavy borrowing at certain seasons. The retirement is expected to improve Armour of Illinois' borrowing ability.

STRIKE ENDED AT BETHLEHEM OPEN HEARTHS

Johnstown, Pa., July 23 (AP).—A mass meeting of 1,500 open hearth furnance employes at the Bethlehem Steel corporation plant voted late today to end a walkout resulting from a dispute about the discharge of a workman.

The strike closed the plant's 21 open hearths—the longest battery connected in one line in the nation—and four rolling mill sections, and threatened to cripple production of thousands of workers.

Sidney Evans, publicity representative of the company, estimated the shutdown resulted in a loss of more than 6,000 tons of steel ingots, enough to build more than 20 destroyer escort vessels. He said the men walked out yesterday after the company suspended one man with intent to discharge him for causing a small walkout earlier.

Value of German Mark Drops to 1.86 Cent Level

BERNE, Switzerland, July 23 (AP).—The German mark has dropped 50 per cent in value in the last two weeks. It is quoted at eight Swiss francs for 100 marks.

[The Swiss franc is quoted at 23.30 cents in New York, which would make the mark worth 1.86 cents.]

People and Events

Bastian-Blessing company, Chicago soda fountain equipment maker now engaged in war production, will receive the army-navy "E" award at a plant ceremony at 3:30 p. m. Monday, officials announced yesterday.

A. B. Hansen, president and director of the Northern Paper Mills, Green Bay, Wis., has been named deputy director of the WPB's pulp and paper division, and is expected to begin his new duties within a few days, WPB sources said yesterday. Increased pulp production is sought.

Marvin S. Bandoli, general sales manager of the Victor Adding Machine company, has been elected vice president. He will be responsible for the manufacturing program including engineering, purchasing, and production, in addition to his present duties.

The first division of the national railroad adjustment board has moved from the Consumers building and occupies 15,000 square feet of space in the La Salle-Monroe building.

TEXAS SUGAR REFINING.

My question concerns a loss sustained on the Texas Sugar Refining corporation bonds. Notice was sent in the fall of last year that the company's property had been sold by the court at a fraction of the amount invested. Because of sickness I did not get the amount due me until January of this year. Is it proper to deduct my loss from 1943 taxable income?—M. L.

Answer: A loss is deductible only from income for the year in which the loss was sustained. Altho you did not collect the final distribution until January, 1943, the money was available to you in 1942 and therefore was "constructively received" in that year under income tax regulations. If you failed to deduct your loss in filing a return for 1942 an amended income tax return should be filed taking the loss into account.

TOKIO ELECTRIC LIGHT.

When Pearl Harbor was bombed I owned $2,000 of Tokio Electric Light company first mortgage bonds. The last interest was paid June 15, 1941, and the bonds were taken off the New York Stock exchange. Should I have deducted the cost of these bonds as a loss on my income tax return for 1941, filed in 1942? If so, should I file an amended return or can I make the deduction from 1942 or 1943 income?—C. P.

Answer: The bonds of the Tokio Electric Light Company, Ltd., were ruled worthless in 1941, and your loss should have been deducted from income for that year. The year 1941 is still an "open" year for the filing of amended returns. The loss is not deductible from 1942 or 1943 income.

3 MILLION OFFER OF HELLER & CO. FILED WITH SEC

Philadelphia, Pa., July 23 (AP). — Walter E. Heller & Co. of Chicago, business financiers, filed a registration statement today with the securities and exchange commission covering 3 million dollars of serial notes due $600,000 annually from Aug. 1, 1949, to Aug. 1, 1953, and bearing interest from 2½ to 3 per cent.

The company said the proceeds are to be applied in part to retire $2,400,000 term loans from banks and for general working funds for the company and its subsidiaries. The public offering price is to be supplied by amendment.

Principal underwriters are Harris, Hall & Co. of Chicago, the First Boston corporation of New York, and Goldman, Sachs & Co. of New York.

RETAIL VOLUME RUNS 9 TO 14 PCT. ABOVE YEAR AGO

New York, July 23 (AP).—Retail buying was active this week with nation-wide sales estimated to be 9 to 14 per cent above last year, Dun and Bradstreet said today.

"Many retailers experienced less than the usual seasonal letup in sales," the research organization said, "resulting in more pronounced merchandise scarcities. Clearances were notably absent."

Regional sales increases were: Southwest, 29 to 33 per cent; Pacific coast, 23 to 27; New England, 2 to 4; east, 3 to 5; middle west, 6 to 9; northwest, 8 to 13; south, 14 to 17.

Celotex Files Offer Price of 3 Millions Debentures

Philadelphia, Pa., July 23 (AP).—The Celotex corporation, of Chicago, building material manufacturer, filed with the securities and exchange commission today an amendment to a registration statement listing the proposed public offering price of 3 million dollars of 12 year 3¾ per cent debentures due July 1, 1955, at 100½ per cent. Proceeds, together with other company funds, will be placed in trust to redeem the outstanding 10 year 4½ per cent debentures due Feb. 1, 1947.

Rails Advance as Stock List Turns Uneven

New York, July 23 (AP).—Selected rails and specialties again were in demand in the stock market today, but many leaders did little and prices turned irregular. Earnings especially for the carriers and utility preferred issues, appeared to inspire principal demand. Further allied war successes were considered helpful, but failed to stimulate the list as a whole and more profits were cashed by cautious traders.

Gains of fractions to about 4 points were made by many issues early, and some touched peaks for 3 to 6 years. Advances were trimmed in the majority of cases.

Preference stocks of the power companies reflected hopes that rising earnings may mean that arrearages soon will be reduced.

The Associated Press 60 stock average was up 0.2 of a point at 52.8.

Prominent stocks at new highs included Santa Fe, Chesapeake and Ohio, Nickel Plate common and preferred, White Motors, Pepsi-Cola, White Rock, Austin Nichols, and preferreds of Wabash, Electric Power and Light, American Power and Light, and Alleghany corporation.

HIGH PRICED BONDS RISE.

New York, July 23 (AP).—The bond market advanced moderately today under persistent demand for various types of rails and a large assortment of high priced issues. Both the rails and low yield groups in the Associated Press averages posted new highs for a year or longer. Other groups were steady.

CHICAGO TRADE IS QUIET.

Trading on the Chicago Stock exchange was quiet at 25,000 shares, as 40 issues advanced, 35 declined, and 31 were unchanged. Four new peaks were established. Chicago corporation, the volume leader, closed at 5¼, down ⅛.

BOWSER & CO. BUYS EASTERN LOCK PRODUCER

The 110 year old Eagle Lock company of Terryville, Conn., has been acquired by S. F. Bowser & Co., Inc., of Fort Wayne, Ind., for more than 2 million dollars, R. Hosken Damon, president of Bowser, said yesterday. The purchase is subject to stockholder approval.

Eagle Lock, founded in 1833, produces locks of various kinds, luggage, postoffice box locks, wood and machine screws, stove bolts and other related products. The company at present is engaged in war work.

Damon said the Bowser company will spend $250,000 on improvements at the Eagle Lock plant.

Eagle Lock's assets, name and business will be taken over by the purchaser. Bowser proposes to issue 2 million dollars of 20 year 5 per cent debentures. Holders of the Eagle Lock stock will, if the transaction is approved, receive one $25 debenture and one-half share of Bowser common stock for each share of Eagle stock.

BUTCHERS CALL MASS PROTEST MEETING AUG. 4

Two thousand Chicago area butchers are expected to attend a mass meeting called by the joint council of the Retail Meat Dealers' Associations of Chicago for Aug. 4 in the Midland hotel. Charles W. Kaiser, executive secretary, said yesterday the purpose of the meeting is to "protest against inequities in meat distribution at wholesale and to take such further action as will be in the best interests of consumers."

MASSACHUSETTS BONDING AND INSURANCE COMPANY

The Board of Directors have declared a quarterly dividend of 87½ cents a share on the capital stock of the Company, payable August 5, 1943, to stockholders of record at the close of business July 28, 1943.

AVIATION STOCK DIVIDENDS ARE MUCH LARGER

6 Month Payments Rise 98½ Pct.

Wide variations in the trends of dividend payments on common stocks in the various industrial groups, as reflected in a comparison of payments in the first half of 1943 and the corresponding period a year earlier, were reported yesterday by Exchange magazine, publication of the New York Stock exchange.

The changes ranged from an increase of 98½ per cent in dividends paid by the aviation group to a drop of 14.8 per cent in the paper and publishing group.

However, increases and decreases nearly balanced when payments by all the 596 companies covered in the survey were totaled. The amount paid by all the compaines in the first half of 1943 was estimated at $898,179,000, compared with $895,612,000 in the first six months of 1942, an increase of 0.3 per cent.

Classified in 27 Groups.

The stocks were grouped in 27 industrial classifications, of which 13 showed increases in payments and 14 showed decreases. Of the 596 companies, 11 increased payments, 124 reduced them, and 361 left them unchanged. In addition to the reductions, the exchange reported 17 dividend eliminations or deferments.

"When common stocks are considered by industrial groups, the record of dividend payments for the first half of 1943 shows substantial increases to have occurred in the expected areas, for the most part," the magazine said. "By and large, however, higher taxes than the year before, enlarged costs, and in many cases renegotiation of contracts, bore 'Dead sea' fruit in the form of restricted returns to stockholders.

"Groups whose earning power was sharply affected by war orders and war conditions marched ahead of last year in an impressive fashion. There were, however, some notable exceptions."

Payments are Compared.

Trucks Pooled to Save Miles; Loss of Mechanics Protested

Approved by ODT

Thirty-three Chicago area motor freight carriers have set up a pooling arrangement, which is expected to result in the saving of 5 million truck miles annually, Thomas Snyder, assistant regional director of the motor transport division, office of defense transportation, announced yesterday. The arrangement has been approved by the ODT and the interstate commerce commission.

The pool will extend within a radius of 60 miles from the Chicago city limits and will combine 1,200 trucks of the companies, which are short haul highway freight carriers.

Seek to End Waste.

The companies handle an estimated 75 per cent of the motor truck freight in the area, said Earl Girard, general manager of the Chicago Suburban Motor Carriers' association.

Girard said the purpose of the pool is to obtain the maximum use and efficiency from the truck equipment and the elimination of "wanton waste." He said a central dispatching office has been established at 10 North Clark street, association headquarters.

Will Load to Capacity.

Thru the dispatching office trucks will be loaded to capacity on all outgoing and return trips, Girard said. The pool was made necessary by a shortage of trucks, repair parts, and mechanics, he said. The cost will be borne by each member company.

The pooling arrangement provides a uniform rate structure. The group is to coöperate with other similar motor carrier pools. If necessary, dispatching offices will be established at outlying points.

Need Declared Vital

The Chicago Automobile Trade association yesterday appealed to Cook county draft boards and to plant personnel directors to help stop the flow of auto mechanics into military service and war plants. It warned that transportation facilities for many vital plants will be crippled unless an adequate number of mechanics to keep war plant workers' automobiles running is maintained.

Paul B. Smithson, association president, sent letters to 180 selective service boards and 31 industrial plants warning of the growing shortage of mechanics.

Listed Essential Activity.

Smithson said the war man power commission has listed automobile and truck repair work as an essential activity. The WMC has placed automobile and truck repair shops in this area on a minimum work week of 48 hours. Smithson said a large percentage of war workers in Chicago and suburban plants depend on automobiles to get to work.

Results of a survey conducted under the direction of Philip Harrington, office of defense transportation administrator in the Chicago area, were presented in the letter.

Many Use Automobiles.

The survey showed that in 645 Chicago factories engaged war work 107,586 of the 317,765 employes, or 33.8 per cent, went to work by automobile. Percentages for the various sections of the city were: north, 21.94 per cent; west, 33.3 per cent; southwest, 32.87, and southeast, 42.64.

In 155 suburban plants 46,850 of 102,977 workers, or 45.5 per cent, used automobiles to get to their jobs.

BLUE NETWORK BIDS RECEIVED, SAYS RCA CHIEF

David Sarnoff, president of the Radio Corporation of America, disclosed yesterday that negotiations were in progress toward selling the Blue Network, Inc., a wholly owned subsidiary of RCA. Sarnoff stopped in Chicago en route to New York after inspecting several midwestern RCA plants making war communications equipment.

The Blue network is for sale to meet the stipulation of the federal communications commission against common ownership of more than one radio network.

Sarnoff admitted that several offers have been made. He said no bids had been received since he left New York several days ago and that no Chicago interests were among those seeking to acquire the network.

He indicated that a price had been set on the chain but declined to disclose the figure or say whether any bids are near it. However, he disclosed to associates here that one offer is "rather close" to the price asked. Unofficial estimates of the price asked range all the way from 7 to 15 million dollars.

Sarnoff said the network would not be sold, regardless of offers, until a purchaser who gives promise of public service comparable to that provided by the present management came forward. Any transfer would require FCC approval.

GAS COMPANY'S NET EARNINGS RISE THIS YEAR

Revenues, Expense Are Reduced.

The Peoples Gas Light and Coke company, Chicago, reported yesterday that net income during the three and six months ended June 30 increased moderately from a year ago, altho operating revenues declined. Operating expenses and taxes were lower during both periods.

George A. Ranney.

Net income during the six months was $2,195,461, equal to $3.35 a share, compared with $1,962,646, or $2.99 a share, in the corresponding 1942 period. During the three months ended June 30, net profit was $924,742, or $1.41 a share, against $918,438, or $1.40, a year ago.

Declare Dividend of $1.

Directors declared a dividend of $1 a share, payable Oct. 15 on stock of record Sept. 21.

The company said gas sales in therms during the second quarter were 2.9 per cent larger than a year earlier, but gas revenues were 4.19 per cent smaller. The decrease was largely accounted for by the new schedule of reduced rates which went into effect Feb. 5 this year, the company said.

Operating revenues amounted to $22,418,908 during the six months and $10,542,412 during the three months, compared respectively with $23,458,335 and $11,027,190 a year ago. Operating expenses and taxes declined to $19,214,813 from $20,416,624 a year ago in the first half of the year, and to $9,137,339 from $9,581,754 in the three month period.

Expects Dip in Profits.

George A. Ranney, chairman, told the stockholders per share earnings during the last six months of 1943 are not expected to equal earnings during the first half of the year. This will be a result of increases in certain operating expenses, and because higher temperatures usually prevail, with consequent reduction in the general use of gas during the last half of the year, he said.

Consolidated net sales of the Brunswick-Balke-Collender company during the first six months declined 10 per cent below a year earlier, which resulted in reduced net profits of $411,340 compared with $476,492 a year earlier.

United States Pipe & Foundry company reported net income of $611,930 during the first six months, compared with $1,203,571 a year earlier. N. F. S. Russell, president, reported gross sales were well below a year ago because the war time demand for cast iron pipe and fittings largely has been supplied and because customer purchases are restricted by war conditions.

BOILER COMPANY INSISTS AGENCY DISCRIMINATES

Maritime Commission's Contention Answered.

Springfield, Ill., July 23 [Special].—W. Ross Irwin, vice president of the Springfield Boiler company, maker of Liberty type boilers, said today the "real situation" was not presented by the maritime commission in asserting it had placed orders with his company totaling nearly a third more than the company's entire production in 1942.

The commission statement, issued in Washington, was made in reply to testimony by Irwin before the senate small business committee. Irwin told the committee it took two and a half years to interest the commission in the much needed boilers made by the 52 year old company and that even then it received orders for only half its production capacity.

Commission Gives Answer.

The commission answered that it placed orders with the company "at a considerable premium in price" because of Springfield's reported distressed condition; that the company received orders for boilers for 47 ships—more than its entire production last year—but said the company complained because it did not get an order for boilers for 100 ships.

"The price paid us was no more than they paid other suppliers on similar orders," Irwin explained.

"At the time we made our complaint we had been given contracts for only 22 ships altho we bid on boilers for 100 ships and could have handled them. Later we were given orders for boilers for 25 more ships, but the 47 utilized only half the capacity we had offered. We have had only one shift working and could have used two shifts.

Says Whole Story Is Not Told.

"Altho the reference to our maritime orders exceeding our last year's business is not incorrect, it does not tell the story. They gave us about 1¾ million dollars worth of orders and we closed our sales last year at less than 1½ million. But we did about 2 million dollars worth of business last year altho it didn't show up in sales because they are not closed until about six months after the shop work is completed.

"Sales dollars have no direct relation to shop capacity. The only correct showing is by shop and machine hours. The figures I gave the senate committee were correct.

"This is not a personal matter with us. We were called to testify in an investigation much wider than our individual complaint and thru which congress is seeking to shed light on the practices that have been employed."

HOG MARKET MOSTLY STEADY, BUT SUPPLY DIPS TO 16,000 HEAD

Altho hog receipts yesterday held far above the volume of a year ago, they decreased below a week earlier, resulting in mostly steady prices for sows and all stock below 240 pounds. Others were steady to 10 cents a hundred pounds lower, with declines only in the heaviest weights above 300 pounds.

Both the top and average prices were unchanged at $14.25 and $13.70, respectively, with the top equaling the highest mark in five weeks. However, the price was 90 cents below the top sale a year ago. The average a year ago was $14.15.

Chicago received 16,000 hogs, including direct shipments to packers, compared with 23,351 a week earlier. The five day total this week was 104,700, against 125,938 last week and 82,501 a year ago.

Stocker and feeder cattle experienced another slump in a draggy market. The new decline carried prices for replacement stock 50 cents to $1 below a week earlier.

Nearly all other classes of cattle held about steady. Lambs also were steady.

WHEAT FUTURES SLIP, BUT OATS PRICES ADVANCE

Evening Up Operations Unsettle Market.

Evening up operations in July grain contracts unsettled prices yesterday on the Chicago Board of Trade. Trading in July futures ceased at the close and contracts remaining open can be closed only by delivery of the cash grain. July rye lost 2¾ cents a bushel. July oats developed independent strength and closed 1⅞ cents higher. July wheat was off ¾ cent.

Wheat trading was lighter, and hedging pressure combined with spreading to offset support from cash interests and mills. Elevator interests bought July and sold September at about 1⅜ cents premium for September.

Wheat Prices Slip.

Wheat futures lost ⅛ to ⅝ cent and oats closed ¾ to 1⅛ cents higher. Rye was ⅛ cent higher to ⅝ cent lower.

Speculators were not inclined to press the selling side of wheat futures because of independent strength in Winnipeg, where prices were ⅜ to ½ cent higher on buying induced by crop damage reports from western Canadian provinces.

Eastern distillers believed they would be ordered to convert their plants from grain to molasses or sugar soon, it was said. If tankers were available molasses would be used to make alcohol, otherwise the distillers would shift to sugar, it was asserted.

Wheat Stocks Decrease.

Washington, D. C., July 23 (AP).—The department of agriculture today estimated stocks of old wheat in interior mills, elevators, warehouses, and on farms on July 1 totaled 292,480,000 bushels. This was exceeded only by 306,066,000 bushels on July 1 last year. The seven year [1935-'41] average for July 1 was 94,759,008 bushels.

Stocks of old wheat held in interior mills, elevators, and warehouses were estimated at 102,446,000 bushels, the second largest on record for the date.

DAY BY DAY ON THE FARM

The FARM by Gail Compton

July 23, 1943.

THE oat fields at the Wheaton farm are about ripe for cutting and before long the men will be getting the big combine out to ready it for the job. There is an excellent stand of oats this year and they are unusually clean.

In most years weeds get a start in the grain fields and because cultivation is impossible, grow unhindered until they tower above the oats. This year few green weeds rise out of the fields and the harvest should be better as a result.

The last of the hay finally has been packaged by the baling machine and stored away in the barns. The hay crop was made this year only by dint of extraordinary effort on the part of the workers. Long hours and hard work made up for the lack of workers.

Three Do Work of 10.

Last year there were 10 men in the hay fields helping harvest the forage. This year the job was done with three and four men. The work didn't progress so fast as usual, but no hay was lost. The men did a good job.

All of the first cutting has gone into the barn and hay keeper instead of the silo as in previous years. A look at some of the corn fields justifies this action. Some of the fields have stalks only a little more than knee high. This corn is in danger of getting caught by the frost. If this happens it must go into the silo if it is to be preserved.

The men at the Fox river farm recently were discussing the shrink on a load of cattle. Shrink is the amount of weight an animal will lose during shipment. The particular load of steers under discussion was sent to the farm from Arizona. At the shipping point the animals averaged 613 pounds each. When they arrived at the farm they averaged only 539 pounds. This is a considerable loss but not too heavy considering the animals were in transit 12 days.

Lose 2 to 5 Per Cent.

Cattle generally take a shrink of from 2 to 5 per cent of their weight according to the length of the journey and degree of comfort on the trip. The kinds of feed used in fattening also affect the shrink, as cattle fed large amounts of roughage commonly lose the most weight.

When one considers that the farmer must stand this loss himself it is understandable that he takes extra precautions to keep the animals comfortable during the trip to market. Many farmers shipping hogs by truck during hot summer months place several hundred-pound cakes of ice in the truck with the hogs to keep them cool. At the farm the hogs are washed down with a hose not only to clean them but also to cool their blood after the excitement of loading. It is precautions such as these that save the farmer money and assure the markets receiving stock in top condition.

The GARDEN by Ben Markland

CORN borers are providing a new worry for Chicagoland gardeners. These damaging insects are prevalent in field corn and sweet corn over much of Illinois, with the most serious infestation in the counties along the eastern edge of the state. Gardeners in the south and west suburbs and in the south and west sections of Chicago also are having trouble.

Some infestation has been noted in the large sample garden on the Wheaton farm, particularly in the first plantings of sweet corn. Borers usually infest the plantings which are farthest advanced, and the first area of attack is in the corn tassels. A definite guide to their presence is a broken tassel.

Sweet corn can be protected against borers by the use of rotenone. The farm gardener has sprayed all of his first planting with a commercially manufacutred insecticide [Red Arrow] which contains 1 per cent rotenone. This same spray can be used to destroy borers now attacking the tassels and also can be sprayed over the entire plant to repel the second brood of borers, which will be active during the first week in August.

AIRCRAFT AT DOUGLAS JOBS NOW!

If you feel your future may be in aircraft. DON'T DELAY learning AT ONCE what DOUGLAS can mean to honest, capable men . . . and women. Many Chicagoans have not realized that this great, new CHICAGO PLANT has been completed and is actually producing the famous C-54—the giant combat transport plane called the DOUGLAS SKYMASTER. And aircraft production means jobs in almost every variety of machining . . . plus many special skills new to the entire Chicagoland area.

This organization is young. Opportunity is definite. Advancement is our policy. If you know your stuff—or if you are eager to learn—if you are ambitious and energetic . . . and if you are dependable . . . you owe it to yourself to come out and see what you may be able to do for yourself and for America.

Our tremendous plant has not been publicized. Yet it is wonderful—all new . . . all equipment new . . . all company furnished tools new. Food here is excellent. Good people to work with. The crying need for planes affords opportunity for full time work, with overtime pay at time and a half after 40 hours per week. Group life insurance, health and accident insurance and hospitalization at low cost. A good place to work.

SKILLED

If you are already an experienced and competent machine operator, able to make setups from blue prints, as

Tool and Die Maker
Engine Lathe Operator
Milling Machine Operator
Profiling Machine Operator
Heald Internal Grinder
Excello Thread Grinder
Turret Lathe Operator
Boring Mill Operator
Form Block Maker
Various Other High Skills

UNSKILLED

If you are NOT EXPERIENCED in the skills required for airplane production and want to earn good wages from your first day while you are being trained in our school to do a job for which you may be fitted . . . (nothing to buy).

COME TO PLANT or write at once

If now on full time at your highest skill in war work, do not apply. Bring Birth Certificate or Citizenship papers. Availability Certificate needed if now employed in an essential job.

A-1 TOOL MAKERS

TOOL ROOM MACHINISTS

TOOL ROOM CUTTER GRINDERS

This is your chance to work 60 hours a week in a win-the-war job, at top rates. Probably you've heard about what a grand place this is to work in. Come out and see for yourself.

Remember that everybody here is brand new, including the plant and machines. The organization is growing and good men are finding recognition easy to get.

Ask somebody who works here about the famous food served in our cafeterias. Inquire about the employee benefits, such as insurance coverage, hospitalization, quick parking facilities, etc.

Our employment office is open 7 a. m. to 7 p. m. for your convenience. Come with your birth certificate or citizenship papers, and be prepared to get a certificate of availability. But come right away while these good jobs are still open.

ELECTRICIAN for maintenance in one of the world's most modern plants

You've heard of the great Dodge Chicago Plant. It has everything that modern science could suggest. This is your chance to work under ideal conditions with every advantage of equipment and construction facilities.

Preference will be given if you have had industrial experience. If you can qualify, you will be eligible for low cost insurance, including health and hospitalization. If you live at a distance, our Rationing Department will help you solve transportation problems. You will be offered food of fine quality, with prices at a minimum in light, large, cool cafeterias that are the last word in pleasant surroundings.

At present we are working 48 hours per week at top rates.

Come out for a personal interview. To save your time, please bring birth certificate or citizenship papers and be prepared to secure certificate of availability. Employment office open from 7 a. m. to 7 p. m.

WOMEN—GIRLS for ESSENTIAL WAR JOBS

We still require several hundred girls and women willing to help us build war equipment for the army and navy. You do not need experience to become a valuable war worker.

We will teach you how to assemble, wire, solder, test, or inspect and how to operate miscellaneous machines such as drill press, punch press, milling machine, lathe, etc. You can earn while you learn. Good starting rate, automatic increases and many opportunities for advancement.

Our plants are conveniently located for west side, northwest, and southwest side residents. Right now we are in greatest need of workers at our west side plant.

Call now at our employment office and let our interviewers tell you how you can help produce important war materials. You will enjoy working for one of Chicago's oldest, largest, and best known industrial organizations.

BRENDA STARR REPORTER
By Dale Messick
WHEN KEN McKEE CARRIES BRENDA INTO THE APARTMENT, AND DEMANDS A POT OF STRONG COFFEE, COUSIN ABRETHA IS SO TERRIFIED, SHE CANNOT MOVE.
OH! WHAT HAVE YOU DONE TO BRENDA?
SHE'S ALLRIGHT, BUT WE BOTH NEED SOME COFFEE. SO SHAKE A LEG....
YES, ABRETHA, DON'T BE AFRAID OF KEN. HE'S NOT CRAZY.
?
RING RING
GOSH-ALL-FRIDAY! WHY DIDN'T YOU TELL ME SOONER? BRENDA, MY KNEES ARE POPPIN' LIKE A MACHINE GUN ON A JEEP!
HELLO!
YES, IT'S I....SURE I'M O.K. WHAT, YOU'VE GOT JULIAN? SWELL! DON'T DO ANYTHING UNTIL WE GET THERE....
COME ON, KEN. THEY HAVE JULIAN AT HEADQUARTERS.
ARE YOU FEELING WELL ENOUGH TO GO?
HA! I NEVER FELT BETTER IN MY LIFE!
IS JULIAN GOING TO BE SURPRISED TO SEE US!
LATER, AT HEADQUARTERS
DARLING! TELL US WHAT HAPPENED?
OH! TOM, PLEASE! ALL THESE PEOPLE! DETECTIVE TRAVERTS, DO YOU STILL HAVE THAT BRACELET?
YES!
NOW, WHAT'S ON YOUR MIND?
WITH THIS LITTLE TRINKET...I'M GOING TO GET THE NEATEST CONFESSION OF MY WHOLE CAREER. WHERE'S MR. JULIAN? HE AND I ARE GOING TO HAVE A CHAT.
JULIAN IS A SLICK CUSTOMER.
BRENDA, YOU CAN'T PUT THAT BRACELET ON JULIAN....IT'LL KILL HIM!
DON'T WORRY. HE'LL TALK BEFORE THAT HAPPENS.... AND TALK PLENTY!!
THERE'S NO USE HOLDING ME....SEE MY LAWYER!
A LAWYER CAN'T HELP YOU NOW, BIG BOY!
